Our Idea of Trade Building

trade where they can do best, and that to get their trade it is necessary to do best by them. This is the principle that we have tried to apply, and it has proven effective.

We are sure that our business will keep on growing. It will grow because all those features that have brought trade are still in operation. We wan't your trade, and we ask for it solely on the basis of our intention and ability to do you good. We ask you to come here whenever you need anything that a druggist ought to sell, and feel sure that if you once you will continue to come.
