BRITISH SUCCESS.

PARIS, April 26 (Official).—Eastern Theatre, April 25th.—On the night of April 24-25 British troops attacked west of Lake Doiran and carried enemy trenches on a front of 1,000 metres north of the Kraut-Dolzeff line, which they maintained and consolidated after having repulsed four counter attacks and inflicted sanguinary losses on the enemy. Enemy reconnaissance were repulsed and there was active artillery fighting on the Cerna-Monastir front. An enemy airplane fell in flames in the region of Doiran.

"BRAVE AND GALLANT ENEMY."

LONDON, April 26. The British steamer Kildale, bound for Malta, was torpedoed in the Mediterranean on April 12th. While the crew was in the boats the submarine came to the surface and fired on the boats with mounted gun and rifles. One member of the crew was killed and eight others wounded.

GENERAL MAURICE'S OPINION.

LONDON, April 26. In the German official statement a couple of days ago, said General Maurice, Germany announced that a great defeat had been administered to the British. It further claimed that we had attacked on a 15-mile front and failed completely. If the Germans defeated us we naturally shall not be able to maintain our positions in that section, but I ask you to wait a little and see whether the British refute this claim by their action. As to the fifteen-mile front, we made an attack on just half that distance and we have been successful. We are continually facing heavy German counter attacks, and it would be useless loss of British life to push without artillery protection. It is worthy of note recently there has been much open fighting, and in this the British have shown themselves superior to the Germans, who are supposed to excel in this department. We are getting results of the efforts of our munition workers at home, for great quantities of guns and munitions are being poured into France. A fact which means much in our artillery work is that we have finally established the superiority. The troops which we are facing are among the

best in the German army, for they have rushed up all their reserve forces in an attempt to hold us back. There is no question that their losses are far greater than ours. General Maurice, asked if there was any imminent probability of a German attack on the Italian and Russian fronts, replied that it is always possible, and I presume the question as to whether such an attack will be made will be settled on the Arras battle field. If we win, as we are sure we will, then they will not be able to carry out the big assault on other fronts.

VERY WET SEASON.

LONDON, April 26. The present rainy season is the wettest experienced in German East Africa the past nine years. All active operations on a large scale, therefore, are suspended, says the official statement to-day. In Kilwa area, especially in the Matanda Valley, there has been considerable patrol activity. Recently a small patrol of our West African troops successfully ambushed two companies of the enemy, killing or wounding fifty men with little loss to themselves.

OPERATIONS IN MACEDONIA.

LONDON, April 26. The British official statement, from Salonika dealing with the operations in Macedonia, says, "We are satisfactorily consolidating the positions we have gained. A steady bombardment of the enemy positions continues. Our aircraft raided an enemy depot at Carmista, causing considerable damage."

THE SUBMARINE MENACE.

LONDON, April 26. A grave warning that the submarine menace may be an important factor in deciding the customs of war, was sounded to-day by Sir Albert Stanley, President of the British Board of Trade. Addressing a luncheon of business men, Sir Albert said we have not found a way of dealing with the submarine so as to remove the danger of its being an enormously important factor in determining the outcome of the war. The effect of the submarine war upon the existence of the British Empire is simply this, that we cannot continue to bring into this country all the supplies and materials required for our existence, for the continuance of war and for the actual needs of our industries.

BERESFORD'S CRITICISM.

LONDON, April 26. In the Lords to-day Admiral Baron Beresford criticized the Admiralty's weekly returns of shipping losses as "seriously misleading since they omit

losses of neutrals through which this country now really is being fed, while the totals of arrivals and sailings include both neutral and allied ships." "The building of standardized merchant ships was one of the most important means of counteracting the submarine warfare," Admiral Beresford declared. Replying to Beresford on behalf of the Government, Lord Lytton said the construction of standardized motor ships was proceeding as fast as material available allowed. Difficulties naturally arose in discharging freight when vessels detained for war reasons arrived in rushes. "Admittedly," continued Lytton, "neutral ships could not always be induced to voyage as before the war, but the increase in freight rates and insurance facilities already had its effect. More neutral ships were running than before Feb. 1st," he declared.

TURKISH REPORT.

CONSTANTINOPLE, April 26. The War Office made the following announcement to-day: On the Sinai front our airmen landed behind the enemy's lines in the midst of the desert and destroyed the water supply system which the British constructed for their troops. The destruction of the water works built by the British to facilitate their advance across the desert into Palestine probably would not interfere seriously with the operations of the main British force. The British have now advanced to the neighborhood of Gaza on the Gref plains of Palestine, well out of the desert, and have established a base on the coast.

CANADIANS RUSHED TO FILL GAPS.

OTTAWA, April 26. For the first time since the war the large military camps in Canada will be practically unoccupied by Overseas troops this summer. It is understood that Valcartier camp which housed the first contingent, will not be occupied at all, as all the troops from Quebec and Montreal districts will have left for Overseas. The large casualty lists coming in daily have resulted in the troops of the fifth division being sent over to France, and all troops in Canada will be rushed over to fill up gaps, so that the fifth division may proceed to the front as a complete unit.

BRITISH OFFICIAL.

LONDON, April 26. A British official issued this evening says: A party of the enemy which attempted to raid one of our crater-positions southeast of Ypres early this morning, was driven off, with losses. There was considerable activity during the day by both sides

at a number of points between St. Quentin and Arras, and also in the neighborhood of Ypres. Successful work was carried out by our airplanes in spite of less favorable weather. In air fighting two German machines were brought down, one of them falling in our lines, and a third was driven down out of control. Three of ours are missing.

GERMAN OFFICIAL.

BERLIN, April 26. A German official issued this evening, says there is nothing important to report from any front.

GERMANS WARNED BY MEXICO.

WASHINGTON, April 26. Official advice to the State Department to-day said the Mexican Government had warned Germans in Mexico that any concentration of Germans near the American border will be followed immediately by their arrest.

DESTRUCTION OF HOSPITAL SHIPS.

WASHINGTON, April 26. Measures to cope with continued destruction of hospital ships by German submarines will be among the first questions taken up by the British and French Commissions. The only means open to France and the British is to decrease the number of hospital ships and thus minimize the risk. To do this it is necessary to establish greater facilities for caring for greater numbers of allied wounded in France instead of transporting them across the Channel.

WILL SPECIFY GERMANY'S PEACE TERMS.

AMSTERDAM, April 26. The Tijds German correspondent says that Dr. Von Bethmann Hollweg in his next speech to the Reichstag, will specify Germany's peace terms in greater detail.

BRITISH STEAMER SUNK.

NEW YORK, April 26. The British freight steamer City of Paris, 9,239 tons, has been sunk by a German submarine. The City of Paris was loaded with cargo and was on her way to New York via England from an East Indian port. She was owned by the Ellerman Line and built in Glasgow, 1907.

DESTRUCTION OF ZEPPELIN REPORTED.

LONDON, April 26. The destruction of a Zeppelin of the latest type is reported in an Amsterdam despatch to the Exchange Telegraph Co. It is said that German deserters who have reached Maastricht, Netherlands, told of the loss of the airship which was de-

stroyed in a storm when on a trial Wilhelmshaven last Monday. The Zeppelin was overturned by a gale and exploded, causing the death of the entire crew and two officials of the Zeppelin plant.

AMERICAN PRISONER.

LONDON, April 26. The taking of the first American prisoner of war was reported to the American Embassy to-day through the U. S. Consul at Glasgow. It is usually the practice of the Germans to take prisoners the captains of merchantmen sunk by submarines. In view of this fact the above despatch

may mean that an American vessel has been sunk.

AUSTRIAN OFFICIAL.

VIENNA, April 26. The official statement issued to-day says: Russian artillery provoked a reprisal fire from our artillery at several places. Otherwise there is nothing important to report.

UNKNOWN AVIATOR DOES DAMAGE.

BERNE, April 26. Late Tuesday night an unknown aviator flew over the Swiss town of Porrentruy, throwing explosives and bombs, seriously damaging buildings, and injuring a number of people. A watch factory in which night work was proceeding, was struck, the roof being blown off. Telephone and telegraph wires were destroyed. Three persons were injured, including children. The military authorities are seeking to identify the nationality of the aviator.

BLACK LIST WITHDRAWN.

LONDON, April 26. The British black list of shipping has been withdrawn, so far as it concerns the United States.

DEMONSTRATIONS IN SWEDEN.

COPENHAGEN, via London, April 26. At Malmo, Sweden, yesterday, 30,000 people took part in a demonstration before the town hall, at which demands were made for a commercial agreement with England, larger bread rations, and the discontinuance of food exports. The institution of an eight hour day was also demanded. All tramways ceased running in the afternoon while the demonstration was in progress. Similar demonstrations on a smaller scale occurred at Gothenburg and Helsingborg.

A PRISONER OF WAR.

AMSTERDAM, April 26. According to the Berlin Lokal Anzeiger, Lieut. Law, second son of Bonar Law, was captured by the Turks during the recent fighting near Palestine. A despatch from London on Wednesday, said that Lieut. Law, reported wounded in Palestine, was missing.

NEWSPAPERS CENSORED.

COPENHAGEN, April 26. The protests of a Socialist representative in the Reichstag Committee yesterday, called attention for the first time to the fact that German newspapers must now submit to preliminary censorship before being permitted to leave the country. For some time radical socialist newspapers have been markedly behind other publications in time of their delivery

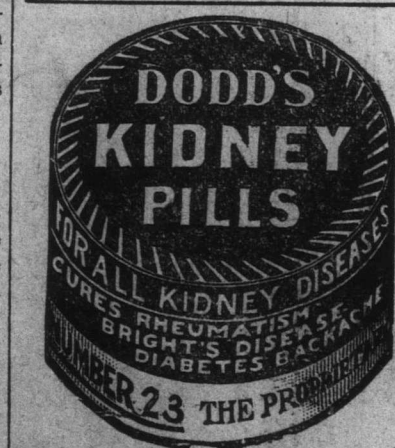

here. Authorities have evidently resorted to this means to block the channel through which disagreeable news and discussions have reached foreign ears. At the same meeting of the Reichstag Committee which was devoted to military questions it was indicated that all was not satisfactory in the manufacture of explosives. Deputy Gotheim demanded information as to the status of production of explosives and criticized as inadequate the confidential report of the Minister of War on the military situation in the west.

ENEMY REPULSED.

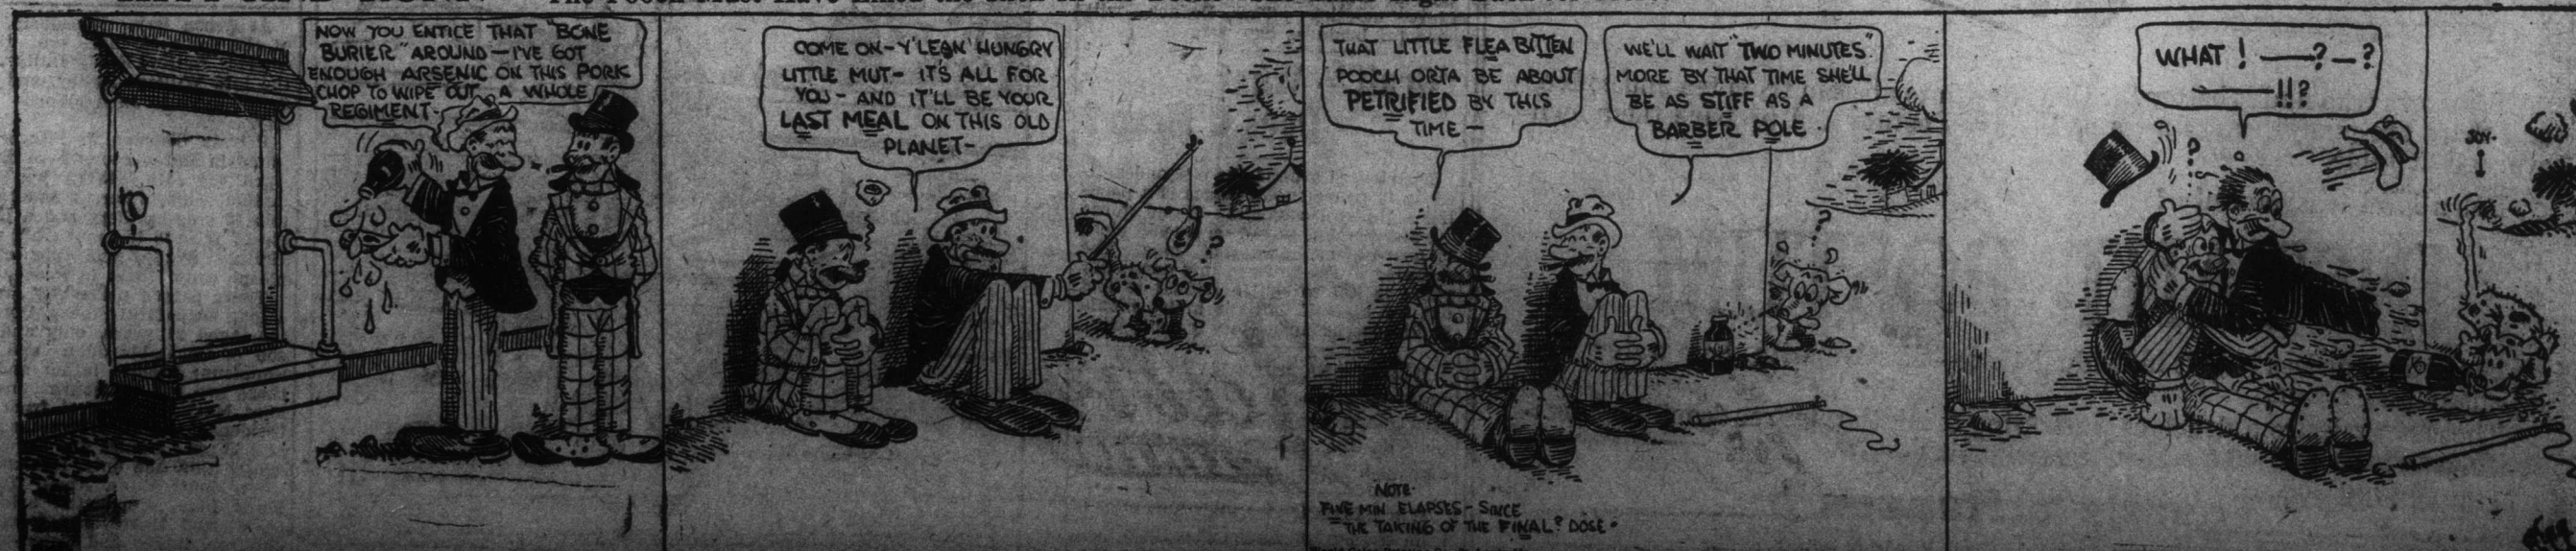

LONDON, April 26. This morning's official statement says: Early last night the enemy again endeavored to attack our new positions in the neighborhood of Gavrelle. His advancing troops were caught by our artillery barrage and completely repulsed. Elsewhere there was nothing of special importance.

COMMISSIONERS BUSY.

WASHINGTON, April 26. The British War mission held preliminary meetings to-day with Government officials in preparation for joint conferences among American, British and French representatives, which begin to-morrow. The heads of the French War Mission to the United States who arrived yesterday, arranged to call formally on President Wilson to-day to pay their respects. This was the principal event in a programme calling for strenuous activity to-day on the part of the distinguished visitors preliminary to the beginning of the formation of the French force; the day's programme including a call of courtesy on Secretary of State Lansing, Secretary of War Baker and upon Secretary of the Navy Daniels. An auto trip to principal points of interest was scheduled for this afternoon. The day's activities were to be brought to a close with dinner at the White House by President Wilson to the Frenchmen.
