

At least one-third
lighter draft
**Genuine
Kemp**
Manure Spreader

You can only buy one manure spreader with the Reversible, Self-Sharpener, Graded Flat-Tooth Cylinder—and that is the Genuine Kemp.

Because of this Graded Flat-Tooth Cylinder the Genuine Kemp is at least one-third lighter draft than any other spreader.

There is less friction on the Flat-Tooth Cylinder, because the teeth are wide and graded. On that account only one-third as many teeth are required, which reduces the friction when the manure is passing through the cylinder.

The square or round teeth on ordinary cylinders are not wide enough apart and the manure backs up, chokes cylinder, causing heavy draft.

The manure cannot back up against the flat teeth, and because the flat teeth are graded they will handle and thoroughly pulverize all kinds of manure from the clear gum to the strawy material.

There are many other exclusive improvements on the Genuine Kemp. Our big catalog describes and illustrates them fully. Send for a copy and learn some new facts about manure spreaders.

There would be twenty times as many manure spreaders in use in Canada today if farmers realized the economy of spreading manure with the Genuine Kemp. The Genuine Kemp will pay for itself faster than any other farm machine.

But send to us for catalog "F" That's your first step. We are sole selling agents.

Trinidad Lake Asphalt

has no equal as a waterproofer. After we have used it for thirty years, everybody is learning its value for every waterproofing purpose.

**Genasco
Ready Roofing**

is made of genuine Trinidad Lake asphalt.

There is no roofing substitute for Genasco. It will last so long.

The Kant-leak Kleet keeps seams tight, waterproof, and cement. Genasco and the Genasco Kleet are the best.

Ask for Genasco Kleet. It is the best. Genasco Kleet is the best.
