M. C. A. work. Several prominent members of the association offered to provide the necessary funds, with the result that a brace of men will go instead of one.

—The trail from Hardy Bay to Quatsino Sound will be repaired by the government. The work, it is said, is badly needed. The trail is used principally as a mail route.

He had it for several days and it was only when she heard he was about to leave town that she informed the police and Appleby was arrested. Appleby has a bad character in police circles.

—While engaged in painting the side of G. P. Matthews' house on Lamson street this morning two painters, T. Amos and C. Perkins, employed by the Melrose Paint and Varnish Co., were thrown to the ground through the collapse of their slings. —The case of S. B. Appleby, who was this morning convicted of stealing a gold chain and locket from the woman, Helen Hartwell, is not an important one in itself, but its importance comes in the attention it has drawn to the conduct of the hotel in which it occurred. NEW BAKERY IN VICTORIA WEST

PLANS COMPLETED FOR THE INDUSTRY

Building Will be Erected at Early Date—Will be Complete in Every Way.

(From Saturday's Daily.)

Plans have been completed for the new building for the "Bakeries Limited," and tenders will be called immediately that it may be ready for use in the very near future. The general plans of the company have before been made known. The intention of the organization is to supply the best quality of bread and all kinds of cakes, etc.

The work will be under the management of Mr. Okeill, who took an important part in organizing the company. The building will be located on William street, convenient to the E. & N. line in Victoria West. The intention is to find a considerable trade by out of town shipments which can thus be conveniently made. The main building will be 70 feet giving ample accommodation for the carrying out of the work. The building will be of brick, three stories high, the top floor being used for storing flour, and the one below containing the mixing room, the flour coming down a chute. When the dough has been prepared by machinery it will be passed down to the ground floor where a scale will divide the dough into its proper size and weight ready for the oven.

The ovens will be of the most up-to-date pattern, heated from beneath by means of steam pipes so that there will be no danger of burning the bread. There will be no fire in the baking chamber, thus ensuring perfect cleanliness. The ovens are being imported from England. They are so constructed that the bottom of the oven is taken out at each baking, and the unbaked loaves placed upon it. It is then pushed in place and when done the bottom is again taken out, the whole of the bread being withdrawn at the same moment.

The company has been registered for \$25,000 in ten dollar shares. The first issue of 100 shares has been quickly subscribed, owing to the increased cost of building, it has been found necessary to issue 400 more shares at ten dollars each. A number of these have already been taken up. Practically all the shares of this company have been sold in Victoria, and this fact shows the progressive spirit which is growing up in this city.

Dr. Williams' Pink Pills Came to the Rescue After Doctors' Treatment Failed.

The life of any constant traveler is always a hard one, but those whose work compels them to take long treks over rough roads, exposed to all conditions of weather, are in constant danger of losing their health. The extreme heat of summer or the piercing winds of winter sap their strength, the kidneys become diseased or rheumatism sets in. What is needed to withstand this hardship is rich red blood—the pure blood that Dr. Williams' Pink Pills alone can make.

These pills are the traveler's "ever-ready friend." Concerning them Mr. George Dalpe, of St. Elie, Que., says: "I am a grain dealer and am obliged to make frequent trips, sometimes very long ones, to my customers. I have found it necessary to take these pills on every trip. I returned home from one of these trips last summer very much fatigued. I was overworked and tried to cool and rest myself by lounging on the veranda at night. I caught cold and the next day I did not feel at all well. I had a headache, pains in my stomach and was very weak. I went to see a doctor, but he said I would be all right in a day or so, so I started on another trip. I had not gone far before I felt very ill and had to return home. I was very weak, and I was unable to do any work. I took Dr. Williams' Pink Pills, and in a few days I was feeling much better. I continued to take them, and in a week I was well again. I have since taken them on every trip, and I have found them to be a most valuable remedy for all the ailments to which I am subjected. I have no more headaches, and my stomach is in perfect health. I am now able to do my work as usual, and I am much better than I was when I first started on my trips. I have no more doubts as to the value of Dr. Williams' Pink Pills. I have no more doubts as to the value of Dr. Williams' Pink Pills. I have no more doubts as to the value of Dr. Williams' Pink Pills."
