Brushes, Maps and Soap, Cleaning and Repairing.

and other items making total expenditure about \$2,000 per annum same as H. for I, although facing 50 (over-age) more to provide for daily.

1. The MEAT account occasionally increases as the number of patients decrease.  
 2. The BUTTER account shows some startling figures, see the year 1892, 1894, 1900 and 1902.  
 3. The BREAD account is on a par with the BUTTER.  
 4. MILK and WATER accounts come side by side, and are as much mixed. Work it out and you will find that the figures will give about one quart of "Milk" per day, or one quart of "Water colored with Milk" to each patient and attendant, etc.  
 5. GROCERIES and PROVISIONS. Here are some startling figures. In 120 patients in 1901 and 1902 get more spent on them than the 131 and 132 in 1899 and 1900. Thus 120 patients and the staff in 1901 get \$287 "expended" on them, whilst the 131 patients and the staff in 1899 get only \$2194 spent on them—so that 1063 ADDITIONAL are spent when there are 5 PATIENTS LESS.—Again 120 patients and the staff in 1902 get \$370 expended on them, whilst the 132 patients and staff in 1900 get only \$218 spent on them, so that \$222 ADDITIONAL are spent when there are 6 patients less. Compare the year 1892-6 with the year 1897-8 also see the steady increase and fluctuation as the patients grow fewer in numbers.  
 6. SOAP, BRUSHES and CLEANING. Startling figures from \$3 to \$187 from the year 1891, some most erratic leaps and bounds, backwards and forwards and yet the fifth increased in proportion as the expenditure increased.  
 7. DRY GOODS, etc. The 120 patients in 1901-2 seem to have had a better time than in other years when there were more of them.  
 8. GAS and OIL, etc. As the FIFTH increased in 1901-2 no doubt it needs more light to show it up.  
 9. As the LIVE STOCK, after taking a few days' gasps from \$30, finally expires at \$1. It is presumed the meat account suffered accordingly? To what expenditure did the \$300 donation of Mrs. H. Leslie go?  
 10. Where did the "not mentioned" sum of \$1895 go to? It seems odd that \$1895 should go to some unmentionable item, place, or person, and only be "examined and CERTIFIED" correct by the Auditors. No mention made of "Vouchers!"

APPENDIX—On page 7, column 2, read Mrs. J. Richardson instead of Mr. J. Ric' and son.

1. "Audited and found correct WITH VOUCHERS."  
 2. "Audited and found correct."  
 3. "Examined and certified correct."  
 4. BALANCE AS PER TREASURER'S CASH BOOK.  
 5. Examined and found correct WITH VOUCHERS.  
 6. Examined and found correct.  
 The wordings of the five Auditors are varied. Some "correct with vouchers," some found correct "examined" "certified" and no voucher mentioned. One BALANCE AS PER CASH BOOK WHERE ARE THE VOUCHERS for that "not mentioned," sum of \$4805 in the year 1892. THESE ACCOUNTS REQUIRE A REAL THOROUGH INVESTIGATION, NOT A Sham, Bogus, Farcical one.
