FOREST RESERVES

Government Plans to Set Apart New Districts.

Ottawa, Oct. 7.- Following investigations which have been made by officers of the Forestry Department, it is proposed to set aside this year a number of new forest reserves. The largest is on the shores of Lesser Slave Lake, and comprises 4.788 square miles. About 350,000,000 feet of lumber is available there, and the reservation is recommended because of the unsuitability of the land for agricultural purposes and the necessity of conserving a timber supply

for the future.

North of Lake la Biche, Alberta, another reserve is suggested. In Saskatche-wan a reserve has been recommended at Fort's la Corne, while one in Manitoba is likely to be established. It is intended to extend considerably this year the pine forest reserve north of Prince Al-bert, and also those in British Columbia.

DELAY ULTIMATUM

Powers Take Action for Macedonian Reforms.

London, Oct. 7 .- While the Balkan outlook materially brightened in some directions yesterday, there are some features of the late news again tending toward pessimism, and consequently it is still impossible to say that the anxiety has lessened.

There is this to the good, namely, the allies under pressure from the powers have delayed the presentation of an ultimatum, or a quasi ultimatum to the Porte, and the text of the proposed note has apparently been modified or put in nilder terms. POWERS DEMAND REFORMS

Paris. Oct. 7.—The Petit Parisien, which never touches high politics except when well informed, says, editorially, that war in the Balkans can only be avoided if a formula of reorganization which is sufficiently liberal and favorable to the Macedonians can be found, for which pressure by the Triple Entente and the Triple Alliance on the Porte is necessary. Such a concert is subordinate to an accord of Austro-Hungary and Russia. The Petit Parisien says it is in the conversations between Premie Poincare and M. Sazonoff, the Russian Foreign Minister, the elements of an Austro-Russian rapprochement have been found, and on Thursday evening the representatives of France to the great powers were charged to take the first steps toward common action to bring about such reorganization.

TAFT EXPLAINS

Reason for His Plan to Settle Panama Dispute.

London, Oct. 7 .- On another message brough the Times correspondent on the Panama dispute, President Taft exdains that his proposal to bring the natter before the Supreme Court was preferable because an adverse decision would be less galing to Americane than an arbitral award, and Great Britain would still not lose her legal right to

demand arbitration.

In an editorial the Times considers here Taft's explanation very satisfactory, as removing apprehension that as appeal to the Supreme Court was being offered as a substitute for the right of appeal to The Hague, but that it ettli leaves the whole matter in a confused condition.
