Expansion is one of the chief features in a loose leaf binder, and one make is said to be superior to another if its expansion is greater.

The expansion of the KAL-AMAZOO binder is practically unlimited, for it will hold any number of sheets from one to one thousand—just as many as one requires for use. With this binder there is neither minimum nor maximum, and the necessity of the office is the only limit to its capacity.

Examine it thoroughly before deciding, for it is the last word in loose leaf binders.

Ask for Booklet "CI" describing the binder, and giving a partial list of firms using the Kalamazoo.

EUREKA Refrigerators

are made to last a lifetime—and they do. We know of Eureka Refrigerators installed 25 years ago that are still as good as ever and giving splendid service.

This lasting service is but the natural result of the quality of the materials and workmanship that enter into them.

The most valuable feature is that the Eureka Refrigerator will keep perishable food stuff in the best of condition, fresh, healthful, sweet and natural, and free from dampness, and in this respect the Eureka Refrigerator is superior to anything else made.

The large number in use by Butchers, Grocers, etc., etc., in all parts of the Dominion is a strong guarantee. Ask your Butcher his opinion.

Eureka Refrigerators are handsomely finished and lined with odorless Spruce coated with pure orange shellac, white enamel, or porcelain lined.

Eureka Refrigerators are sold only direct from the Factory, and may be seen at the showrooms, 31 Brock Ave., Toronto.
