PUBLIC IS URGED TO HEED NATURE'S WARNING

Thousands of People Suffer Permanent Loss of Health
Because of Neglect—Nature Has Set the Danger Signals
for Us and We Cannot Afford to Pass Unnoticed the
Warning That She Gives Us.

Good digestion means good health; bad digestion means
bad health.

A sound stomach is worth a hundred times its weight in
gold. Probably eighty per cent of all diseases originate in
the digestive organs. Dyspepsia, or what is more commonly
known as indigestion, is not only one of the most prevalent,
but it is one of the most difficult to treat of all present day
diseases, and has for years baffled the skill of leading speci-
alists everywhere.

Stomach trouble is almost always

followed by a complication of dis-
eases. One of the first being an over-
worked liver, with all the symptoms
of biliousness, followed in turn with
headaches, coated tongue, nausea,
dizzy spells, pain in the back, palpi-
tation of the heart and other distress-
ing symptoms. Sooner or later the
kidneys will become involved and that
is just why these danger signals
should be heeded in time. A wise
man puts out the fire before there
is too much destruction; the same
theory should apply to stomach trou-
ble.

Gas in the stomach means fermen-
tation instead of digestion; decay, in-
stead of nutrition for fermentation
produces poisons, which are absorbed
by the blood, and which frequently
brings on the condition known as
auto-intoxication or self-poisoning.
This is also why we develop acidosis,
which brings on so many complica-
tions such as rheumatism, hardening
of the arteries, high blood pressure
and other conditions, which may mean
permanent loss of health. Acidosis is
one of the main forerunners of
Bright's disease and diabetes, hence
it is evident that if we have stomach
trouble, however slight, we are foolish
indeed if we do not take prompt
steps to correct it.

If we are not fit as a fiddle in the
morning; if we don't feel better than
when we went to bed; if our breath
is offensive; and we have that bad
taste in the mouth; nature has set the
danger signals for us and we cannot
afford to neglect the warning that
she gives us. That is just why the de-
mand for Tanlac, the great Stomachic,
Systemic and Reconstructive tonic has
been so great.

A theological conference, formerly
held semi-annually, but now quarterly
for the priests of the southern dis-
tricts of the St. John diocese, was
held yesterday morning in the Bishop's
Palace Waterloo street. Rt. Rev. J. J.
Walsh, V.G., presided. Those present,
in addition to the priests stationed at

broken all World's records. The Am-
erican people have learned that it
probably provides the surest, safest,
and quickest remedy for all such
troubles, and millions upon millions
have taken it with the most astonish-
ing and gratifying results.

Tens of thousands of men and wo-
men, of all ages and in all walks of
life afflicted with stomach, liver and
kidney disorders, some of them of
long standing, as well as thousands
of weak, thin, nervous men and wo-
men apparently on the verge of col-
lapse have testified publicly that they
have been fully restored to their nor-
mal health, strength and weight by its
use. Still others who seemed fairly
well, yet who suffered with indiges-
tion, headaches, shortness of breath,
dizzy spells, sour, gassy stomachs,
coated tongues, foulness of breath,
constipation, bad complexion, loss of
appetite, sleeplessness at night and
terribly dejected, depressed feelings
state that they have been entirely re-
lieved of these distressing symptoms
and restored to health and happiness
by Tanlac.

NOTE: Tanlac Vegetable Pills are
an essential and vitally important
part of the Tanlac Treatment where-
ever constipation is present.
You cannot hope to get satisfac-
tory results from the Tanlac Treat-
ment without first establishing a free
and regular movement of the bowels.
It stands to reason that no treatment
can do the greatest amount of good
when you are suffering from constipa-
tion or biliousness, or when your sys-
tem is clogged up with waste products
and poisons.

Tanlac and Tanlac Vegetable Pills
are sold in St. John by F. W. Munro,
and by leading druggists everywhere.

Landlord Always In Controversies

Forced into War, He Says, to
Defend the Fatherland—
Didn't Want War.

Berlin, Sept. 14.—(By Dominion
News Service.)—Landlord seems
unable to live without contro-
versies. No sooner does one of his
raising subsidies than he plunges head-
long into another. At a muster of
former body guards at Frankfurt-
on-the-Oder he delivered himself of
the following astounding assertions:

"When we were forced into the war
in 1914 we entered it to defend the
fatherland. No responsible German
ever wanted war, and here, where for
the first time since the end of the war
I have the opportunity of speaking to
soldiers, I should like to emphasize
that throughout the entire war peace
with the enemy was not possible be-
cause the enemy desired our destruc-
tion, while we were ready for peace
at any moment. We fought for our
existence and honor, not for territorial
acquisition."

In an attempt to exonerate the
German Government so far as the or-
igin of the war was concerned, Luden-
dorf will have the support of the ma-
jority of his fellow countrymen. How
faint an echo he will find for his
other statements is clear from the
sharp comments of the official organ
of the Centre party, which denies that
he, at any rate, has the right to range
himself among those who did not
fight for territorial acquisition, and
points out how the pacific action of
the Pope in 1917 was brought to nothing
by the calculated alliance of Ger-
many on the question of Belgium.

Too Much Fresh Air Brings Death

Five Weeks Old Baby Suffo-
cated from Ride in Chara-
bane.

London, Sept. 14.—(By Dominion
News Service.)—A five-year-old baby
has died from suffocation as the re-
sult of a ride in a charabane.

Mrs. Shorter, of Plumstead, took
her baby daughter, Peggy, for a ride,
and on arrival at the village of West-
on the child was taken ill, and died
from suffocation, a doctor said.
At yesterday's inquest, when a ver-
dict of accidental death was returned,
the coroner spoke strongly of the
folly of taking a young baby in a
charabane, especially at night. The
vehicle rushed through the air at 20
miles an hour. Had the baby not been
suffocated it might have developed
pneumonia, or have been injured by
the unusual shaking up, and its brain
affected, so that it might never have
been any good for the rest of its life.
