PREMIER WELCOMED ON RETURN FROM ENGLAND

Montreal, Sept. 3.—Sir Robert Borden was welcomed to Montreal tonight, on his return from England and the battle front in France, with a demonstration of patriotism that probably never has been equalled in this city.

His message was one of confidence in the outcome of the war, and he expressed a sincere belief in ultimate victory for the British Empire and her Allies. "I come back to Canada," said the premier, "with a true sense of the unity of our Empire than I ever had before. After seeing Canadians and men of every part of the Empire at the fighting lines, I come back to you with this message: They are determined that the great cause for which they are fighting—a cause which involves your liberties and the liberties of the whole Empire and the allied nations, as well as the future destinies of the civilized world—that cause shall be made good on the field of battle, and this war shall never terminate until the cause of the Allies is crowned with complete victory."

MORE THAN HORSES.

(Halifax Recorder.)

The evidence given at the "Horse Investigation" is in part ridiculous, in part squallid, in part showing a complete lack of conscience in some individual horse

traders and a complete lack of almost everything—in some veterinary surgeons. Yet the horse transactions are perhaps the least important part of the "doings" of the government and its agents, and the investigation thereof largely serves to distract attention from much more serious matters. What the people of this country would like to have investigated is the working of the whole patronage system since the war began. The selling of food supplies, of harnesses, of rugs, of hay, oats, rubber boots, and many other things connected with government purchasing for the struggle in Europe. The better question, the cheese question, the canned corned beef question, the sugar question, and the question of hardware purchases might all be looked into with advantage to the public purse. Have drug supplies always been purchased from druggists? Have shoes, rubbers and leather always been purchased from shoe dealers and at contract prices? Have hardware dealers been limited in their contracts to the selling of hardware? Have members of parliament been profiting directly or indirectly by government orders?

Would an investigation of all these things meet with public favor? We emphatically think it would.

W. A. Rauls, judge of the Probate Court of Jasper County, S. C., has lived successfully in three counties without ever having moved out of his house. At first the house was in Beaufort County; then Hampton County was formed, and the judge's house was included; and finally Jasper County was created and the house was in this area.

DIAMONDS!

Do you know that there is "A Reputation" of years behind every Diamond that we sell? And do you know that the "Values"—backed by our personal guarantee of every stone—has made "That Reputation"? Our stock—both of set and unset stones—is one of the most carefully selected stocks in Canada, and for this reason you cannot make any mistake in purchasing from us. Please call and examine our Diamonds.

MORNING WAR SUMMARY

London, Sept. 3, 10 p. m.—The Germans in their official report today, claim to have carried by assault the fortified bridge-head at Lennewa, on the Dvina river, between Friederichstadt and Riga. This is considered, for the Russians, the most critical point on their whole front, for should the Germans succeed in crossing the Dvina the Russians would be compelled to evacuate Riga, and their position between the Dvina and Vilna, and even southwest of the latter city, would be jeopardized.

However, the Germans do not yet claim to have crossed the river, which is being defended by a reinforced army, under the command of General Ruzsky, who has proved himself to be one of the greatest strategists of the war, and who brought the previous German advance to a stop on the Bzura river in front of Warsaw. It is believed by military critics that the Russians will make a stubborn defence on the Dvina, the opinion being expressed that should they fall the German fleet would gain command of the Gulf of Riga, and by landing troops at Pernau would considerably shorten the protracted march to Petrograd, which is understood to be the ultimate objective of the German higher command.

Concerning the operations at the Dardanelles no news has been received since the report last Wednesday from General Sir Ian Hamilton, commander of the British forces on the peninsula.

The continued successes of the Austro-Germans in the east leads many writers to the conclusion that the sustained bombardment of the German lines in the west means an early move by the Entente Allies. The critics point to this, the thorough redistribution of the British and French armies, and the shelling of Zebruggé some days ago, as heralding something at least preliminary to a general offensive.

Paris, Sept. 3.—The French military of marine gave out today a note outlining the operations of the naval aeroplane squadron since the opening of hostilities.

"Last week, notwithstanding heavy artillery fire and the glare of rockets, our aviators dropped during the night, more than three hundred 90-millimeter bombs on German naval bases along the Belgian coast, besides taking an effective part in the bombardment of Moushelt forest on August 25. All the machines returned although several of them were damaged severely.

"In Egypt and Syria and at Venice our hydro-aeroplanes have shown great activity. Engagements occurred recently with Austrian hydro-aeroplanes, which were put to flight. One of them was pursued as far as Pola by a French machine."

Paris, Sept. 3, 5:35 p. m.—Adjutant Bertin, of the French aviation corps, has been cited in the orders of the day, and awarded the decoration of the Legion of Honor, for alighting behind the German lines and bringing back in safety Adjutant Boyer, who was compelled to set fire to his machine as the result of an accident.

Bertin's landing point was about four miles beyond that of Boyer. On returning after executing his mission, Bertin saw Boyer's machine in flames. He landed in face of a heavy fire, picked up his comrade and flew back to the French lines, with a fragment of a shell in his thigh. The aeroplane was struck in ninety-eight places by bullets and pieces of shells.

\$300,000 FOR PATRIOTIC FUND

Sum Required For Coming Year—Average of 50 Cents a Month From Each Family Would Do It—Plans For Campaign

It was resolved that a start be at once made in getting further provincial support for the Patriotic Fund by lump sums and monthly contributions, at a meeting held at the board of trade rooms yesterday afternoon, which was presided over by Judge Forbes and at which Lieutenant-Governor Wood was present. After a statement by C. B. Allan, treasurer of the fund, that the money in the province would be at an end about Oct. 1, Dr. A. P. Barnhill moved and Senator Thorne seconded a resolution that a committee be appointed to arrange for an immediate campaign in further support of the Canadian Patriotic Fund, the Rotary Club to appoint three members, the board of trade three, the Knights of Columbus three, the Automobile Club three, together with the executive of the St. John branch of the Red Cross, and, to organize and adopt methods and to start collections.

Senator Thorne in seconding, said that the province would necessarily have more demands made upon them as the recruits increased and it should be a pleasure to those who had not gone to do all they could to make some sacrifice to sustain the fund. So far as the province of New Brunswick was concerned he thought they should not allow it to be said that they had called upon the central fund for aid. He felt that there were many wealthy men who would make as many sacrifices for the fund as some of the men of more modest means, men on salaries, were already doing. They could even do more to help other districts where there might be a deficiency.

"It would be, I think, a disgrace for the province not to meet the needs of the province who have gone to the front?"

Already, Senator Thorne added, a deficiency was facing the committee and while they knew that citizens had been generous and the ladies had worked hard, there was much more to do. Yet he believed that in the future there should be

more effort for the Patriotic Fund and the Red Cross.

Hon. J. E. Wilson suggested that all the fraternal societies in the city might be asked to co-operate and eventually the resolution was extended to include this.

Lieutenant-Governor Wood said that the whole matter had now come into the nutshell after the year's experience. They had found that \$150,000 was insufficient, and would have to extend it. Payments had only been at the rate of between \$10 and \$15 a month to dependents and that could not be said to have been extravagant.

"At the present schedule we shall require \$200,000 for the next year. The number of families now receiving aid is 17,000 and at the rate we are going we will need \$204,000, and this will necessarily grow. I believe we may want between \$250,000 and \$300,000 in the year. This is a large amount, but when the case is fairly and plainly put before the people of the province I think they will provide it."

Baby and Summer Colds

To protect baby from summer troubles you must be especially careful about his food. See that it is pure—protection against sourness and infection by flies, etc. See that it is nourishing, digestible, and suited to baby's age, growth and digestive powers.

COSTUME SECTION—SECOND FLOOR

Manchester Robertson Allison, Limited

to give this than that the province draw on the central fund. The population of the province is about 500,000 and there are about 70,000 families. Of these about 20,000 would have to be deducted for poor, etc., but that leaves 50,000 families who would have to be provided for. The present contributions would be 25 cents a month, or \$3 a year. Even if the amount were doubled it would only be 50 cents a month per family."

The lieutenant-governor recommended the monthly instalment system and hoped that the movement to get funds would be spread wider.

Others spoke, and A. P. Allingham said that the Rotary Club would appoint its members at a committee meeting. W. J. Mahoney nominated for the Knights of Columbus himself, Henry McCullough and Jas. B. Delaney. The mobile Club members would be appointed later and the members of the board of trade selected were R. B. Emerson, J. Hunter White, M. F. Ganong, the president, J. A. Likely, and the secretary. For the Patriotic Fund executive the chairman nominated Senator Thorne, who would act as convener of the whole committee; Dr. A. P. Barnhill, L. P. D. Tilley and C. B. Allan. It was desired that the whole committee get together for the first meeting by at least Tuesday.

THE FRUIT TRAIN

Did you know there was such a thing as a fruit train? Neither did I until Mr. Gabel, inspector of the Fruit Branch of the Dept. of Agriculture, told me of it and offered to take me with him on one of its trips. We left St. Catharines early in the afternoon, after taking on some peaches, early apples, tomatoes and berries. We stopped at all the stations in the Garden of Canada, from Jordan to Burlington, gathering carloads of delicious, luxurious fruits to be taken to fruit-hungry people in all parts of the country.

The inspector was everywhere, with his little hammer, opening baskets and boxes to see that the fruit was not "overfaced," or, in other words, that the big ones were not on top, and all the rest little ones. At Vineland we were joined by Mr. Clement, who has charge of the Ontario government Experimental Farm at Vineland. His business is to produce new varieties, and make experiments that the commercial grower cannot afford to spend the time nor money in making. The knowledge garnered by much hard work, and watchful waiting is passed on to the growers for their profit. With the Ontario government to assist the producer and the dominion government to protect the consumer, the system, to an ordinary observer, seems perfect.

The Fruit Train makes its trip every day during the fruit season. It is run by the Canadian Express Company, and Mr. Hickey, express superintendent, is on hand to see that the packages are carefully handled, so that the "ultimate consumer" shall get one hundred cents' worth of fresh, undamaged fruit for his dollar.

DISCUSSED SCHOOLS OF JOURNALISM FOR CANADA

Toronto, Sept. 3.—The chief topic at the final session of the Canadian Press Association was the establishment of a school of journalism in connection with one or more of the Canadian universities. Dr. Talcott Williams, director of Journalism at Columbia University, was the chief speaker. The matter was left in the hands of a small committee.

Major Ernest J. Chambers, chief press

censor for Canada, gave a talk on censorship. He stated that several rabid pro-German papers, principally in the prairie provinces, had been brought to time and one had been compelled to go out of business. The press of Canada, he said, as a whole, was imbued with a sense of loyalty, but occasionally indiscreet disclosures were made which had to be guarded against.

Resolutions expressing the association's loyalty to Great Britain in the war, and pride in the fact that a number of members are serving with the colors, were passed unanimously.

The following officers were elected: President, W. E. Smallfield, Renfrew; past president, H. B. Dunlop, Simcoe; former vice-presidents—maritime provinces division: D. F. McLean, Fort Hood; Ontario and Quebec division: J. G. Elliott, Kingston; Manitoba and Saskatchewan division: E. K. Macdonald, Winnipeg; Alberta and Eastern British Columbia division: J. H. Woods, Calgary Herald; Western British Columbia division: John Nelson, Vancouver World; Treasurer, George E. Scroggie, Toronto Mail and Empire.

Chas. H. Heaps of Oxford, on Thursday evening bought an acre of land; Friday morning he bought some lumber, and had it on the ground at eight o'clock, and with the help of his wife, who held the uprights, he finished a two-room house, fifteen feet by 20, and moved his furniture into the building Saturday night.

Conrad Duboski, a twenty-one-year-old Russian giant, who is working on the farm of J. Polakof in Lebanon, Conn., is seven feet two inches tall.

The Tennyson family are noted for their longevity. Miss Matilda Tennyson, who died recently, was in her 99th year. Charles was 71 at the time of his death. Mary 74, Emilia 78, Alfred, poet laureate, 89, Frederick 91, Arthur 85, Horatio 80, and Cecilia 92.
