

# THE DALTON-HOWATT SILVER BLACK FOX COMPANY LIMITED

Head Office at Coleman, P. E. I.

## CAPITAL STOCK

The Company is Capitalized at \$165,000.00 Divided Into 1650 Shares of \$100 Each

## THE FOXES

We have six pairs of Silver Black Foxes, including the choicest selection of the Dalton-Raynor-Lewis Strain. The stock needs no further comment as they are the world's best.

## AN UP-TO-DATE RANCH

Our caretaker and manager, T. Major Howatt of Coleman, P. E. I., who is one of the most successful and experienced fox breeders on P. E. I., has entered into an agreement to deed to the Dalton-Howatt Silver Black Fox Company four acres of land together with an up-to-date ranch. In point of location this ranch is second to none.

## ESTIMATED PROFITS

All expenses of every kind, such as cost of land and ranch as well as the care and feeding of foxes, have been provided for by the organizers. This guarantees that every dollar received by the Company from the sale of foxes or otherwise goes directly into the pockets of the stockholders as profits. On this basis an exceptionally large dividend is assured. The foxes consist largely of breeders which this year have shown themselves very prolific. They only need to do as well next year to insure a dividend of at least 100 per cent, and as foxes breed best after their second year, these breeders next year should reach their most prolific age. While a profit of 100 per cent. is a very large one—in the black fox business, under up-to-date and scientific management, it is not at all uncommon and has been declared to our personal knowledge by some companies this year.

Now then, what are you doing with your savings? Have you been satisfied with 3 per cent? Are you satisfied now with 3 per cent when you know that you can make from 50 to 150 per cent?

Fill out the accompanying application form today while stock is still available.

## FREDERICTON AND BANGOR THE VICTORS

Marathons Lose Close Game With Capitals—Tail-enders Trim Fast Border Team

N. B. and Maine League Standing.	Won.	Lost.	P.C.
Fredericton	9	4	.692
Marathons	10	7	.588
St. Croix	7	6	.539
Bangor	8	12	.200

Fredericton won Saturday's game from the Marathons by 5 to 4. One of the Fredericton runs should not have been allowed, and the runner should have been out. Had Umpire Hanley properly decided, the game might have been a different ending or at least been extended into a contest of ten innings or more.

Fryer cut third base in making for home from second on a drive to the outfield. It was plain to all who were watching him that he did not touch third base. With the saving cut he reached home just in time to beat out the throw in. Hanley was appealed to by O'Brien, the St. John guardian of third, but the decision stood. Then he appealed to Joe Page, who was umpire at the plate, but he declined to interfere, as it was Hanley's place to decide. There has been some talk over the responsibility for this decision and it is understood that before the game it was agreed that Mr. Page should judge balls and strikes and the home plate decisions and Mr. Hanley the field and first, second and third; and that this was communicated to the captains of the teams and declared satisfactory.

The net result, however, is that St. John lost a chance of winning what was a decidedly interesting ball game. For four innings it was big league on the Marathons' part, there was not a hit off the bat, but clean, snappy play and not a Fredericton player reached first base—twelve men to bat and twelve out.

In the fifth Shanley gave a couple of passes, there were two hits and two errors, and the net result was four for Fredericton. Fryer's score, before referred to was the only one made.

The Marathons made one in the first, Pinkerton making his bow with the first hit and the first score. They made two more in the second. The local men were hitting Abernethy nicely and one or two errors helped them. But they could not connect effectively afterwards, hits being scattered and some sharp fielding and double plays spoiling chances.

In the ninth with two needed to tie and three to win, Shanley came to bat

and sent a beauty to the right field fence for a three-bagger. O'Brien's single sent him home and it looked good but nothing happened to result in a score.

Notes of the Game

delighted the crowd—by striking out. He was the crown—by striking out. There were many facetious warnings from the grand stand to the umpires about spikes.

O'Brien played a fine game. Shanley's three bagger brought 2,000 people to his feet. O'Brien was right about that third base incident, but the umpire's word is law.

Fredericton, after Friday's experience, toned down considerably. Marcotte played a good snappy game at third for the visitors, and assisted materially in keeping the Marathons from scoring several times.

Pinkerton, although in town but a few hours, jumped into the game at second and came through in fine style. He should add strength to the Greys. It looks as if Bangor is coming back. At all events they are on their way. Manager Magoon's good work is beginning to bear fruit.

Bangor 6, St. Croix 3

The Bangor Maroons took their second victory from the St. Croix team in Bangor on Saturday, 6 to 3. The Maroons tried out a new pitcher, Wallace, and his delivery proved somewhat difficult for the borderers, they being found for only six hits. Howard was on the mound for St. Croix and pitched a good game, but the Bangor hitters took advantage of critical times and pounded out hits that tallied.

Bangor scored two each in the first, third and sixth innings. St. Croix got one in the sixth, one in the eighth and in the ninth with no one on bases. Tetrault drove out a lone one to right field which netted him four bases. After this Wallace settled down and re-

## Newsy Bits About The N. B. and Maine League

The Ganley Case—Pinkerton's Return to St. John—Bangor Deal With McGovern Likely Off

People at Saturday's game on the Marathons' grounds wondered at seeing Ganley, of Fredericton, in the game after his suspension by Umpire McCann. It is explained that the umpire's power extend only to the game and the suspension period is then fixed by the league president. Hooper is yet to be heard from in this connection. Ganley's offence calls for action if discipline is to be maintained, and the patrons protected from such scenes as that of Friday. The public awaits with interest the decision of the executive in the Ganley case.

Hugh Pinkerton came in from Sanford, Me., on the noon train and jumped into the game at his old position on second. A railway trip does not put one in best shape, but "Pink" made a hit, a run, had four put-outs and two assists. One error was the only black-

mark. His popularity was shown by the rousing reception given him.

The snappy second-sacker will strengthen the locals materially. He is the property of the Chicago White Sox and so comes from high estate. The deal for his coming to St. John has been in progress for some time and was put through with Joe H. Page, who is the Canadian representative of the White Sox. The sanction came from Comiskey last week.

Some days ago the Times intimated that Manager Magoon had important deals on. One of these, though it could not be announced at the time, was with Fred McGovern, St. John's sturdy out-cher of last year. He is the property of the Montreal Royals and let out by them to Wilkes-Barre. He was free to come to this circuit, however, but it is believed now that terms have not been agreed on and that he will go either to the York team of the In-State League or Bay City of the Michigan League.

## The Kidneys Are To Blame

WHEN A WOMAN'S BACK IS NOT STRONG.

Women are coming to understand that weak, lame and aching backs from which they suffer are due to wrong action of the kidneys.

The kidneys are overtaxed, given more work than they can possibly do—then they cry out in protest through the pain in the back.

When the back aches and pains it is almost impossible to do her housework, for every move and turn means pain. On the first sign of backache Doan's Kidney Pills should be taken so as to avoid all this suffering.

Mrs. Harvey W. Brownell, Northport, N.S., writes:—"I now take pleasure in writing you, stating the benefit I received by using Doan's Kidney Pills. About a year ago I was terribly afflicted with lame back, and was so bad at times I could not sweep my own floor. While looking through B.B.B. Almanac, I saw Doan's Kidney Pills were a great kidney remedy. I did so and found great relief. After using five boxes I was completely cured, and I am very thankful to have found so speedy a cure."

Price, 50 cents a box, 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct, specify "Doan's."

It was 809 years on April 56 since the Bank of England was founded.

## M. J. BUTLER TO HAVE CHARGE OF NEW STEEL PLANT

Further Details of Project of Big English Works Near Montreal

(Montreal Star)

Additional details concerning the Armstrong-Whitworth steel plant which is announced in "The Star" yesterday, is to be built on the south shore near Longueuil, were made public at the Longueuil Council meeting last night, when the members decided unanimously to grant tax exemptions for twenty years on behalf of the industry which it is expected, will be such a boon for the south shore.

Details of the gigantic project were outlined before the council by J. J. Westgate, of the Hudson Bay Knitting Co., and W. B. Powell, of the Montreal and Southern Counties Railway, who have taken a great interest in the negotiations which were carried to a conclusion recently, while Sir Percy Grey, and was in the city. M. J. Butler, formerly vice-president of the Dominion Steel Corporation, will act as consulting engineer of the new Canadian branch of the great British firm, and will also have charge of the works to be started near Longueuil. Associated

## CONSTIPATION

Can Be Cured.

You cannot expect to be well if you allow your bowels to become clogged. What is necessary is to have a free motion of them every day, and to keep them in this condition all the time if you wish to be strong and healthy. If you don't keep them open the system will become clogged up with poisonous matter and produce constipation, headache, dyspepsia, bad blood, etc.

Keep the bowels in good condition by using Burdock Blood Bitters; the remedy that has built up an unrivalled reputation, during the past thirty-six years, as a cure for all troubles arising from a constipated condition of the bowels.

Mrs. Thomas Calder, East Lower Fort Garry, writes:—"I am writing you to let you know what Burdock Blood Bitters has done for me. I suffered very much from constipation and none of the medicines I took agreed with me. Now I am glad to say that there is nothing like B.B.B. Since taking it I have not been troubled."

Burdock Blood Bitters is manufactured by The T. Milburn Co., Limited, Toronto, Ont.

## Boxer's Find it Profitable to Follow Bat Nelson's Style

By TOM ANDREWS

When it comes to advertising, there is no boxer in the world who can touch Battling Nelson, ex-champion light weight. The Battler has been in the game actively for the last ten years and it is a safe bet that during that time he never missed an opportunity to "put over" a good or poor story if there was the slightest chance.

Although the Battler has been out of the championship class for two years or more, he is better advertised in the daily papers than most of the fighters who are supposed to be near the top of the ladder. The wonderful Dane cannot get a fight to boost his stories, telling old and young how to "live 100 years." He will even offer to edit the entire paper if the man along, he takes up physical culture work and writes editor will stand for it—anything to let the peo-

ple know that Oscar Battling Nelson is on deck, ready for business. Recently I had a letter from Bert Flach, manager of Jimmy Duffy, a New York state light weight, which he said that he had a boy who could beat all the 133 pounders in the world outside of about two, but that he could not get any recognition for his boy. He wrote Bert and simply told him to follow Battling Nelson's system, and since then he has, with pretty good results, for Mr. Duffy has been going some guns, an-

against good boys.

The youngster hails from Lockport, N. Y., and during his short career in the fighting game he has had more than fifty battles, mostly around Buffalo. He gained his greatest prominence when he fought Packer McFarland, who he supposed to be near the top of the ladder. It was taken by many on the outside, however, as one of those fights in which Packer was satisfied to outpoint his man and get it over with, but from the showing made by Duffy since that time it is plain now that he stayed the ten rounds because he had more than ordinary amount of stamina and boxing ability. Duffy has shown considerable class in the last six months, meeting such cracks as Freddy Welsh, British champion; Leach Cross, Knockout Brown, Harry Thomas, an Australian, Young Jack O'Brien, and last, but not least, Ray Temple and a Britton, winning from the latter on a foul in six rounds. Any boy who c-

Boxer's Find it Profitable to Follow Bat Nelson's Style. Ray is right there are few more clever than he.

with Mr. Butler will be George E. Foster, K.C., as one of the trustees of the company.

Have Bought Land. It was announced that the land near Longueuil, comprising 250 acres, had been purchased for \$400,000 and that contracts for the buildings, which are to cost \$1,000,000, are to be awarded in a few days, with the expectation that the plant will be ready for operation by May, 1914. In the beginning, the works will give employment to 400 men. As the operations increase, it is expected that fully 5,000 will be employed.

Apparently certain members of the Longueuil council were afraid that the plans disguised a huge warship building firm, but fears in this respect were quickly allayed by Messrs. Westgate and Powell, who explained that it would be a distinctly commercial undertaking, involving products of the highest quality of steel. The main building will be 800 feet in length, and will be built of concrete and steel. There will also be buildings for the housing of twist drill, tool steel, hammer department, rolling mills, steel foundries, crucible castings, steel forgings, etc. Among other lines, it is especially announced that lock gates and steel barges will be manufactured.

The land for the plant was purchased from James E. Wilder. It extends from the river front to the Gentilly road south of the town of Longueuil.

Scott's Emulsion assimilates so quickly it conserves energy and compels health.
