

[Probably from Muriel Miller, biographer  
of Homer Watson. N. same.]

I do not find many  
references to early friendship  
save in letter of Dec. 28 '33.  
Charming references to your  
Father & Mother in a letter  
of N. W. S. to you -

I would omit - all parts  
relating to National  
Gallery officials - also  
some political observation  
which would seem to  
belong to a different -  
type of book -

The outstanding features  
to me are -

His love for & sympathy  
with Nature -

His joy in his work - his unswerving

The struggle - common to all a-  
most artists.
