

A CHATHAM MIRACLE.

DR. CARL VERRINDER'S VICISSITUDES OF TORTURE AND OF HEALTH.

He Survives Them all, and Recounts His Wonderful Deliverance From Poverty and Death, and His Restoration to Prosperity and Vigor of Mind and Body—Good Words for the A. O. U. W. Chatham Planet.

In a Raleigh street residence there lives with wife and one child—a little ten year old daughter—a musician known throughout Ontario, if not the whole Dominion, as a prince among pianists, organists and choir masters—a veritable virtuoso and "Wizard of the Ivory Keys," and no one who has ever listened to his manipulation of the great organ in the Park Street Methodist Church, or heard him evoke "magic music's mystic melody" from the magnificent Decker Grand in his own drawing room but will declare that his eminence is well deserved, and his peers can be but few among the professors of Divine Art. The door plate bears the following inscription:—

CONSERVATORY OF MUSIC.

DR. CARL VERRINDER, Director.

To sit, as did a Planet reporter a few days ago, in a very atmosphere of sweet harmony, created by Dr. Verrinder's musician-like touch was an experience that might well be envied, and one calculated to inspire the most sentimental reveries. But sentimental moods finally vanished, and leave one facing the sober and practical side of life. The music ceased and the conversation took a turn leading to the real object of the reporter's call.

"The reporter, smiling broadly," said the newspaper man, "regarding some extraordinary deliverance from death, which you have met with recently, doctor. Would you object to stating what foundation there is for them, and, if any, furnish me with the true facts for publication?" Dr. Verrinder shrugged his shoulders and laughed. "I have not," he replied, "been given to seeking newspaper notoriety, and at fifty-five years of age it is not likely I shall begin, and yet," said the professor after thinking a moment and consulting Mrs. Verrinder, "perhaps it is best that I should give you the circumstances for use in The Planet. The story of my rescue from the grave might fittingly be preceded by a little of my early history. We resided in England, where, though I was a professor of music, I was not dependent on my art as I had acquired a competence. My wife was an heiress, having £50,000 in her own right. Through the rascality of a broker she was robbed almost of all her fortune, and by the Bank of Glasgow failing in many vanished forever. It became necessary for me then to return to my profession in order to live. I do not speak of it boastfully, but I stood well among the musicians of that day in the old land. My loss was a guinea a lesson, and it was no uncommon thing for me to give twenty in a day. We came to America, landing in Quebec, where I anticipated getting engagement as organist in the cathedral, but was disappointed. Subsequently we moved to St. Catharines, in which city I procured an organ and choir and soon had a large audience. Later, in order as I thought to better my fortune, I took up my residence in London, first finding an engagement with a Methodist church and afterwards accepting the position of organist in St. Peter's Cathedral. In those cities I made many warm friends, and their tributes and gifts I shall ever regard as among the most precious of my possessions. It was while living in London and pursuing my art with much earnestness, and labor that I received a stroke of paralysis. Perhaps," here the speaker rose and stretching himself to his full height, thus displaying his well-built and well-nourished frame—"I do not look like a paralytic. But the truth is I have had three strokes—yes, first, second and third, and they say the third is fatal, ninety-nine times out of one hundred. Yet here you see before you a three-stroke victim, and a man who feels, both in body and mind, as vigorous as he ever did in his life. My intimate cure I attribute to my testing the virtues of a medicine whose praise I shall never cease sounding as long as I live, and which I shall recommend to suffering humanity as I am now contentedly doing, while I know of a case and can reach the ear of the patient. After removing to Chatham I had not long been here when my wife, feeling further began to give way, and finally I noted the change. I felt a fit and most strongly in a stomach affection which produced constant and distressing nausea. It grew worse and worse, I myself attributed it to bad water poisoning my system. One doctor said it was catarrh of the stomach. Another pronounced it diabetes, still another a different diagnosis. I kept on dosing him, but getting no relief. I tried one medicine after another, but it was no use. Grippe attacked me and added to my pain, discomfort and weakness. At last I took to my bed and it seemed that I was never going to get well. Nothing of a nourishing nature would remain on my stomach. No drugs seemed to have a counter-acting influence on the disease which was dragging me down to death. My wife would sit at my bedside and moisten my lips with scented spirits which was all that could be done to relieve me. Besides three local doctors who gave me up, I had doctors from London and Kingston whose skill I believed in and to whom I paid heavy fees, but without receiving any help or encouragement. It is true that a stomach pump operation afforded temporary relief, but yet I felt that my peculiar case needed some special and particular compound or remedial agent which I knew not of. But, at last, thank God, I discovered it. I had been for eighteen months a miserable wreck, unable to work, unable to eat and to sleep properly. My means were

wife was worn out in body and spirit. Suddenly the deliverer came! Pink Pills! Yes sir! Pink Pills—God bless their inventor or discoverer!—have rescued me from the jaws of death and miraculously made me what you see me today, hearty, happy, with a splendid appetite, a clear brain, a capacity for work and an ability to sleep sound and refreshing sleep—a boon that only a man who has experienced the terrors of insomnia can rightly appreciate. Bear in mind, my friend, I am no wild enthusiast over the supposed merits of this medicine. I have tested the virtues of Pink Pills and am ready to take oath to their efficacy. No one could shake my faith in them; because what a man has thoroughly proved in his own experience, and what he has had confirmed in the experience of others—I have prescribed these pills to other sick persons and know what extraordinary good they have effected in their cases—the ought to be convinced is so. I shall tell you how I came to try them. A fellow member of the A. O. U. W., the brethren of which order had been more than kind to me during my illness, recommended Pink Pills. I knew nothing about what they were or what they could accomplish. In fact, I am rather a sceptic on what are termed "proprietary remedies." But I started to take Pink Pills for Pale People, made by the Dr. Williams' Medicine Co., Brockville. From the very first, on a dose, I began to mend, and before I had taken more than a box or two I knew that I had found the right remedy and that to the Pink Pills I owed my life. In nine months I have taken twelve boxes—just six dollars worth. Think of it, my friend! Hundreds of dollars for other treatment, and only six dollars for what has made a man of me and set me again on the highway of health and prosperity. There is some subtle life-giving principle in Pink Pills which I do not attempt to titillate. I only know like the blind man of old: "Once I was blind; now I can see." God, in the mystery of his providence, directed my brother of the A. O. U. W. to me. I took it. Live and rejoice in my health and strength. I have no physical malady, saving a slight stiffness in my leg due to grippe. I feel as well as in my prime days. My prospects are good. All this I gratefully attribute to the virtues of Pink Pills for Pale People, and now my story is done." "The reporter smiled broadly and said: "The reporter finally took his leave of Dr. Verrinder, but not without the professor entertaining him to another piano treat, a symphony played with faultless execution and soulful interpretation of the composer's thought. Calling upon Messrs. A. E. Pilkey & Co., the well known druggists, the reporter ascertained Dr. Williams' Pink Pills have an enormous sale in Chatham, and that from all quarters come glowing reports of the excellent results following their use. In fact Dr. Williams' Pink Pills are recognized as one of the greatest modern medicines—a perfect blood builder and nerve restorer—curing such diseases as rheumatism, neuritis, partial paralysis, locomotor ataxia, St. Vitus dance, nervous headache, nervous prostration and the third feeling resulting therefrom, diseases depending upon humors in the blood, such as scrofula, chronic erysipelas, etc. Pink Pills restore pale and sad-wind complexion to the glow of health, and are a specific for all the troubles peculiar to the female sex, while in the case of men they effect a radical cure in all cases arising from mental worry, overwork or excess of whatever nature. These Pills are manufactured by the Dr. Williams' Medicine Company, Brockville Ont., and Schenectady, N. Y., and are sold in boxes (never in loose form) by the dozen or hundred and the public are cautioned against numerous imitations sold in this shape at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

"It is a matter of surprise to me," remarked a man who is a keen observer, recently, "that half the children of this country do not grow up minus an arm." "But wherefore?" asked the person to whom he was speaking. "Here is an illustration," continued the first speaker; "do you see that woman walking with a little child? Now, notice her when she crosses the street." At the crossing the woman lifted the child by one arm; it dangled in the air and the feet did not touch the earth until it was across the street, when the mother dropped it on the sidewalk. "Well, the arm held, didn't it?" "But," continued the philosopher, "I was afraid at one time it would be wrenched from its socket. Now, that is a sight you can witness every hour of the day, mothers dragging children out of street cars, across the streets or up a flight of stairs by one arm. I wonder how the mothers would like it if a being four times as large as themselves should suddenly swoop down and lift them by one arm. I'd love to see it tried once, I just would!"

At Its True Value. The Manager of the Dominion Railway Advertising Agency, Mr. Alfred Roberts, 79 King St., W. Toronto, Ont., writes: "I desire to testify to the efficacy of St. Jacobs Oil as a sure remedy for sprains, bruises, rheumatism, etc., having had occasion to use it in my family for some time past. In fact I would not be without a bottle of Oil in my house for double the amount charged." Well worth it.

I'll try this preparation at any cost, for it must be good, I hear so many talk about it, and so I did, and now I can tell all those who are troubled with grey hair to use Luby's Parisian Hair Renewer as I did, and they will get entire satisfaction and save cents well invested. Such a preparation has long been sought.

The Question of the Day. Often Asked.—Where can I find a home? Where can I make a living? Where can I, with ordinary diligence, prudence and economy, provide my family with the necessities of life, and feel assured that at the end of it I can leave to my children a decent inheritance? To what place can I go and find good land on terms so reasonable that I may get a portion of it without burdening myself with debt, which I can never hope to pay off? Where can I find such a place on these terms and safe from crop failure, and allow me to devote myself to any special branch of agriculture for which I may feel myself fitted.
