

Think for a moment of the power that you can get out of any kind of work. Think of having all your work done just as long as you want, and then shutting it off at the expense of a few cents always low in proportion to the work done. It's a labor-saving device. It operates itself. It saves you labor and makes you free of ways. You will repay its cost, and the engine for many years. The International have catalogs giving these farm laborers have not already better call and get the book and study it, and the service such a machine will give you.
