

TAKE NOTICE TO GET RATE FOR HEARING

Railway Commission has not Received Copy of Bosworth-Gutelius Agreement.

No date has yet been fixed for the hearing before the Railway Commission of St. John's case against the Bosworth-Gutelius agreement. A telegram was received yesterday from the Secretary of the Railway Commission stating that the agreement had not been presented to the Railway Commission, and that until this was done no date would be set aside for the hearing.

Yesterday Recorder Baxter was in communication with Professor Cunningham, the railway expert of Harvard University, with a view to securing his services, but Professor Cunningham wired that it would be impossible for him to attend the hearing at Ottawa.

An effort was also made to enlist the services of Messrs. Walsh and Doery, of Ottawa, railway experts, but they replied that they would not be able to act except in the capacity of arbitrators.

On Saturday the Board of Trade received a message from Hon. Mr. Hazen stating that the resolutions passed at the meeting of the Board of Trade had been approved by the Minister of Railways. The secretary of the Board was asked about this Sunday evening, but he was apparently unaware that any reply had been received.

INCREASE IN VALUE OF THE FISHERIES

Bulletin of Dominion Fisheries Department Gives Interesting Figures on Matter--Dogfish Plentiful

The Bulletin of the Dominion Fisheries Department for the month of September, states that the weather for the month was generally favorable to fishing operations. In the Bay of Fundy fishing was prosecuted with accustomed energy. As a result of the department's system of publishing reports concerning bait supplies, several Nova Scotia vessels loaded herring at Grand Manan, while many fishing vessels got bait for their immediate use.

The presence of dogfish affected the catches of the cod fishing fleet of Gloucester county. The fish catch in Charlotte county during September was valued at \$86,618, and in St. John county at \$3,915. The catch in Gloucester county was worth \$26,355. The value of the total catch for New Brunswick based on prices received by fishermen was \$120,154.

The catch for Nova Scotia during the month was valued at \$956,457, and for the whole of Canada \$2,780,731, against \$1,823,372 for September of last year.

SOCKALEXIS TAKES BRIDE. Andrew Sockalexis, the well known Marathon runner and Pauline Shay, daughter of Sebatis Shay, one of the prominent Indians on the Penobscot reservation, were married at Oldtown, Me., yesterday. The wedding took place in St. Anne's Catholic Church, the Rev. J. J. Rice officiating.

In celebration of the wedding there will be a feast on the Oldtown Indian reservation Tuesday night. The older men of the tribe will don their beaded buckskin costumes and eagle feathers, handed down for generations, and give the wedding dance.

A wedding ball and a feast of venison and game will follow. The tribe and invited friends will attend the celebration.

FREE SPEECH ADVOCATED BY LABOR UNIONS

President Samuel Gompers, of American Federation of Labor, Makes Strong Address.

Seattle, Wash., Nov. 10.--"I promise you that this convention shall be an open forum," said President Samuel Gompers, addressing the American Federation of Labor's opening session today, "and if we have a word to say of Judge Wright or Judge Humphries or Judge Jeffries, we are going to say it."

"We believe it is not in the power of that judge to interfere with the exercise of free assembly, free speech, and free press. These rights were won from unwilling monarchs on the other side of the Atlantic and placed in our national and state constitutions at great cost of life, and do you suppose we shall surrender them?"

"When the judge clothed in a little brief authority assumes powers deeded to the president and the congress, it is a duty to protest."

Secretary of Labor Wilson sat at Mr. Gompers' side. The report of the credentials committee seated all persons presenting credentials except those from unions which were delinquent in dues to the federation, and a few delegates whose seats were contested.

A summary of the report of the executive was read by First Vice-President Duncan.

BIG BRITISH LUMBER FIRM HAS FAILED

Report that Frank Harrison & Company, of Liverpool, are in Financial Difficulty.

Word reached the city yesterday that the firm of Frank Harrison and Company of Liverpool had failed with heavy liabilities.

F. E. Neale of Chatham is the representative of the company on this side of the Atlantic and when asked last evening about the matter had little to say other than the difficulties of the company are but temporary and that the losses have not been met through the lumber business but in stock speculations. There are no firms on this side of the Atlantic directly affected by the failure because the firm of Harrison always paid for the shipments of lumber in cash, and it is expected that everything will be fixed up satisfactorily in a short time. It has been hinted, however, by lumber merchants that the losses are heavy and even worse than given out by the Canadian representative.

The firm have been receiving and company were about the largest importers of lumber from the Miramichi and Campbellton, and this season alone they have received about 80,000,000 superficial feet of lumber from that section of New Brunswick.

The firm have been receiving and paying for New Brunswick lumber for the past twelve or fifteen years, and was one of the best known lumber firms in the world. Outside speculations say the local lumber merchants, caused the failure, but further details have not reached here. In fact the first word of the failure was received here by cable on Saturday last.

The matter caused much talk among local merchants yesterday but a number of them who were called on had little or nothing to say regarding it, and would only confirm the report that the firm had failed, and it was expected the loss would be heavy.

INTERESTING LIFE STORY OF HON. ROBERT ROGERS, ONE OF THE BRIGHTEST MEN IN CANADIAN PUBLIC LIFE--A POLITICAL CAREER OF DISTINCTION.

Continued from page one. A few years later, when a change took place in the Cabinet of Sir Rodolph Borden, Mr. Rogers was selected to fill the portfolio of public works, and in this capacity he remained until October, 1911, when, a year later, on the resignation of the Honorable F. D. Monk, Mr. Rogers was chosen by the Prime Minister for the position of Minister of Public Works, a position which he has filled with the same degree of success as that which attended his ten or twelve years as Minister of Public Works in the Borden cabinet.

His Motto "Brevity." In Ottawa there is no disparagement in the statement "if you want things done promptly, go to Mr. Rogers." His motto is "Brevity." He sees more callers than any other cabinet minister, and seems to please most of them. Down east he is not so well known personally, but nevertheless his work is well appreciated. Born a leader, he rules by the might of fair play to all. He laughs at abuse, and has received more than any other minister. The vilification of his name in the "Political anticrop of Manitoba," or "Bob with the carpet bag," beware of the one who says it, for he has most likely measured his words with Mr. Rogers and been slain politically.

The Man Who Does Things. Mr. Rogers has a reputation for sound judgment, tact, and all-round ability. "He does things." He showed his mettle directly after being sworn in as Minister of the Interior. After that ceremony was performed he immediately proceeded to Lethbridge, Alberta, as a strike, involving seven thousand coal miners and practically every mine in the western mining section had been in progress for a considerable length of time. At Lethbridge he met the coal miners separately and together, and on the afternoon following his arrival on the scene he was able to start for the east with the satisfaction of knowing that he had brought about a settlement entirely satisfactory to both sides, who up to that time had been so widely separated that there appeared no possible chance of reconciling them. It was a splendid stroke for the parties involved, and for the then Minister of the Interior. It was just another evidence of how he was able to accomplish anything which he undertook. He went further by having the tax on western coal, which had been re-imposed on November 26th of the same year.

Big Reception in Winnipeg. On his return to Winnipeg from Lethbridge he was tendered a reception by the citizens of that city from the railway station he was accompanied to the City Hall, where an official address was presented to him expressing the appreciation of the people of the east, and also to inspect the various important works which are in progress under the direction of his department at the present time.

A Silent Man. Mr. Rogers does not deny that he knows how to win elections. He just goes ahead and wins them. Organization and hard work are his methods. He generally confounds and silences his critics by ignoring them altogether. When you hear him called "The Western freemason" or "Political anticrop of Manitoba," or "Bob with the carpet bag," beware of the one who says it, for he has most likely measured his words with Mr. Rogers and been slain politically.

If he has one tad more pronounced than another, it is his silence. Words of self-approbation have never come from Mr. Rogers, but on the platform or in committee his utterances mean something every time they are heard. His pose, his charm and magnetism, as well as his wide knowledge of men and affairs, will undoubtedly appeal to people of the East.

Mr. Rogers is to pay a visit to the Maritime Provinces during the week beginning Monday, 10th of November and will then have occasion to meet the people of the east, and also to inspect the various important works which are in progress under the direction of his department at the present time.

FALLING HAIR MEANS DANDRUFF IS ACTIVE. Save your hair! Get a 25 cent bottle of Danderine right now.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff; that awful scurf that is nothing so destructive as the hair falls out fast. A little Danderine tonight--no anytime--will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and richness which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair--new hair--growing all over the scalp.

Will Hold Inquest. Coroner Roberts will empanel a jury this morning to enquire into the death of Stephen Caplan, the date of the inquest has not been fixed.

Financial Secretary, George Guitley. Treasurer, Harold Kane. Chairman of Room Committee, Wilfred McMahon. Chairman of Literary and Dramatics Committee, George Flood. Chairman of Sporting Committee, Harry Atcheson.

A musical programme was carried out during the evening and addresses were delivered by the retiring and newly elected officers.

As Captain Giovanni who seeks to withdraw Giovanni, his former love from the confines of the convent. Sam A. McHarry acted well, and played a strong character through the entire production.

Reuben Weyler, as Monsignor Sarcinella had a dignified part well suited to his ability and he portrayed it admirably.

Miss Winona Bridges and Miss Marjorie Davis in their respective roles of Madams Bernard and Portress gave a good portrayal and the other members of the cast were up to their usual strength.

"The White Sister" will hold the boards all week, and as it shows the Thompson-Woods Company at its best should draw capacity business.

STOCK GO IN STRONG PLAY. In the St. John Opera House last evening the Thompson-Woods Stock Company, the members of which by their clever acting have already won the hearty favor of St. John theatre goers, presented in dramatized form the work of Marion Crawford in "The White Sister."

Representing a broad diversion from the production of last week which abounded in brisk musical comedy, the production of "The White Sister" showed each member of the company in an entirely different role, and the fact that the entire company scored a distinct triumph thereby proving their versatility.

"The White Sister" as a play affords a special chance for strong emotional acting, and the individual members of the cast, under the direction of the leading role, took advantage of every opportunity thereby adding to their laurels.

In the role of Giovanna, a Dominican nun, Miss Brandt carried the part with her usual grace and ease, and was particularly good in her scenes with Sam A. McHarry as Captain Giovanni in the third act, when she forces him to destroy the document of dispensation which she has just signed.

Both Mr. Spencer and Mr. Golding testified to the great care and attention shown by the New Brunswick censors.

LOCAL MOVIES SAY MANAGERS

Criticism of Evening Times well Answered by Messrs. Golding and Spencer--Examined four times

In connection with the opinions advanced that the fatality of Sunday in which Stephen Caplan lost his life was the result of western cowboy moving picture production and reports published in the Times conveying the idea that the censors at a future meeting would consider the idea of excluding all "gun play" pictures, The Standard last evening interviewed the leading representatives of the moving picture houses of the city with the following result:

"When asked his opinion on the matter, F. G. Spencer said: "To my mind it is so ridiculous that it is hardly worth discussing. It seems rather remarkable to me, after the manner in which the accident occurred, that so much comment has been made on its connection with the moving picture and little comment is made on the hardware man who sold the gun to the boy or the parents who allowed the child to go out to the yard to play with a gun on Sunday afternoon. I cannot see how the accidental shooting of the boy could affect the future policy of the censors. Dr. Bridges, Mr. Coll and Mr. Nevis are very careful in judging a picture and I have known of many pictures in which there was shooting, being turned down by them. I cannot see how the reason why moving pictures should be held responsible for the accident. All drugists and stores etc. box or post free from Peps Co., Dupont Street, Toronto. Send 1c stamp for postage of sample packet and booklet telling all about Peps."

"The censors here are as careful in passing judgment on a picture as any board of censors in Canada, and through them I think the interests of the city are well looked after."

Walter H. Golding, of the Imperial Theatre, said in connection with the matter: "It was a gun that killed the boy, not a motion picture. Forty-three years ago a relative of mine accidentally put out the eye of another boy when playing Indian with a bow and arrow. This was twenty-five years before moving pictures were known. Twenty-five years ago I myself, was injured in a rough and tumble fight while playing Indian and confined to the house for some weeks as a result. That was before motion picture time."

"The films shown in St. John are first scrutinized by the National Board of Censors of the American government at New York. Next they are seen before the Ontario Board of Censors in Montreal, and then they are seen before the Quebec board, and after that they come to St. John and are examined by the New Brunswick Board. After that each individual manager exercises his own judgment as to how much of the picture, if any, should be shown."

It is entirely wrong to state that there is a ban on killing in motion pictures of today. This is one thing that the censor board everywhere has eliminated in the passing of the pictures. Such scenes, leaving the act to be inferred. As far as Indian and cowboy subjects are concerned the demand for these is fastly falling off and only a very limited number of these subjects are being issued by the leading companies. The demand for such pictures is largely in the rural communities.

"It is most unfair, I think, that cartoons depicting the killing of children should be published when they are really exaggerations and falsehoods. It creates a false impression on many people who do not think deeply. It carries with it the false idea of murder and brands the tender and innocent child in the eyes of the public."

Both Mr. Spencer and Mr. Golding testified to the great care and attention shown by the New Brunswick censors.

TWO WORLD-FAMOUS VOICES IN HIGH PRAISE OF PEPS

PEPS, "the cure you breathe," for coughs, colds, bronchitis and throat troubles, is now obtainable in Canada. All the best people--the "people who know"--use Peps for chest, lung and throat troubles.

Madame Clara Butt, the world-famous singer, and her husband (Mr. Kennerley Rumford) write-- "We have formed the very highest opinion of Peps after using them regularly for some considerable time. They are quite unique in their invigorating effect upon the throat and chest, and their stimulation of the vocal chords."

For coughs, colds, asthma, bronchitis, "that night cough," sore throat, "smoker's throat," etc., you can get nothing to equal Peps. All drugists and stores etc. box or post free from Peps Co., Dupont Street, Toronto. Send 1c stamp for postage of sample packet and booklet telling all about Peps.

Very few western dramas exhibiting "gun play" are produced now.

The New Burrell-Johnson Iron Co. many where her engines, boilers and other machinery will be installed. The new boat is eighty-six feet long, six feet wide and seven feet deep.

YARMOUTH STEAMSHIP RUMOR. The latest steamboat rumor, as the Yarmouth Times, is to the effect that the C. P. E. will, next year, have some control of the Yarmouth-Boston steamship service and that Marine Superintendent MacGregor will shortly cross the Atlantic to superintend the building of three ships suitable for the route. It is also said that a number of ships will be built for a Yarmouth New York service. It is quite erroneous to believe that there there is an opportunity to carry hundreds of the hands of passengers yearly, and by a very large freight traffic, the P. E. will not fail to take advantage of that opportunity. It is a well known fact that the passenger business between the United States and Nova Scotia is only in its infancy and with a modern railway--which the Yarmouth from Yarmouth to Halifax will be the course of a year or so, and suitable steamers, a very heavy and profitable business can be done. In all due respect to Digby, it may be added that the proposed plan, if carried out, will be a great benefit to the Yarmouth. There is no room for dispute on this point.
