FURS **Safety First**

Nothing is more important to the Fur Shipper than doing business with an Honest—Reliable—Responsible—Safe Fur House.

"Ship to Shubert" the largest house in the World dealing exclusively in American Raw Furs, where you will always receive an Accurate and Liberal Assortment, the Highest Market Prices and the usual "Shubert" Efficient, Sooty, Courteous service.

Write for the latest edition of "The Shubert Shipper" containing valuable Market information you must have.

A. B. SHUBERT, Inc. 25-27 WEST AUSTIN AVE. Dept. C417, CHICAGO, U.S.A.

Miss Mabel Wilkinson, an Owen Sound girl, who was on her way to the United States to take a position in a hospital, has been held up at the border under the terms of the Alien Labor Law and refused admittance. Miss Wilkinson was trained in Chicago and went to France with an American hospital unit, but was going back to work in an American hospital. She is being detained

at Windsor while the British consul at Detroit takes up her case.

A Toronto man has appealed to the police to find out whether or not he is married. There is a woman on hand claiming to be his wife. Just wait till he passes through the Easter bonnet season and the young man won't need to ask any information from the police.

Bayoneted in Right Hand.

On Tuesday, E. W. Schneider, a foreman in the factory of Krug Bros. Co., met with a nasty accident. A stick four feet long flew off a saw with great force entering his right hand between the second and third finger emerging near the wrist. It was necessary to cut a piece off the stick before he could get his coat on and have it dressed by his doctor. He will be off work for nearly a month. E. W. now has a kind of idea what a bayonet thrust in the hand would be like.—Chesley Enterprise.—The injured man is a son of Mr Jac. L. Schneider.

Old Weather Signs.

Here are a few old English weather signs which are older probably than any one living to-day. Experience has shown them to be fairly reliable, and some of them can be explained on a scientific basis:

Moonlight nights have the heaviest frosts.

The higher the clouds the finer the weather.

The farther the sight the nearer the rain.

Dew is an indication of fine weather. When stars flicker in a dark background, rain or snow follows soon.

Expect a strong wind with stormy weather when smoke from chimneys hangs near the ground.

Here are a few in verse: They have the advantage of being easily remembered:

Clear moon, Frost soon.

Year of snow, Fruit will grow.

Rain before seven, Fine before eleven.

If the sun set in gray, The next will be a rainy day.

When the wind's in the south, The rain's in its mouth.

The wind in the west, Suits everyone best.

If you see grass in January, Lock your grain in the granary.

Evening red and Morning grey Help the traveller on his way;

Evening grey and morning red Bring down rain upon his head.

When the clouds appear like rocks and towers,

The earth's refreshed by frequent showers.

"ANURIC!" THE NEWEST DISCOVERY IN CHEMISTRY

This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Doctor Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric," manufactured by Dr. Pierce, or send 10 cents to Dr. Pierce for a large trial package. If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Doctor Pierce's chemist will examine it, then Dr. Pierce will report to you, without fee or charge.

NOTE:—French scientists affirm that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "Anuric" (thanks to Doctor Pierce's achievement) is by far the most perfect kidney and bladder corrector obtainable.

Dr. Pierce's Pellets are the original little Liver Pills. One little Pellet for a laxative—three for a cathartic.

Nyal's Emulsion of Cod Liver Oil.

Nyal's White Pine and Tar Baby cough Syrup.

Nyal's Compound Syrup of Hypophosphites, Nyal's Worm Remedies, Nyal's Proxide of Hydrogen is back to old price—25 cts.

JOHN COATES
Druggist, Mildmay.

Fined \$20 and Costs.

It wasn't whiskey that got the man into trouble this time, it was eggs. It wasn't a local case either, but it imparts a useful lesson to those who bring or send eggs to market. It happened at Kitchener last week. L. Schilling, a farmer of Waterloo Township, offered stale eggs for sale in Kitchener. He was charged with violating the Pure Food Act, asked to appear in court, and being proved guilty was fined \$20 and costs. This may happen to anybody in Ontario who offers for sale stale eggs or other food stuff that has gone bad. It is up to the seller to know that what he offers is good.

Pension Commission

The Dominion Government have appointed a Board of Pension Commissioners for Canada with offices in Ottawa. As this Board wish to cause as little delay as possible in dealing with communications with regard to pensions, they wish the public to correspond directly with the Board of Pension Commissioners, Ottawa.

A great deal of delay may be caused by communications being sent through other Departments of the Government.

The Patriotic Fund Association and the Military Hospitals Commission have kindly consented to give information and assistance to those wishing to write direct to the Board of Pension Commissioners. These societies have offices in certain localities throughout Canada.

In addition, in order to facilitate the granting of pensions, the Board is opening Branch pension offices in Vancouver, Calgary, Edmonton, Regina, Winnipeg, London, Hamilton, Toronto, Barrie, Kingston, Ottawa, Montreal, Quebec, St. John and Halifax. All information with regard to pensions may be obtained from these offices.

Missing; Believed Killed

Many hearts were saddened by the news that came over the wires on Thursday that Alvin E. Wilton, only son of Mr. and Mrs. Dan Wilton of Walkerton was officially reported missing and believed killed on January 5th. Alvin was a manly intelligent young fellow in whom much hope was centred by his devoted parents. He was born and raised in the old town, was well known here and well-liked by everybody. If it be true that the young soldier has made the Supreme Sacrifice, it is comforting to know that his was a hero's death and he died manfully at his post in the performance of his stern duty.

Before joining the Tobermory Wireless Guard in 1914, Alvin was assistant to his father, Mr. Dan Wilton, Engineer

at the Waterworks pumping station. Later he joined the 71st Battalion at Galt and was one of the Walkerton boys who left Galt for Overseas on March 29th last. On the breaking up of the 71st Batt. in England, he was transferred to the 4th Trench Mortar Battery, 10th Infantry Brigade, 4th Canadian Division. In the battery he had several Walkerton boys for companions, including Chester Cunningham, L. B. Russell, Roy Oberle, Ed. Eidt, Ted Wilhelm, Everett Trux. It is worth noting that Alvin's is the first name of the Walkerton boys in the Battery to appear at all in the Casualty lists. It was on the 10th day of August that the boys crossed the Channel and they were soon in the trenches. After several months on the firing line, Alvin contracted rheumatism and was sent to the Hospital. On Christmas Day he rejoined his battery at the Front.—Telescope.
