

To-day as in years past, on balloon tyres as on all other types, the name Goodyear stands for supreme quality and dependability.

# CHOOSE GOODYEARS!

## A Few Reasons Why

*Here are just a few of the many facts and reasons why Goodyear Tyres are better*

1. SUPERTWIST---the new cord material of great elasticity and strength is an exclusive Goodyear development and is used only by Goodyear.
2. SUPERTWIST is now built into all Goodyear Cord Tyres---both high pressures and balloons.
3. Only Goodyears have the famous ALL-WEATHER Tread design that has remained basically unchanged and proved its efficiency over a period of twenty years.
4. Because of these facts more people the world over ride on Goodyear Tyres than on any other mark.

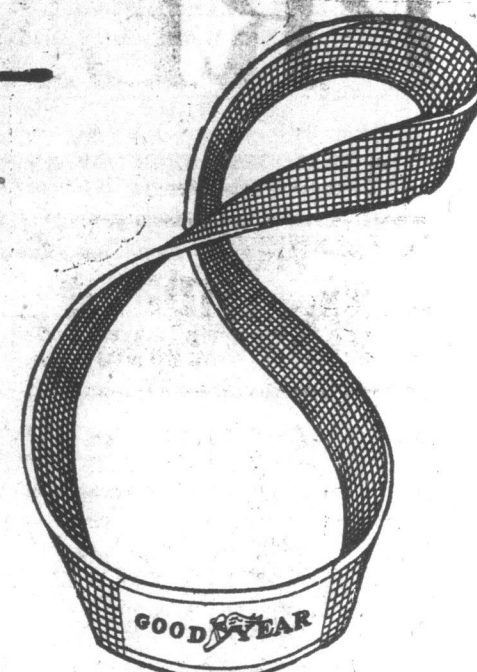

Lorry Tyres, Motorcycle Tyres, Accessories, Wingfoot Heels, Mechanical Goods. In each—Goodyear Means Good Wear.
