Radical and Wonderful Change in Montreal Opinion.

Montreal, Oct. 22.-For reason Montreal, Oct. 22.—For reasons which cannot be explained altogether, the public mind, or at least that Jart of it represented by the commercial, industrial and professional classes of this city, believes in the defeat of the Laurier Government. One can see the signs of a radical and wonderful change in the street. It is, in a word, in the air, and the number of French-Canadians who believe that Laurier is doomed is increasing every day.

creasing every day.

The three men who accepted Thursday evening to do battle for the Conservative party in Maissoneuve, St. Mary's and St. James, have done a areat deal to bring about the change.

In the evening he addressed a large gathering in the Victoria Auditorium and was escorted from the denet by and was escorted from the depot by a band and a torchlight procession, which had been arranged in order to arouse local enthusiasm and help to swell the crowd, fully one-half of whom were Conservatives and a very large number ladies. The feature of his speech was the declaration that the C.P.R. was tainted, part of it being on foreign territory, and there-fore liable to be shut off by any whim of our neighbors to the south. This was nossible attracts whim of our neighbors to the south. This was possible, although, perhaps, not probable. The one surety of pleasant relations with our neighbors was to be absolutely independent of the control of the co bors was to be absolutely independent of them. Although a large concourse of people was present there was a marked absence of enthusiasm. As an entertainment, the meeting was a success, but for election purposes it seemed to be a successive to be absolutely independent to be a successive to be a s poses it seemed to fall flat Why Mr. Blair Quit.

Ottawa, Oct. 22.—(Globe Special.)

It is now becoming apparent that —It is now becoming apparent that the heavy burden of work devolving upon Mr. Blair in connection with the Railway Commission was as larga a factor in influencing him to resign as was the offer of more remunerative occupation.
