SAVE Cost of Building, Repairs, Fire Loss and Labor. This Book Helps You

Portland Cement Concrete stops the ravages of time, frost and fire on farm buildings and fixtures.

It is always cheapest to use compared with wood, brick or stone.

This Rogers New-Way book (regular price \$1.00 a Copy) tells how. Get it. Learn to use cement right.

Cement is very strong. You can make light or heavy construction with it at small cost.

Everything you make is permanent added value on your farm.

You never have to renew, repair, or replace good concrete work.

The principles are easy to learn. The Rogers Book gives them.

According to the way you handle cement, you use more or less of it and vary the cost. The Rogers New-Way cement book gives lowest costs.

Every structure in cement reduces the fire and lightning danger.

Cement tanks can neither rot nor rust, and make tight water containers above or below ground. By the Rogers New-Way book made about as easy to build as other fixtures.

This handiness and adaptability of cement makes it tremendously useful for farm improvements.

Learn from the Rogers New-Way book to use concrete made from Portland cement and free your farm land of field stone, while you are bettering your farm buildings and fixtures for all time.

Less and less time and labor are needed for your farm repairs, as concrete takes the place of wood.

More and more income and bigger crops are produced as your labor is freed to attend to crop production instead of fixing dilapidated wood and repairing rotten fences in degrading weather.

Concrete is the most economical cost means of building on the farm. Remember that.
