Secretary Morrison, of the Cobalt Lake Mining Company, yesterday received a Mining Company, yesterday received a Mining Company, yesterday received a meport from the superintendent of the mine, saying that the nicolite vein, which had been struck in drifting, has been in part taken down. It is from 26 to 28 inches wide, and of solid metal, and it appears to be mostly smaltite, with a small percentage of nicolite. The company has drifted along the vein for some distance, and enough ore is in sight to make up two carloads of ore if necessary, in a few days.

New York, Oct. 12.—The market during the morning developed irregularity, with good buyling of Union Pacific, Reading and U. S. steel. The passing of the Parrot Mining Co. dividend, this being a subsidiary of Amal. Traders were disappointed over non-confirmation of promised \$15,000,000 Paris gold engagement, \$8,000,000 afternoon. Bears in British home rails were severely punished today. Various stocks, such as N. Y. C., and Pennsylvania, are loaning far below the money rate. A prominent steel official expects that U. We favor purchase of such well protected stocks as steels, rubber and the railroad stocks, earning good dividends.—Ennis & Stoppani.
