THIS SEASON'S FURS ARE BUILT FOR COMFORT

Especially is this noticeable in the scarfs, stoles and caperines. The new style, or rather old style revived, is wider over the shoulders and back affording extra protection to these parts so easily affected by the cold. The garments are the make of our own factory. We can therefore assure you that there is nothing wanting in style, fit, finish, workmanship and material, while you'll find prices to suit your desires. See the many lines correctly illustrated in **OUR NEW FALL AND WINTER CATALOGUE.** Write for it if you have not received one yet.
