PARIS, Jan. 9.—Pere Hyacinthe, preaching at the Galician chapel on Bunday, said the funeral of M. He said: "It is the immortal sonl of the great patriot whom we deplore to which homage is pad it ray that our German brethren may be better inspired than hither; o, and that they will so sot as to cause the nations of the North to become reconciled to those of the Scuth." Fere Hyadinthe them compared the advantages of a constitutional monarchy with those of a republic. The Papal Nuncio did not attend Gambetta's inneral.

The Bishop of Metz. M. Dupont des Loges, who recently gave orders to his clergy to hold once every Surday a service in German, has just been accorded the decoration of the Iron Orown by the Emperor William, in recognition of this concession. Bishop Dupont, however, has declined the honor, in a courteous letter to Marshal Manteufi-l, in which he gives as his reason his desire to remain faithful to the principle of strictly keeping alooi from all political sympathies. The French papers express great satisfaction at the step taken by the Bishop, and recall to their readers that he had twice been offered the cross of the Legion of Honor by the Emperor, and declined it. He, however, asked M. Thiers for it, after the annexation of his diocese to Germany, and this wish was, of course, at once granted.

A z wlot desired to go to heaven without wav rom Bading, Pa, but prayed in valuer death. Then he tried the plan of kneeling in the Sobusikili Biver while offering up his petition, but the result was only a violent cold, from which he recovered. His next. place for prayer was on a railroad track, before an approaching express train, but he was dragged off in time to sowert his purpose. D. I consider it

it is recommended to cure." Prof. Wilson, of St. Louis, announced that he would go into a trance and remain in that condition three days. Several physicians watched him, and their opinion is that he really remained unconscious for that period. If he was shamming he did it cleverly, for he was motionless and neither are nor drank anything. Wilson says that this was an episode in his development as a religious prophet. His next step toward perfection will be a fast of forty days.

Western dramatic criticism is sometimes exuberant. A Louisville writer fluds that the performance by a certain actress of Galatea is "like a babe that opens its wide eyes for one moment on the world, and then leaves it with a sigh; like a flower that breathes its fragrance for a day upon the earth of which it is not; like a grand strain of music that floats and throbs at twilight, and sinks away into the dim reaches of which we dream, but lu which we cannot welk; too pure for the world, and yet leaving behind a memory, a perfume, a harmony, tenderer, sweeter, more

like Rev. N. H. Downs' Elixir that has stood the racket of 63 years must have some virtue, and must cure the diseases for which it is recommended, or people would not continue to buy and use it, as they do. THE BEST REMEDY

Diseases of the Throat and Lungs.

In diseases of the pulmonary organs a sale and reliable remedy is invaluable. Ayrn's Cherry Pretoral, is such a remedy, and no othersoeminently merits the confidence of the public. It is a scientific combination of the medicinal princi ples and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of results. It strikes

PECTORAL. ity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clorgyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PEC-TORAL are magical, and multitudes are au-mually preserved from serious illness by its attently and faithful use. It should be kept at hand in every household for the pro-tection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious southing, and helpful. Low prices are inducements to try some of the many mixtures, or syrups, made of cheap

and imiffective ingredlents, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dan-gerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so triffed with, become deeply seated or incurable. Use Avent's Chemix Pectonal, and you may confidently expect the best results. It is a standard nedical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pul-monary complaints not already beyond the reach of human aid.

THE MIDLOTHIAN CAMPAIGN. ME GLADSTORN GOING ON THE STUMP.

HE GLADSTONI GOING ON THE STURY.

NEW YORK, Jan. 9—The World's London correspondent writes: Great preparations are making for Mr. Gladstone's new Midlothian campaign, upon which he will enter week aller next, and which promises to be as exciting, if not as important, as his tamous canvass in 1879. He will join Lord Rosebery at laimeny on the lith, and make that place, as before, his beadquarters. I have recent closed to believe that the remit, will avail himself of the occasion to make the long expected declaration whether he intends to retire this year or see another session through. First a rumors in quarters likely to be well informed are to the effect that Mr. Gladstone will certainly retire, his known inclination in this direction beint, perhaps, increased by his recent in-health and by the warnings of his doctors that the time for hard work is over and the period for rest has come. Moreover, all is not working so smoothly as might be in the Hadical household to est complaints are being mide in per indication of Mr. Gladstone's appointments, the Radicals crying out loudly that altoge her too many plums fall to the share of the aristocrasy. Thus the effect of Under Accretary of State for Foreign Affairs, in place of Fir Charles Dilke, who takes the residency of the Local Government Hoard, has given rise to much disconten, and syen the official journals of the Liberal party becate Mr. Gladstone vigonally, reminding him that the is an advanced government, which means of courks that many hung; y men have not yet been fed. All this, as your readers Will readily understand, may omfirm Mr. Gladstone in his long cherished design to leave the Radicals and the Whigs to fight it out among themselves as bet they can. He may or may of reveal his personal pane, of the all-burgh, but his specches cannot fail to be important as dieclasing the future policy of the administration.
