ANARCHY AMONG OFFICIALS.

for Caprivi.

Berlin, Oct. 23.— The semi official dallies continued until Friday morning to deny the reports of dissensions between Chancellor Van Caprivi and Count Botho Zu Eulenburg, Prussian Minister President. All references to a quarrel between the premiers were pronounced as pure inventions. On Friday and Saturday, however, the inspired editors were dumb, although the old reports were being revived in various forms. The fact that is a ministerial crisis suddenly became imminent and the opposition editors, while making too much of that cabinet feud, are in most respects telling facts. Eulenburg precipitated the trouble. He told the Emperor that he should resign in case Caprivi's concessions to Russis in the tariff negotiations should be approved. Behind this ostensible reason for wishing to resign, however, is a deep intrigue in which sign, nowever, is a deep intrigue in which Dr. Bosse, Dr. Miquel and Herr Von Heiden, all cabinet ministers, have played the leading parts. Caprivi has not interferred in the Prussian election campaign. He has left Eulenburg a free hand in every detail. Nevertheless, the Agrarians openly accuse him of assisting candidates who favor a tariff reform policy. These charges have produced such a state of anarchy in the corps of the Prussian officials as has not been known before in the kingdom. This splitting of the bureaucracy must be remedied by the Emperor. Unless he interferes to harmonize the factions before the assembling of the Reichstag all business of that body will be paralyzed. Already the feud has passed the boundaries of Prussia and Prussian parties and is confusing political issues in other parts of the empire. Bismarck's organs retierate jubilantly: "We told you so." The men nearest the Emperor adhere to Caprivi, who retains the entire confidence of his sovereign. It is admitted generally that the fight is a hard one for the Chaucellor.

DERLIN, Oct. 23.—The Government organs that have hitherto professed to consider that the nev taxation projects had been definitely settled among the Federal States are now obliged to admit that there are serious differences between the officials of the South German States and the Imperial Ministers

that there are serious differences between the officials of the South German States and the Imperial Ministers.

As Wurtemburg leads the opposition to Finance Minister Miquel's taxation proposals there is a suspicion that Prince Bismarck had a hand in the matter. During the Prince's sojourn at Kissengen he was visited by Baron von Mittenacht, president of the Wurtemburg Council of Ministers. It is now said that Prince Bismarck on that occasion suggested to Baron von Mittenacht to follow a course in the taxation proposals adverse to the Imperial Government. Whatever the truth may be, it is certain that a serious deadlock exists. The situation is such that another conference of the Ministers was suddenly summoned to meet here yesterday, with a view to calming the public agitation against the proposed tobacco imposts, which are exciting more feeling than the proposed wine taxes.

Australian Assistance Offered.

CAPE Town, Oct. 23.—Gen. Tulloch, commanding the forces at Fort Victoria, Mashonaland, has declined an offer made to him by the Bendigo (Australia) militia to furnish 100 men to assist in the operations against the Matabeles. Gen. Tulloch in declining the offer thanked the militia for their profferred assistance, which, he said, proves that federation of the Imperial colonies already exists. He advised, however, that the men reserve themselves for the protection of Australia, or hold themselves in readiness to assist in preserving India, which will probably be necessary when the inevitable war between the powerse begins.

NEW York, Oct. 23.—Advices received from The Herald's correspondent in Rio Jaueiro indicate that President Peixoto proposes to conduct his campaign against the insurgents with more vigor than heretofore. RABID IRISHMEN.

An Organized Gang Tears Dewn the Union Jack—A Riot Results.

WORLD'S FAIR GROUNDS, Chicago, Oct. 23.—There was almost a riot in Lady Aberdeen's village of industries on Saturday night. A second attempt was made by about fifteen Irishmen to pull down the Union Jack which has been floating from the tower of Blarney Castle in honor of Lady Aberdeen's husband, the Governor-General of Canada. The Irishmen gained access to the top of the tower and tore down the English emblem because they did not consider it ought to be unfurled in an Irish village. They were detected in the act by some of the village employes and the guards drove the offenders out into the Midway. The gang returned stealthily in a short time and climbed over one side of the fence. The guards were on the alert, however, suspecting that another attempt would be made as soon as the flag was strung up again, and pounced upon the intruders. Then came the exeting part of the scene. The guards summoned the patrol wagon and tried to arrest the whole number in the face of threats from a crowd of several thousand sympathisers, who quickly gathered around the village. The wagon came on the double quick and the force of guards tried to cope with the anti-English visitors. They no sooner had got one or two of their prisoners into the wagon than the men who pressed around it pulled them out. Three of the ring-leaders were finally taken prisoners after a pitched battle of some minutes duration. The Earl of Aberdeen arrived at the village with his secretary just after the battle and was very indignant at the insult which FOR BUSY READERS.

His Excellency spoke eloquently of the exhibits and of the praise they deserved, and also of the extreme pleasure it afforded him to meet them as Governor-General of Canada. The Lieut. One Man's Protest.
Paris, Oct. 23.—An alarming, though Paris, Oct. 23.—An alarming, though as it subsequently proved, an unimportant incident occurred near midnight on Saturday at the Cercle Militaire. The Russians were entering the club house when a haggard looking man about 50 years old discharged a revolver over the heads of the crowd. Nobody was hurt, but the crowd concluded that an attempt had been made to assassinate one of the Russians, presumably Admiral Avelan. It would have gone hard with the man had not the gendarmes at once seized him. He said that his name was Willis and that he was hungry and needy. Disgusted with the lavish expenditure of money on foreigners when there were thousands of Frenchmen in want of bread, he had fired the revolver as a protest. Banker William L. Important Railway Question Argued Before the Supreme Court.

Ottawa, Oet. 23.—In the Supreme Court on Saturday the case of the City of Vancouver vs. the Canadian Pacific Railway was heard. In this case the Canadian Pacific claims the right to restrain the city from continuing Gore avenue up to the embankmenn of the railway on the foreshore of coal Harbor and having access to it over and across their railway. Mr. McCarthy, Q.C., and Mr. Hammersley, for the city, contended that Gore avenue being dedicated to the public with right of access to the water prior to the building of the railway, the city had a perfect right to continue this avenue, and also contended that the Canadian Pacific could not under their charter claim any higher title to the foreshore of this harbor than the Crown had, viz., the bed, subject to the just publicum, and that the city was seeking merely to exercise its rights consistent with the rights of the railway, namely, to leave the railway where it was, but subject to the easement of the public to have access to the water.

LYNCH LAW. The grand jury at Decatur, Ill., adjourn-d without indicting the lynchers of the negro Bush

way where it was, but subject to the easement of the public to have access to the water.

Mr. Robinson, Q. C., for the railway company, relied on sec. 14 of the Railway Act of 1888, which declares that no operated railway can be crossed by a proposed new street, except after the conditions upon which it shall be done have been settled on by the Railway Committee of the Privy Council, and that the city having for six years allowed the embankment to exist, they had no right now to take down the company's fence for the purpose of getting across in the way they had, and that they had sufficiently complied with the Railway Act to restrain the city from building on the foreshore in their possession. Mr McCarthy, Q.C., in reply said that the city were not asking to cross the railway as an indulgence, but as a right to exercise, and moreover that the jurisdiction of the Privy Council did not oust the jurisdiction of the courts, and does not apply to existing streets. Argument in the case was closed and judgment reserved. St. Louis police rescued George Jones, a negro, who had attempted to assault a white woman, from his would-be lynchers.
