Total Abstainers

are becoming more and more appreciative of the benefits of insuring with **The Manufacturers' Life Insurance Company**, as we not only give Total Abstainers the advantages of special plans and rates, but keep a separate classification as regards mortality. In 1905 the ratio of business done in the Abstainers' Section to that in the General Section was 2 to 3; in 1915, just a decade later, this ratio had changed to 4 to 3 in favour of the Abstainers' Department.

Two essential factors are responsible for this wonderful increase: First, the popularity of our special policies for Abstainers, coupled with public approval of our Assets and progressiveness; and, Second, the growth of temperance sentiment.

Wouldn't you like to carry a policy in a Company that recognizes in a concrete way the advantages you are entitled to as a Total Abstainer?
