Nipissing 10 Vipissing was not dealt in.

Hargraves was the feature of the unlisted section, selling up four points to 41 1-2; Wetlaufer did not hold yes-terday's advance and sold off to \$1.36. The market at the close was irregular, with firmness in spots. Prices at present levels show some resiliency and local brokers voice the opinion that should a better speculative demand arise, good recoveries will be made, but as long as the public remain an-tagonistic to the market, the trend is

The search of the mining market during the sisues, business continued on a large scale, with prices at the close comparatively unchanged on the average, such declines as occurred being fully balanced by gains in other directions. Public liquidation seems at last to have more or less run its course and while there was little that was new in the way of developments to alter the drift of sentiment, traders seem to entertain a greater spirit of hopfulness than for some time. Were it not or the uncertainty that still are seen to entertain the trend of neighbor the service of Public liquidation seems at last to have more or less run its course and while there was little that was new in the way of developments to alter the drift of sentiment, traders seem to entertain a greater spirit of hopeful ness than for some time. Were it not for the uncertainty that still dominated the trend of prices in the olg market, where housecleaning is still proceeding, it is the opinion of good at 27%, 500 at 27%,

day on the Standard Stock and Mining Exchange amounted to 656,698 shares and on the Toronto curb to 66,170, in all 722,868 shares, having a value of \$293,878.72.

Increase in Nipissing Shipments.

BOSTON: In December, 1909, the Nipissing Company mined ore of a value of \$180,802 and shipped ore of a net value of \$257,432. Total shipments for 1909 amounted to 6510 tons, valued at \$2,210,364, as compared with shipments of 3505 tons in 1908, valued at \$1,365,788, so that the 1909 increase over 1908 was so the toronto curb to 66,170, in all 23%, 100 at 23%, 500 at 11%, 250 at 17%, 200 at 18%, 200 at 18%, 2000 at 18%, 2000 at 18%, 2000 at 18%, 2000 at 23%, 500 at 23%, 500 at 23%, 500 so that the 1909 increase over 1908 was 86 per cent. in tonnage and 62 per cent.

#### PORCUPINE TOWN SITE

The Townsite of Porcupine, which has just been located by the minister of mines, is shown in the accompanying map. The south limit of the town as above laid out is the line of the road from both Matheson and Kelso (mileage 222). From the new townsite the winter road at present crosses the lake in a southwesterly direction down to the south end of the lake, where there is some talk of another town, and from there on it runs thru Tisdale, where most of the best discoveries have been made. The ground of the new townsite is well elevated, and is convenient to all the traffic, and is especially to be commended because it is right on the river, and the river and The Townsite of Porcupine, which the lake, and the townsite on it, are

## SHUMAH TOWNSITE BUILDING UP RAPIDLY

The first section of thirty bedrooms is now under way and it is expected will be completed in less than two weeks This townsite is close to the Porcupine River. It will have the best wharfage along the lake and is the most conveniently placed for accommodating the canoe trade and summer traffic coming in by mileage 228 and Wilson Lake when the lake and rivers open. It is also conveniently situated for the

greater part of Tisdale.

A road about a mile in length has been cut to Golden City, so that there is a thru route to Matheson, and as house at Night Hawk Lake to the road which runs into Porcupine from mileage value of \$1 each. The United Co 222, there will be an all-stage route thru to Matheson in summer time and
