CAMP MEETING OPENED The Bay of Quinte Conference tent meeting at Oak Lake opened yesterday morning under favorable auspices as far as the weather was concerned but there were several hitches in the arrangements that marred the program somewhat for the afternoon and evening.

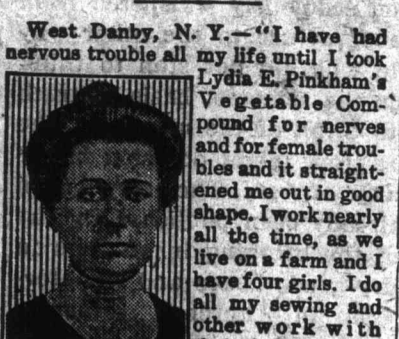

The St. Lawrence St. road, which runs through Madoc Village, on account of the nature of the locality and the heavy traffic to and from the station, has been very costly to the county and also very unsatisfactory to the travelling public.

WOMAN HAD NERVOUS TROUBLE

Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I have also had my oldest girl take it and it did her lots of good. I keep it in the house all the time and recommend it."—Mrs. DAWSON SUCCESSION, West Danby, N. Y.

WAR RELIEF WORK

Montreal, July 7, 1917. Mrs. S. D. Lazier, Cor.-Secy., Quinte Chapter I.O.D.E., Belleville, Ont.

We beg to acknowledge receipt of your favor of the 6th inst. in reply to which we beg to state that the relief work in Belgium has not been taken up by Americans, the only change being that the amount so far loaned by the British and French Governments to the Belgian Government for the relief of Belgium, which amount was paid over to the Commission for Relief in Belgium, is now being loaned by the United States. The situation in Belgium is more acute than ever, for the reason that on account of the lack of shipping facilities the necessary amount of food cannot be imported.

While, in round figures, the sum necessary each month to come to the aid of the populations in occupied Belgium and that portion of occupied Northern France, was \$14,000,000 per month, it is now impossible on account of lack of ships, to import more than about \$12,500,000 worth of food. This amount is made up by the loans granted by the United States Government to both the Belgian and French Governments.

Position Desperate

Owing to the decrease in imports, the position in Belgium will be more desperate than ever, as can be readily understood when it is stated that to make up in part for this decrease in imports it will be necessary to encroach upon the reserves of milk cattle, which hitherto have been kept apart to ensure a supply of fresh milk to the children.

Under the circumstances the children will suffer most and those funds which have hitherto looked specially after the children are today making urgent appeals for help. While up to the present our Committee has limited itself to apply the moneys collected in Canada for the purchase locally of Canadian produce or Canadian-made goods, we are asking today all our sub-committees to continue in their efforts to collect funds so as to enable us to come to the rescue of those funds that are in most need of help at the present moment.

Thousands of Orphans

The Belgian Orphan Fund, which has among its patrons the King and Queen of the Belgians and is officially approved of by the British Government. There are some thousands of little orphan children in Belgium who must be succored at once. The gift of six pence per day or of about \$3.76 a month is needed for each one of them, and anybody guaranteeing this amount for six months or for one year will receive the name, the address, and if possible, the photograph of the little Belgian sufferer that is being sponsored.

Sick Children

The Children's Health Fund—This fund looks after the children who have been weakened by privations. Most of them already show signs of tuberculosis and rickets. They are taken to Holland where they receive special treatment and nourishment, and are then sent back to Belgium to make room for others. How much this fund is in need of money can be gathered by the fact that even before the decrease in imports, over 10,000 children were waiting their turn to be taken into Holland.

Under the circumstances we trust that your Committee will continue in their efforts to raise funds which may be remitted either to our Toronto Committee or direct to us, according to your Committee's desire. Holding ourselves at your disposal for any further information you may desire, we beg to remain, Yours very truly, (Sgd.) A. De Jardin, Hon. Secy.-Treas.

It is a liver pill—Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbance that comes from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Parmentier's Vegetable Pills. Their operation though gentle is effective and the most delicate an use them.
