CITY TEAMSTERS PRESSING FOR AN INCREASE

Matter Left to Discretion of Commissioners, Mr. Fisher's Reply

In the absence of the mayor, Commissioner Bullock presided at the regular meeting of the common council which was held yesterday afternoon. All the other commissioners and the common clerk were present. After the reading of the minutes of the last meeting, the report of the committee of the whole was adopted. It recommended that the city take three pages of advertising in the city newspapers at a cost of \$68 per page to assist the local Victory Loan committee in its work; that the salary of Miss Dorothy Nixon, who has been appointed by the chairman of the assessors as a permanent clerk in the assessors' office, be fixed at \$600 per annum; that the amount of the estimate of the cost for renewing the cross wharf between the North and South Rodney wharves be further increased by \$100 and that the final estimate of the city engineer on Richard R. Lee's contract, amounting to \$885, be passed for

payment by the controller when sufficient time has elapsed that no liens may be against the work; that the offer of \$200 from S. C. Tippett for a conveyance in fee simple of Lot No. 1 on the Manawagonish Road as set out in the plans of city lands, be accepted, Mr. Tippett having agreed that the lot will be built on within a reasonable time and that the cost of the proposed house will not be less than \$5,000 and will be located on the lot according to the lines prescribed by the Town Planning Commission. On the recommendation of Com. Bullock the lease now held by Peter Chagnar of a lot on the northern side of Rodney wharf, which expires on Dec. 1, was renewed to him for another term at an advanced rental of \$800 per year under the same conditions as the present lease. A letter from J. H. Beatty, secretary of the Teamsters and Chauffeurs' Union, was read complaining that the members of that union who were employed by the city had not received the recent advance authorized by the common council to city employees. Com. Fisher said that apparently it was not understood by the writer that the resolution passed by the council authorized the commissioners to grant the increase at their discretion and he moved that a copy of the resolution be sent to Mr. Beatty. If they were not then satisfied that they had been treated fairly, Com. Jones said he was in favor of having the matter up with the head of their respective departments before referring it to the council as a whole. A letter was read from the St. John

A Positive Way to Cut Costs

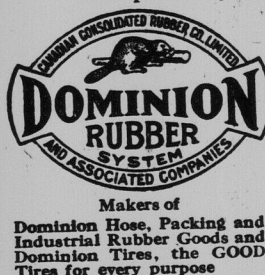

The most progressive manufacturers employ efficiency experts to lessen the cost of production. These experts charge large fees, which are willingly paid because they usually return the expense incurred a hundred-fold.

In Canada there are many manufacturers who could wisely and profitably employ an efficiency expert; many of them are paying for power which they never use and they do not realize that their present equipment is stealing part of their profits.

It is to give expert service on Transmission Belting that we maintain a Service Department, absolutely free to manufacturers, as a means of cutting their cost of production. The services of these experts are available through any of our Service Branches—that your present power waste may be eliminated, that the majority of your transmission troubles may be done away with, that you may learn the benefits to be derived from our

governor, in an inspired interview, to suggest where he will look for a leader, or how he will deal with the situation. His natural course is to call upon the successful leader of the Liberal party to form a government. It will be time enough to discuss the question of an outsider when it appears it will be impossible for the groups to get together in the common cause of establishing popular government.

"The people of the province of Ontario are not in the humor to tolerate any further manipulation of the business of government, no matter what source it comes from."

Will Carry On.
I shall certainly carry on until a new Ontario government is formed," said Sir Adam Beck, chairman of the Hydro-Electric Commission, in an interview here today. "What I shall do after that cannot say."

Sir Adam was asked what his attitude would be in the event of his being called upon to form a government and thus succeed to the premiership of the province. He declined to commit himself. Premier Hearst will arrive from the Sea tomorrow morning and a cabinet meeting has been called for the afternoon to consider the extraordinary situation arising. The government as at present constituted has power to continue in office until dismissed by the lieutenant-governor or by the legislature at its next session. The customary procedure, however, when a government meets defeat at the polls, is for it to resign within a very few weeks.

Dry Two to One.
Referendum figures published by the Ontario referendum committee tonight show that the province is going "dry" by more than a two to one vote of the people and that Toronto voted "No" on all four questions. The latest returns from the province show that the fourth question was the stumbling block for many who would otherwise have given a straight majority. "No" mandate to the coming legislature to do away with liquor.

Suggests Beck As Leader.
Brantford, Oct. 21.—Sir Adam Beck, as the leader of a joint U. F. O. coalition, which would attract sufficient Liberals to give a working majority. Such is the personal suggestion of Mayor MacBride, elected to the legislature yesterday, who was on the I. F. ticket, as a way of settling the apparent deadlock in the Ontario legislature.

Dies at Wedding, Quebec, Oct. 21.—The wife of Hon. Judge Charles Langelier, of Quebec, dropped dead this forenoon in the Basilica, here while signing the parol records at a wedding she was attending.

A First Word To All New Brunswickers

HAVE YOU THOUGHT how greatly the future comfort, happiness and prosperity of every New Brunswick man, woman and child depends on the 1919 Victory Loan? Have you thought how greatly your own business interests, the business interests of those with whom you trade and those who trade with you are dependent on that Loan? You know that our prosperity depends upon our ability to send abroad the products of our farms, our fisheries, our forests, our factories and our mines. You know that war has made it impossible for our European customers to pay in cash. They must have credit or they will buy elsewhere. Under present conditions only the government can provide the credits, and the government can do it only if Canadian people lend the money.

HAVE YOU THOUGHT what our failure to lend means? It means that our farmers lose their markets and the prices of grains, fruits, and other agricultural products drop. It means our fishermen will be cut off from their foreign markets and deprived of the opportunity to sell their catch. It means that our lumbermen would cease to operate, because their export trade was killed. It means our coal mines would curtail output and reduce their pay rolls. It means that skilled and unskilled labor would find it more difficult to get employment. It means that a slackening of effort injurious to the country, every shopkeeper, every trader, every worker.

THIS IS NO EXAGGERATION. It is exactly what would happen and it is the reason why the welfare of every New Brunswick family, every New Brunswick citizen is bound up in the success of this year's loan. Self Interest calls for aid to the utmost limit of our ability in keeping the machinery of prosperity humming. The factory chimneys must be kept smoking. The ocean and lake ports must continue to bustle with activity that the products of Canadian farms and factories may go to foreign lands.

SELF INTEREST should inspire the enthusiasm and hard work which means success.

CONFIDENTLY we look for the support of the New Brunswick people, but thorough organization is the essential of success and thorough organization is possible only through every good citizen taking his full share of the work.

PUBLIC SPIRITED men in every county of the province are now at work perfecting their county organization. Place yourself at their service, help them in their efforts and make New Brunswick's last war effort the greatest of New Brunswick's war successes.

DEWART FEELS HE SHOULD BE ASKED TO FORM CABINET

Raps Lieutenant-Governor For Intimidating He Could Call on Anyone

WILL TOLERATE NO NONSENSE

Sir Adam Beck, is Suggested by Mayor McBride, of Brantford, to Lead Administration — Latter to Stay at Post For a Time—Will Not Talk About Leadership.

Toronto, Ont., Oct. 21.—H. Hartley Dewart, K.C., Liberal leader in Ontario, handed out a statement this afternoon in which he rapped the lieutenant-governor, Sir John Herdrie, for having intimated to the evening newspapers here that His Honor "believed that under the circumstances he could call anyone in the House or out of it and ask him to form a government." Mr. Dewart stated that the person to whom the lieutenant-governor should look to form a government is himself, "the successful leader of the Liberal party."

Dewart's Statement.
Mr. Dewart's statement follows: "The election returns clearly demonstrate that the people of the province of Ontario will no longer tolerate the Hearst administration. My advisers are that there will be a larger Liberal contingent of members than in the past legislature. And with the U. F. O. numerically in the lead, its quite apparent that the Conservatives will not have as many members as the Liberals, and therefore have no representative to continue the business of the country. "When the House dissolved there were just two parties in the House. The Hearst administration has been overwhelmingly beaten, and the principles that the Liberal party has fought for been vindicated by the election of a controlling group of Liberals, Soldiers, Farmers and Labor representatives. The principals of their policies they hold largely in common. There can be no reason why they should not get together. They have the same object in view—the accomplishment of sound, progressive and democratic government for the province. The problem is one that should not be difficult of solution. "It is rather easy for the lieutenant-
