UNFINISHED NOVELS.

Bix Famous Stories In the English Language Have No Ending.

There are about six famous novels in the English language which only have a beginning. Like the grandfather's clock, "they stop short never to go again," because the author, when he had got so far, laid down his pen and died before he could take it up again.

pen and died before he could take to up again.

The most famous of these is, of course, "The Mystery of Edwin Drood," which some critics think would have been Dicken's masterpiece had he lived to finish it. But there it stands, unfinished, and the brain that conceived it carried to the grave the solution of the mystery and a it stands, unfinished, and the brain that conceived it carried to the grave the solution of the mystery, and a mystery it remains to this day, in spite of countless efforts to solve it. Robert Louis Stevenson also left an unfinished novel upon which he was engaged when death interrupted his labors. The novel was entitled "St. Ives," but, happily, there was more to go upon than in the case of "Edwin Drood," and it is generally admitted that Sir Quiller Couch made one of the best attempts on record to finish another man's novel. He proved quite the ideal man for the j.b.

Whilst everybody knows that Dickens left a novel unfinished, few know that his great rival, Thackeray, did the same thing. The novelist had just started The Cornhill Magazine, of which the most prominent feature was a novel from the editor's pen, entitled "Denis Duval," which he was writing month by month as the instalment fell due. Suddenly he died, and the serial was but half finished. Happily, however, the careful Thackeray had left full notes of the development of the story, which was finished by Frederick Greenwood.

Who has not read "Pride and Prejudice" and "Sense and Sensibility," the productions of a quiet, consumptive little woman named Jane Austen? The white scourge carried her off when she was in the midst of another masterpiece, entitled "The Watsons," which was found in her deek after her death.

What the world lost when Charlotte Bronte died, after a brief year of married life, who can say? It certainly

Bronte died, after a brief year of mar-ried life, who can say? It certainly missed a nameless novel which the gifted author of "Jane Eyre" had started. But so little had she done of it that none of her successors in fic-tion has had the temerity to attempt even to finish it, and it is likely ever to remain an interesting fragment. In this respect it may be compared to another unfinished work — Edgar Allan Poe's weird story, "The Narrative of Arthur Gordon Pym." Who could finish that story? It is doubtful whether Poe himself could, for he limit allows works after it was first

What a valuable asset the railways are to the state is shown by the large profit resulting on their working each twelve months. Last year the percentage of net revenue to capital cost was 6.02, and the surplus of revenue over expenditure and interest was about \$1,500,000. A gratifying feature, ver, Rankin; centre, Laflamme; right,

tion that the result of this year's op-erations will also be very satisfactory. During the four months which have expired traffic has been well main-tained, and the now almost certain prospect of another bountiful harvest makes the outlook for the railways and other trading departments of the

"Cheek" in the sense of impudence is an old term. The earliest quota-Tankard, and they will meet this morning in the semi-finals. Colling-wood will play Orillia at the Granite Rink, and Napanee and Owen Sound clash at the Victoria Rink. The winhottest of corners—decreed that any person giving "cheke" to the mayor should "forfeit 100 shillings and have his body put into prison."

An Appropriate Hymn.

The annals of unconscious pulpit humor will be enriched by an instance furnished some little time ago at St. John's Church, Keswick, England. A lady's watch had been found in the churchyard, and the vicar, in making his usual weekly announcements from the pulpit, referring to the find, stated that the watch could be claimed in the vestry. The next announcement was: "We will now sing hymn 22 362: 'Lord, her watch Thy Church is keeping'.

Grimy St. Paul's. A blackish incrustation, in some places four inches thick, on the under side of the cornice of St. Paul's Cathedral, due to the action of sulphuric acid upon the stone, testifies to the effects of the smoke evil in

Sold Baby For a Coffin. Tan Teong, a Chinaman residing in Malay states, was recently fined \$100, with the alternative of three weeks' imprisonment, for selling his adopted baby girl for \$50 to buy a coffin in which to bury his wife.

The New Delhi. Britain has sent a special commit-tee of town planning experts to ex-amine the grounds and submit plans for the new city to be constructed at Delhi. The area expropriated for this purpose is 125 square miles.

Nature's Way Is The Best.

Buried deep in our American forest we find bloodroot, queen's root, mandrake and stone root, golden seal, Oregon grape root and cherrybark. Of these Dr. R. V. Pieroe made a pure glyceric extract which has been favorably has me for over forty years. He called it "Golden Medical Discovery."

This "Discovery" purifies the blood and tones up the stomach and the entire system in Nature' own way. It's just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pieroe's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue."

"More than a week ago I was suffering with an awful cold in my head, throat, breast, and body," writes Ma. James G. Kent, of 710 L. Street, S. E., Washington, D. C. "Some called it La Grippe, some pneumonia. I was advised by a friend to try a bottle of your Golden Medical Discovery." I tried a bottle and it did me so much good that I feel asie in saying it is the greatest and best medicine that I ever took. My health is much better than it was before using your medicine. It does all you claim for it and is
