The Climax of the Campaign of Insult Against Americans and American Settlers.

Toronto, Sept. 15 .- The climax of the campaign of insult, which is being waged against Americans and American settlers, by opponents of reciprocity, is reached in this week's Oakville, Ontario, Record. This anti-reciprocity paper declares that freer trade relations with the United States will mean freer inter-course with her people, an accouptance of their manners and

stoms. It continues as follows: "Who of us would wish to accept the standards of ninety per cent, of the women of the United States. Are they not reputed to be a gum-chewing, fashionably-hattd, tight-skirted, hobbledan' led, peekaboo, decollette crow i, whose standard of virtue is at least questionable. We are asked to change our allegiance and friendship from our much loved and virtus loving England to this mongrel conglomoration."

"The article closes with an appeal to vote for David Henderson, the Conservative candidate.
