

## In the Realms of Sport

### TO-NIGHTS GAME

The St. John's and R.I.S. runners-up for the championship, will try to conquer at St. George's field this evening at 7:30. The game is scheduled to commence sharp on time. Both teams will enter the field with their regular line-ups and a spirited contest for the honors is anticipated.

### OLYMPIC SWIMMING.

PARIS, July 15.—Andrew Charlton, the Australian swimming star, won the final of the 1,500 metre swim, free style, in the Olympic competition to-day in 20m. 7 seconds, breaking the world's record.

Miss Martha Norellus, New York, won the final of the 400 metre Olympic swim for women free style. The time was 6 minutes 2 1-5 seconds.

### ROCKY KANSAS OUT.

NEW YORK, July 14.—Luis Vincentini, of Chile, knocked out Rocky Kansas in the eleventh round of a 15-round match at the Queensboro Athletic Club to-night. The end came in a sensational finish, in which the Chilean rallied to the highest peak of his pugilistic career and stopped one of the most rugged lightweights in the ring.

The knockout blows, a series of rights and lefts, which staggered the Buffalo boy, and forced him to writ to the resined floor, came at an unexpected time, as Vincentini had, in the round previous, measured his length on the canvas when one of Kansas' wild rights caught Vincentini flush on the jaw. The end came after two minutes and sixteen seconds of fighting in the eleventh round.

### KELLY AND COSTELLO WIN.

Trish Heat in Olympic Doubles, and Yale Defeat Canada and Holland in Eight.—Vancouver Four Win Their Trial.—Belyea Unplaced.

OLYMPIC STADIUM, July 15.

(Canadian Press)—The Vancouver Boat Club, Canada's representatives in the four-oared rowing event in the Olympic games, won their heat yesterday, leading their opponents, Switzerland, the European champions, by two lengths in the fastest time made to-day in this event. The time for the 2,000 metres was 6 min. 31 sec.

Placed at a disadvantage at the outset, the Swiss four beating the starting gun, the Canadians set out at a hot pace, rowing 44 strokes to the minute. Overhauling their opponents, the Canadians passed the half way mark two lengths in front and retained this lead to the end. The early speed set by the Vancouver four was too much for the Swiss crew and the last half was rowed in slower time, the stroke at the finish being 34 to the minute. In the final on Thursday Canada will meet Great Britain, which defeated France yesterday.

Elliott Belyea finished third in his heat and was eliminated in the heat which Schneider, of Switzerland, won in 7:15 3-5. Worbel, of France, was second. Belyea, who has been suffering from neuritis, apparently was far below his customary form.

Garrett Gilmore, the U.S. National champion, defeated Jack Beresford, of Great Britain, who captured the Diamond Sculls this year. The Philadelphia oarsman, trailed his British rival by a quarter to a half length over the first half of the course, but overhauled Beresford soon afterward, quickly had open water between the two shells and won by two lengths.

Gilmore's victory to-day automatically placed him in the final which will be held in all of the rowing events on Thursday, while Beresford, in order to get another crack at Gilmore, must compete in the eliminations for second place to-day, when the winner will qualify for the final. Gilmore's time was 7 minutes 3 1-5 sec.

Bull, of Australia, won his heat in 7:19, with Pietersen, Holland, second. Kelly and Costello, Philadelphia, raced to a easy victory in the Olympic trials in the double event this afternoon, defeating the French pair by five lengths and Hungary's by nine lengths and will row in the final on Thursday.

The Yale crew won the second heat in the eight-oared race to-day defeating Canada and Holland.

### Hotels Organize Dry Force.

Los Angeles, July 18. (A.P.)—Hotels and restaurants of Los Angeles have organized their own prohibition law enforcement bureau. Charles F. Galling, former agent in charge of federal prohibition enforcement, for Southern California, has been retained by a group of the leading hotels and cafes of the city and nearby points to direct the work. The plan, endorsed by State Prohibition Director S. F. Butler, is to prevent employees of hotels and cafes from bootlegging.

## Reduced Fares for Immigrants' Families

MONTREAL, Que., July 10.—(Canadian Press)—A scheme whereby wives and children of British immigrants resident in Canadian cities will be brought to the Dominion at reduced cost has been evolved by the British Dominions Emigration Society. It was announced by Robert Culver, secretary of the society. The scheme does not include dependents of immigrants who have settled on the land, as these are covered by the Empire Settlement Act. Only married men resident in cities will be eligible to make application to the Society for their wives and children to be brought out.

On such application being received, an agent of the Society will satisfy himself as to the ability of the husband to support his family if brought to Canada and as to the likelihood of both husband and wife becoming good Canadian citizens. The Society will pay the cost of transporting the family to Canada and will care for them from the moment of starting until their arrival at their destination, if satisfied on these points. It is not a free passage scheme, however, as the society will collect at least a portion of the passage money from the husband, on terms suitable to the latter.

The first party of wives and children to be brought out under this scheme will sail from Liverpool on August 22. They will number about 150.

### Financing Methodist Enterprises

TORONTO, July 10.—(Canadian Press)—Canadian Methodists have been asked to finance their denominational enterprises in the coming year, including widespread missionary and reform activities, with an amount totalling slightly under five dollars per member.

In a statement just issued from the office of the General Superintendent, Rev. S. D. Chown, D.D., L.L.D., numerous plans for co-ordinating activities and conserving funds are announced. The total asked for all non-local purposes is \$1,943,250.

Dr. Chown assures the Church that the General Board of Missions and the Woman's Missionary Society have reached "happy mutual understanding," that the prohibition campaigners are being vigorously prosecuted and that economy is the watchword of all departments. He strongly urges tithing as a means to spiritual grace and financial soundness, in Methodism.

### Band Concert, M. G. Band, Bannerman Park, to-night, at 8 o'clock.—July 21.

### 1,000 Pounds Compensation That Was Not Due.

In an action in the City of London Court by a dock laborer, it was stated that he had been paid 15s. a week compensation since 1904 by Messrs. William Cory and Son.

Recently he demanded an increase of 10s. a week, and when the matter was gone into it was found that he was passed as fit for work six weeks after the accident, which occurred on January 1, 1904. Therefore he was not entitled to the compensation paid, which amounted to nearly £1,000.

After Judge Shewell Cooper had made an order stopping further payments it was stated that but for the demand the firm would probably have gone on paying the compensation for another 20 years, as the payment had become an automatic one.

Purity, mildness and gentleness are three of the pleasing features about Ivory Soap.—adv. 11

### Russian Settlers in Canada

Winnipeg, Man., July 10.—Returning from settling a group of Russian White Army refugees on land west of Wetschikwin, M. E. Thornton, superintendent of colonization for the Canadian Pacific railway, said he held high hopes for the success of the venture. The group numbered 115 and were the first so far brought over from Russia. Mr. Thornton said they were of a good type physically and mentally. Some had been wealthy farmers and business men under the Czarist regime, but had lost their possessions with the advent of the present government and had been compelled to seek safety in southern Manchuria.

Mr. Thornton instanced as a mark of their loyalty the fact that they hoisted a Union Jack over the tent he had provided for their reception, while a Russian Orthodox priest, who is one of the party, offered a prayer for the safety of King George.

### "Midnight"

BIG FEATURE AT THE MAJESTIC TO-DAY.

Admission Reduced to Summer Prices

To-day "Midnight," a Realfart special, will be shown at the Majestic Theatre.

Cast.  
Edna Morris.....Constance Binney  
William Morris.....Wm. Courtleigh  
Dodd.....Sidney Bracey  
George Potter.....Arthur S. Hull  
Bishop Astor.....Herbert Fortier  
Grace Astor.....Helene Lynch  
Senator Dart.....Edward Martindale  
Jack Dart.....Jack Mulhall

### SYNOPSIS.

Edna Morris, daughter of the American Ambassador to a South American Republic, is involved into a hasty marriage with a worthless attaché of the embassy. The same day he is threatened with arrest for embezzlement, and to escape, leaps into the bay. He is believed drowned. The scandal is hushed up and Edna's father then resigns his post, travels around the world for a few years to help his daughter forget, then returns to his family estate in the United States. Edna soon falls in love with Jack Dart, a neighbor, and their engagement is announced. Soon Potter turns up, demanding money for silence. Morris is frantic while Edna is still ignorant of Potter's return. She is mystified by her father's swift change of attitude for he now forbids her to marry Jack. Edna rebels and elopes with Jack. Upon her return from the midnight wedding she finds Potter's body in her father's library. Her horror at learning that he has not been dead all this time is succeeded by the fear that her marriage to Jack occurred before Potter died, thus making her a bigamist. An interesting denouement proves that Potter died ten minutes before Edna's midnight marriage.

Summer prices now prevail at the Majestic. Beginning to-day the admission to all parts of the theatre is 20 cents.

### Band Concert, M. G. Band, Bannerman Park, to-night, at 8 o'clock.—July 21.

### Sugar Beet Industry in Canada

Winnipeg, Man., July 10.—Construction work on Manitoba's first beet sugar factory will be commenced in the fall, according to recent announcement made by officials interested in the project. Assurance of between 400 to 500 acres from one shipping point alone already has been received by the promoters who express confidence that the whole of the desired acreage will be fully contracted in a month's time.

The objective of the men who are actively engaged in this undertaking is from 6,000 to 8,000 acres sown to sugar beets in the Red River Valley next spring.

The proposed plant will have a capacity of producing more than 18,000 tons of beet sugar. In addition agriculturalist will tour the districts, where farmers are producing sugar beets, giving advice as to obtaining best results.

A conservative estimate of yield to be expected per acre from sugar beets sown in the Red River valley, is placed by an expert at from 10 to 15 tons. The company, which is being formed to handle this product, intends guaranteeing to the farmer a minimum price for each ton grown and a share in the profits as a bonus.

H. C. Miller, of Denver, Col., one of the leading consulting engineers of the United States, has made a careful survey of the Red River valley lands, which he declares to be ideal for the production of heavy crops of sugar beets. Mr. Miller says the conditions regarding weather and water of the district also are wonderful for producing beets and forecasts that this plant is only one of the many which will be raised to advantage in Manitoba and parts of the other prairie provinces.

### Medical Gold Mines.

A Doctor on the "Plums" of the Profession.

Medical incomes range between the princely earnings of such great specialists as the late Sir Frederick Treves and the two hundred a year of many hard-worked assistants.

The first are possible only to the few whose exceptional skill, added to twenty or thirty years of largely unremunerated toil, has raised them to eminence. But of the incomes of general practitioners the British Medical Association itself confesses its inability to arrive at an accurate estimate. Only the Income Tax Commissioners know.

It would astonish many to know how heavy are the inroads made on a doctor's gross takings by overhead expenses. From thirty-three to forty-five per cent is the association's estimate, and it is not an exaggerated one.

Drugs and dressings, the upkeep of a motor-car, the wages of a dispenser, are all necessities that must be paid for. Bad debts are only too numerous, for doctors as a class are loath to sue for their fees. Perhaps the most satisfactory type of practice, financially, is one in the South Wales colliery districts, where the uninsured dependents of the miners are looked after at contract rates. This amount, usually threepence in the pound, is deducted weekly from the men's wages and handed over to the doctor. By this method prompt and certain payment is assured.

I knew a doctor who was connected with such a colliery employing only 600 men, and his gross income was over £2,000 per annum. Multiple practices, where several assistants are employed, may, of course, earn much larger sums than that, but there is the additional drain of salaries and extra cars to be taken into account.

### From Milk Waggon To Race Track.

Regina, Sask.—A year ago plugging to supply locomotion to a Regina Beach milk waggon: to-day one of Saskatchewan's unbeaten race horses.

That, in brief, is the astounding record of Tony Silvester, the seven-year-old speeder from the Vassar and Taylor stables here, who has already hung up a brilliant record on western tracks.

Last summer, the homely Tony spent dragging the morning milk to families that had moved to the beach to escape the oppressive heat. Though he came of a racing sire, Silvester J., neither his appearance nor his gait had given any indication that he might be a money winner on the track.

This spring, however, he was given his chance and trained for six weeks. The first hopeful sign was when he waxed temperamental: a sure indication of a star, either on the track, stage or baseball diamond. His debut did not start very auspiciously, for he trailed badly behind in the first two heats of the event in which he was entered. His racing blood, however, began to tell and Tony romped home in the lead for the three final heats. He duplicated his success in his next performance and since then has continued his winning ways.

It is said that Tony is taking on all the airs of a real champion, and actually tilts his equine nose whenever a milk waggon presumes to cross his path.
