THE GREAT INTERIOR. News of the Inland Mines, Farms, probable that work on the new structure will be commenced this fall. Two fights in two hotels on Thursday night seemed to show that the old, woolly days of the "wild west" are not MINING TO CONTINUE ALL WINTER completely obliterated. In one instance the appearance of the victim was so changed by having a portion of his ears sampled that even his most intimate friends had to exclaim, "Is that Mr. Revelstoke Steel Bridge-Railway Progress at Nakusp-Successful Hunters -Lardeau's Rich Claims-Kamloops In the other affair two of the Riley?" contestants were hustled under the billiard table to finish the melee a la cats of Kilkenny.

The Lytton is busy carrying railway iron to Nakusp, a number of men being employed at the wharf, where great quantities of rails-about 40 carloads altogether-are being shipped. When the supplies for the Nakusp & Slocan railroad are all taken down the Lytton will run from Revelstoke to Nakusp, where she will transfer cargoes and pasengers with the steamer Columbia, returning again to Revelstoke, while the Columbia will run between Nakusp and Robson, or Northport, till the completion of the N. & F. S. railway.

J. W. Haskins and W. Miller arrived down from Big Bend last Friday. Mr. Haskins brought some rich samples of quartz from the Crown Point claim on Gold Stream, between French and Mc-Culloch creeks. One of the pieces of rock would assay thousands of dollars to the ton, and all showed considerable free Point in 1885, and three tunnels have been driven on the property. He intends taking the specimens to Vancouver and will endeavor to form a company to work the claim, which, he says, is very valuable. If he succeeds a ten-stamp mill will be erected and the quartz crushed on the spot. If there is much of the same kind of rock. Mr. Haskins brought down there can be no doubt of the venture being a successful one. (Nakusp Ledge.)

Ben Edington is cooking on the steamer Columbia. Ben had a quarter of a million over in Colorado but it got away from him.

It is reported that cattle are sometimes kept in the stock yards for seven or eight days without food. This is hard on the dumb brutes and should be rectified. At Revelstoke there are 2 cars of freight for the N. & S. railway. In addition to that there are 20 cars of general merchandise for different parts of the The record of the season in bird huntlake country. ng was made on Saturday last by a

The Kootenay came down river yesterday with 60 tons of steel rails. It is re-ported that the water is too low for this "spud" was only excelled by its qualsteamer and that the smaller seamers ity. will take her place. Genelle's sawmill, under the able man-

agement of Mr. Reid, continues to run almost night and day in order to keep up with the demand for bridge lumber. This institution employs 35 men at the mill and in the woods and is quite an important industry.

It is reported that when the Nelson & Fort Sheppard railway is finished, Corbin will put on a Pullman, and travel-lers can get in their berths in Spokane and wake up in Nelson in time for breakfast. How nice that will be for the tired prospector. Much better than riding in on a mule and packing your own

Work on the railway is being pushed

forward with all possible dispatch. The

THE GREAT INLAND FAIR. Bull, one year old, 1st, W. J. Roper. Cow in calf or milk, 1st and 2nd, W. J A Highly Successful Exhibition Held at Ashcroft.

VARIED AND EXCELLENT DISPLAY Fine Show of Fruit-Keen Competition in Many Classes - The List of Prize-Winners.

The exhibition of the Inland Agricultural Association, held at Ashcroft on

the 12th and 13th inst., was up to the high water mark of previous years, although possibly in point of attendance there was a falling off. The show is alternately held at Kamloops and Ashcroft, a plan which gives the districts represented by the two centres the advantages of having the exhibition held bi-annually in their midst, at the expense, however, of stability and system in management. The only criticism

that the Times would make on the latter point is that the judging occupied too much time, and the visitors were much disappointed in being kept out of the grounds until late in the afternoon of the first day. This was owing to the entries being received up to midgold. Mr. Haskins located the Crown day and the lack of classification in the horticultural department, where competition was keenest. But these are troubles that will happen in the best regulated shows, and the Ashcroft directors were not bothered with any that are not met with every year in Victoria or Westminster, where no amount of experience can compell all the exhibitors to be ready in time. The secretary, Mr. Burr, Mr. McKay, Mr. King, Mr. Semkin, Mr. Walker and others did everything that was possible to make the show everything that it should be, and to their efforts the Ashcrofters are indebted for the great success of the exhibition. The two best exhibits in the show were roots and fruits, potatoes leading in the former class and apples in the second. Nothing equal to the Ashcroft potato show was ever seen before by the reporter. There were many entries, and all the exhibits were of a very large size, sound and firm to the The quantity of each individual

> It was in this locality that the great apple at the World's Fair-the biggest in the world-was grown, and the Times met a gentleman from the banks. of the Fraser (Mr. Seward, a resident for 33 years), who solemnly averred that he had grown an apple almost a pound heavier than the "pippin" that surprised the Yankees in Chicago. The writer, with Mr. Kitchen, M. P. P., visited a Chinaman's garden on the ranch of Mr. Steve Tingley, across the Thompson from Ashcroft, and was shown about twentyfive bushels of apples averaging between four and five inches in diameter. There was not a small or unsound one in the lot. It was the biggest thing in

apples that Mr. Kitchen had ever seen. and he is a fruit grower of some experience. The exhibition was on the same. T. G. Earl of Lytton had 32 valine. rieties and was probably the largest exhibitor. He grows apples for profit, and has at the present time orders for more than he can supply.

The roots generally were excellent. The big cabbage, a couple of feet across, was there, and six white carrots, weighing 50 pounds, grown by P. Parke of the Bonaparte, were in evidence to prove the extraordinary fertility of the soil-when

well watered. And, speaking of the productiveness of the valleys, Charles Pen nie, a well-known rancher on the South Thompson, stated that he usually cuts three crops of clover each year, and that if the total yield did not average six tons to the acre he would consider that something was wrong. Thos. Morgan, of onions and potatoes of phenomenal size and excellence to a coast man, and others, whose names appear below as prize winners, were succesful competi-

The entries of grains of all kinds, and also highly creditable-indeed, opportunities considered, it was superior to the Kirkpatrick exhibit at our midsummer fair.

The show of stock would be more rep-Parke. resentative of the district, our reporter Cucumbers, 1, T. W. Graham. Egg plant, 1, A. W. Smith. was told, but for the great distances that the animals have to be brought and the aversion of some of the big manchers to bother with the business. A number of fine cattle, many of them thoroughbred, were on exhibition, but the class of horses shown was not up to the standard of excellence that would be expected to be maintained in a country of ranches and horsemen.

J. Kirkpatrick was awarded a prize for a collection of native grasses. The sheaf contained 22 varieties, some of them of extraordinary length. The col-

lection showed the diversity of the indigenous food products. The prize list is appended. There may be some errors in it as it was prepared

hurriedly, but these will be corrected in a subsequent issue. The annual meeting was held at the court house, Asheroft, on Friday, and in the absence of the president was called to order by C. A. Semlin, vice-president, at 11:55 a. m. The following officers were elected for the coming year: President, T. W. Graham of Shuswap: vice-presidents, Samuel Moore of Nicola and William Walker of Bonaparte; secretary, M. J. McIver of Kamloops; treasurer J. R. Hull, of Kamloops; directors, A. B. Ferguson of Savona, T. G. Earl of Lytton, J. C. Barnes of Ash-

croft. J. E. N. Smith of Clinton, W. J. Roper of Cherry Creek, J. T. Edwards of North Thompson, T. Morgan of Bonaparte, Chas. Chooney, E. C. David-son, Jas. Mellors, W. J. Unwin and Fred H. Nelson of Kamloops. A vote of thanks was unanimously ex-

fended to the retiring officers. DURHAMS.

MOTHER GOOSE BEVISED A simple creature Met o preacher Going to the races; Said the creature To the preacher. "Why go you to such places?" Said the preacher To the creature. "To warn men from their sin." Said the creature "Said the creature To the preacher, "I, too, must venture in." "I, too, must ventue in." Said the preacher To the creature. "And what, pray, will you do?" Said the creature To the preacher. "Till keep an eye on you." -W. G., in The Ram's Horn.

Pimples may he permanently cured by he continued use of Eseljay's Liver Loz

Thomas Fitzsimmons committed su cide at Fleming, Manitoba. He came home late at night. Next morning he was remonstrated with for keeping late nours. He went into his bedroom, and oon the inmates of the house were startled by hearing a revolver shot. The ball took effect in his brain, and death was instantaneous. The Canadian customs authorities, in

iew of the action of the United States government in reducing the value of silver currency, have intimated their intention of immediately meeting the conditions resulting from the depreciation of silver and of proclaiming a new value for the currency of those countries where depreciation has arisen. The matter will be brought to the attention of the ontroller of customs by Montreal merchants.

On the application of Fred H. Smith. trustee for the bondholders, the supreme court of New Brunswick appointed Chas. Everett and Arthur J. Traman reeivers of the St. John Street Railway Company. This action is the outcome of the financial stringency in New York, where the chief owners of the road reside, and will not interfere with the running of the street railway, which is a paying property. The company locked up much money recently in substituting electricity for horses.

Robert McGreevy secured bondsmen and was released from jail on Monday. In connection with the coming criminal trial against Messrs. McGreevy and Connolly, intelligence reached Ottawa that one of the most important witnesses. who has been missing for some time, W. H. Cluney, had been arrested at St. Catharines. He will be taken to Ottawa. As this witness has given the crown considerable trouble, it is quesitonabl whether he will be liberated before the trial commences. Subpoenas for the coming trial are now being served upon all the witnesses.

During the nine months ending September 30th the Imperial Bank purchased \$5,200 worth of gold amalgam. In the twelve months from November 30th. 1891, to November 30th, 1892, the amount purchased was \$6,700. The price paid is \$15 an ounce, if the quantity offered is an ounce or over. If less than an ounce it is taken at the rate of \$14 an ounce. As some of the miners who take out the larger quantities of gold prefer to send it on their own account, it is fair to suppose that the total value mined last year would not be short of \$10,000, and that this year will show an equal result.-Edmonton Bulletin.

The case of Boyd, Ryrie & Campbell, wholesale stationers, Montreal, who are charged with defrauding the customs, is said to be one of the worst of the kind ever brought to the notice of the customs department. False invoicing, under valuation and smuggling are all charged, and these, it is stated, have been going on for several years. While steel pens, are the principal article in which under valuing has been done, the fraud extends to most of the articles of the lines carried by the firm. The amount involved is in the neighborhood of \$260,-000. The government may not impose a penalty, but will take the full value of the goods laid down here and the duty on them. The firm attempts no defence.
