A THRILLING TRIP.

The self-propelled steam hopper scow No. 6 arrived in port yesterday from Buenos Ayres after a terrible battle against the elements. From the time the scow passed Cape Hatteras on Sunday night until Tuesday night, the craft was constantly in danger of being swamped by the hurricane that prevailed, while the water that had accumulated in the engine room threatened to extinguish the fires. The first sight of the city yesterday was a great relief to the much spent crew.

THE BIDDING FOR THE ELAINE

River Steamer May be Sold—Youngsters Enjoy Outdoor Skating—Fifty Conversions at Special Services

Negotiations are under way for the sale of the steamer Elaine. It is understood that several Frederi[illegible]ple are interested in the purchase but are not willing to pay the price asked. It is also rumored that one of the steamship companies with head office in this city is anxious to buy the Elaine if at a reasonable figure. In all probability she will be sold before spring to some one and with another boat added to the route between the city and Fredericton, the accommodation on the river next year should be even better than during the season just ended.

The young people of the North End are already taking advantage of the outdoor skating rink which has been arranged for them at the mill pond back of Victoria street by Commissioner Wigmore who has made arrangements with the Stetson Cutler Lumber Company to have the sluice closed during the winter so as to increase the volume of water, making a much larger surface for the benefit of the lovers of winter sport.

The weather has hardly been cold enough to make the ice safe enough for skating yet, but yesterday, after a heavy frost the night before, the ice looked tempting and could not be resisted by some who were eager to try their skates. The ice gave way in two places and two young boys went through. They were somewhat frightened but otherwise were none the worse for their ducking.

The evangelistic meetings in Douglas avenue Christian church have so far resulted in fifty conversions. Twenty-six of this number were this week. Evangelist Lowell C. McPherson last evening spoke from the text: "I conferred not with flesh and blood" Gal. 1: 16. In part Mr. McPherson said:—

"The Apostle Paul's authority constantly appealed to was the secret of his great victory in the Gospel, and such must be the secret of all true success in preaching Christ. Paul meant that he entrusted not himself with human wisdom to guide him in his great ministry. His conversion is a wonderful proof of the gospel's power on men of distinction, learning and energy. Paul was a genius in anything he undertook. Converted, he took an independent course, humanly speaking. Not that he ignored his brethren, the other apostles, but that he intrusted himself exceptionally to God.

"He did not consult believers lest he appear to receive the gospel second-hand; nor to relations, because they would have advised caution, trying to dissuade him from his course. And he was far from consulting his earthly interests. He gave them all up for his Master. He even considered not his own safety.

"Faith in God needs no warrant but God's character, promises and will. Would you ask a true wife to give you more evidence of loyalty? It would be to insult her love if she had all the evidence Paul had, with that of nearly 2000 years of the vital influence of Christianity added. We certainly should trust God as much as we trust a conductor of a train of a captain of a boat.

"Paul's triumph demonstrates the undoubted results of profound faith in God. If all professed Christians should trust God as did Paul, it would not require ten years to convert the entire world. Is it not practicable?

On Sunday Mr. McPherson expects to preach at 11 on the subject, "The Love That Covers Sin." and "Opposition to Christianity and the Bible Answers."

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Army Service Corps.

A jolly time was spent last evening in Bond's restaurant in King street by the officers and sergeants of No. 7 Army Service Corps at a dinner held upon the closing of the school of instruction. Major McKean presided and on behalf of the sergeants of the corps, presented a valuable gold watch to Sergeant Instructor Hennessey of Halifax, who has had charge of the school. A pleasing programme was contributed by Lieut. D. B. Pidgeon, Lieut. A. G. Rainnie, Sergeant J. C. Bond, Sergeant W. J. Devennie, Sergeant R. Harding, D. Arnold Fox, and others. The appointments of D. B. Pidgeon and A. Gordon Rainnie as lieutenants have been gazetted.

Radway's Ready Relief
Jacob Able of R. F. D. No. 1, Millstown, N. J., writes: "For the last three years I have had kidney disease and backache, and I have had it so bad that for eight days and nights I could not get my clothes off. I thought I would try Radway's Ready Relief. I gave my back and hips and sides a good rubbing, and in a short time the pain was all gone. No one in this world knows but God and myself the misery I was in till I USED Radway's Ready Relief."
CURES LUMBAGO
Radway's Ready Relief should be well rubbed over a large surface, until a glow is produced, with a burning sensation. Few cases require the Radway Pills. Some do, when a dose on retiring would be taken.
