**WHEN REPLYING** to advertisements on this page mention the FARMER'S ADVOCATE.

## Trade Notes

### HUDSON BAY INSURANCE CO.

The selection of an insurance company is as important a consideration as the insurance itself, inasmuch as on its reliability depends the redemption of the obligation it incurs, and, while it is not always wise to be guided by ostentatious boasts of assets and impregnable resources "for which the policyholder has to pay," it is always wise while endeavoring to secure the lowest rates to also look well into the record and stability of the institution in which we place our trust. No one in these days of advancement and progress doubts the wisdom of protecting himself and family against the results of commercial reverses, accident or loss. Insurance companies to no end exist. Forty odd companies are transacting business in these provinces. But what the average farmer requires is a sound home institution, managed by men whose ability and integrity he knows or can readily acquaint himself with. Such an institution is the Hudson Bay Insurance Company, Ltd., of Moose Jaw, an insurance concern that is rapidly forging to the front. Its directors are western men, their interests and homes are here, the propositions they offer are equal to anything offered by any outside company.

EVERY COLD DRIVE can be robbed of discomfort and made warm and cheerful through the use of a Clark Carriage heater. It is the height of foolishness to be without one of these comforting devices. They are inexpensive, durable, attractive and cost practically nothing to operate. They are manufactured by the Chicago Flexible Shaft Company and are advertised in a special offer of this issue. Order one or write for the catalogue mentioned.

"THE CALL OF THE WILD"—There is not another place on the continent of America to compare with the "Highlands of Ontario" for deer and moose hunting. This part of Canada still forms a portion of that small remnant of the world's pristine wilderness—not yet the abode of man and his mighty civilization.

Northern Ontario with its rich resources is regarded as the richest deer and moose country in the world.

Moose season in the Moose country opens October 16th for 31 days. Deer season in the Deer country opens November 1st for 15 days.

These sections of Ontario are the places to hunt and valuable information as to how and when to get there and all particulars can be had free by addressing A. E. Duff, General Agent, Passenger Department, Grand Trunk Railway System, 260 Portage Ave., Winnipeg.

FARMERS AND CATTLE RAISERS are coming more and more to see the great importance of a stock tonic.

Before our present-day experiments proved their point, no one thought it necessary to do anything to aid animal digestion, in fact no one thought such a thing could be done.

Now feeders of livestock, whether for beef or milk, never even attempt to "fit" a bunch of steers or produce a given quantity of milk without giving each animal in the herd a corrective in daily doses.

A few years ago farmers took sickness and loss as part of the business. Their profits were small because a few weeks heavy feeding on an unbalanced ration, without assisting nature in any way, was sure to throw the animal "off its feed" and actually undo all that had gained up to that point.

The amount of money lost to feeders in this way must have been something startling, and under our present laws of keen competition would have been simply ruinous.

All this uncertain and haphazard way of doing has given place—thanks to the few who have made a study of these things—to a scientific and certain way of reaching uniform results in the cattle trade. Men know a whole lot more than they did, but it's the Stock Tonic above all else that has given cattle raising the reliability of an established business.

## British Columbia The Land of Summer

We have 100 acres of choice Fruit Land on Arrow Lake; one mile of water front. Adjoining ranch can not be bought for \$18,000. Five miles from Nakusp; two boats land on this property every day. This land will double in value in three years.
