BASEBALL.

LONDON BEATS GUELPH. Say, Mr. Clark, take off your hat and stay awhile! You're the third of the Michigan pitchers that have blazed like meteors across the troubled sky of local baseballdom and helped to dissipate the gloom for a time. The other two have vanished, but it is to be hoped you'll stay, and try to brighten the darkness until the end. It isn't very far off. Only four more games and the agony will be over. The Alerts have one foot in the grave, so far as their pennant chances are concerned. Perhaps you can yet pull it out, or prevent them being buried too deeply. At any rate, they ought to have a respectable funeral. So, please don't go away until it's all over. This is a real nice place to live in, and if you stay until the season

couldn't have made it more auspiciously than by thrashing the Maple Leafs—and he did. If you don't befleve it, ask Roberts. Roberts is the 'sassiest" player in the league-when he's winning; but no man loses heart quicker than he when things do not come his way. He was away down in the mouth Saturday. He could not endure the guying of the grand stand, and finally chased himself into the outfield to get away from it, Dark going behind the bat. Clark's only difficulty was in locating the plate. That may have been due to nervousness or want of practice. But when he did get the balls over, the Leafs could not connect with them very Clark was very effective tight boxes. He began by giving two Leafs bases on balls in succession, but no runs were scored. the eighth there were three men on bases at one time, but no one tallied. In the ninth the first two men at bat reached first, but only one got across the plate. The new pitcher has great speed and good curves. Better control will come with practice. He is a likely looking fellow, and looks

something like Fisher.
Gallagher, Guelph's importation,
who wears long hair and a wide grin,
pitched a capital game, as he usually does. A little wildness in the third and fourth was his only fault, but the Alerts, aided by errors, took the fullest advantage of it.

The fielding on both sides was magnificent, as the score shows. Sippi played one of the games of his life, accepting every one of his eleven chances, and covering heaps of ground. Strowger's work at short was brilliant, his one error being excusa-ble. He always shows his best form on the home diamond. Not a base was stolen on Snyder. Every Leaf darkness. who attempted it was wilted, and finally they gave up trying.

For five innings the Leafs were whitewashed, making only two hits off Clark. In the sixth Lauer got four balls, Cockman a single, and Dark a sacrifice, which brought Lauer home. McElroy and Hanley could do nothing. In the seventh Gallagher's single, a base on balls by Congalton, and Lauer's double scored the Leafs' only earned run. In the eighth things looked bad. Dark got a charity, McElroy struck out, and Hanley's hit forced Dark out at second. Then Sullivan singled, and Gallagher filled the bases by knocking a wee one between the pitcher and catcher, who both ran for it and fum-Congalton failed to rise to the occasion, hitting an easy one to

The Alerts had a stroke of luck in the third. With one man out, Strow-ger hit a hot one to Gallagher, and reached first, taking second on laney's sacrifice. Sippl hit to McEl-roy, who threw to first. The ball went through Lauer, and Strowger scored. So did Sippi a moment later on a wild pitch. Gallagher had the Alerts at his mercy until the eighth, when they stupidly lost a run. Strowger struck out, and Delaney made a single, reaching third on a passed The catcher was away from the plate, and Delaney thought he could reach it first. He made for home, but Gallagher got there before him. Just then Sippi made a three-bagger, but Snyder failed to score The score:

ALERTS.

SPECIAL NOTICE:

TISITORS to the above who are musically inclined should carefully inspect the Mason & Risch Piano exhibit. Our stand is the first one on the left as you enter the Musical Pavilion. Our exhibit is not a large one, as we believe that the beautiful tones of instruments can be more fully appreciated in the quiet of our warerooms than amidst the bustle and confusion of an exhibition. We shall therefore make our principal exhibit at our ware-

rooms, 32 King street west, to which all visitors are cordially invited. One of the most valuable paintings at the Art Gallery in the exhibition building will be the famous portrait of the great pianist, Frank Lizst, which was painted at his command by Baron Joukovsky, the great Russian artist, and presented to Messrs. Mason & Risch as a tribute to the wonderful tone qualities of their pianos. Every lover of art should make it a point to see this painting. It is valued by experts

Profits of— Legitimate Mining

What Can Be Done With a Small Capital.

While every investor is more or | 000 out of this property, and now less aware of the profits to be made have \$5,000,000 in sight, thus insuring in mining, very few appreciate the \$200 for every \$1 invested. Judge Silenormous successes that are so made. I ent is an estimable gentleman of high TEN THOUSAND DOLLARS IN- character and universilly respected, VESTED IN OBTAINING GOLD but when United Verdi is mentioned FROM A SERVE DIRECT CAN TAN to him his remarks are more foreible statement' you will say; but a true one, nevertheless. Let us look at a few examples:

Three years ago Mr. A. E. Emory of Salt Lake City, purchased onefourth interest in the Silver King Mine for \$4,000. That mine had \$50,-000 worth of ore reserves in sight at the time of purchase, but required about \$15,000 worth of machinery to work the property at a profit. With this expense the mine was accordingly developed and brought to such a high state of perfection that Mr. Emory was able to realize \$300,000 for part of his holding, leaving a balance from which he derives an income of \$12,000 a month. ALL THIS FROM AN ORIGINAL INVESTMENT OF

During the panic of 1893 Mr. Delamar, of New York City, was able to purchase a mine with a million dollars worth of ore reserves in sight for \$250,000 in cash. Mr. David Moffet, the richest man in Colorado, had an option on this property, but was unable to make it good, because of requiring his money to protect his bank. Mr. Delamar took a million llars from this mine and then sold to an English syndicate for \$2,165,-They capitalized it at \$5,000,000,

hd it has since paid 2 per cent a nth on the capitalization. With part of the proceeds from s sale, Mr. Delamar purchased at is now known as the Great Delar Mine, in Idaho, which for the two years has paid \$170,000 per Last week a solid mass of weighing 1,500 pounds and worth \$275,000 was taken out. This be exhibited in New York City, nothing like it has ever been

years ago Mr. Delamar was not larly supposed to be worth h to buy a rowboat; he is now ng a million dollar yacht.

re Silent, of Los Angeles, was d and coaxed for \$10,000 to buy me, but could not raise the and was obliged to dispose property, selling it for \$50,000. ch only \$5,000 was cash, the was to be taken out of the

rchasers have taken \$5,000 .-

These are a few of the numerous successes that have been derived from purchasing properties that showed a profit on the original investment, and legitimate mining is the ONLY way in which great fortunes have been realized.

You cannot make a fortune buying stock in a company which has capitalized a claim for a hundred times more than it is worth, for, even if the property proves valuable, the difference between what it is worth and what you really paid for it has to be made up before your profit comes in.

The Colorado Cold Mining and Development Company has taken up mining as a business, and only purchases such properties as show a profit on the original investment.

Every stockholder in this company stands on an equal basis, no stock being set aside for any officer, except as it is paid for the same as by any other shareholder, and all are equal partners as their interests may appear.

We may say in passing that we are the only company that offers its stockholders equal chances with its officers and directors. When you become a shareholder in this company you are as much of a miner in proportion to your investment as though the title was vested in you direct. Your proportion of the profits will be in just such ratio as the amount you have invested, and under our plan of buying only such properties as have proven to be of value, and by going in on the same basis, a thousand dollars invested can return you a million.

This opportunity is worthy of your serious consideration, for never before did a small shareholder have an equal chance with the promoters of the company, and we believe every dollar you invest will yield you a handsome profit in return.

We should be pleased to have you join us and receive your subscription for as many or "as few" shares of the above company as will be agreeable to you. Price, 10 cents per share. Par ary machinery for working of value, \$1. Full paid and non-essess-

Subscription books are now open at the office of Lownsbrough & Co., 22 King street east, Toronto, Ont., where Mr. J. Grant Lyman, managing director, will be pleased to receive your subscription. Correspondence solicited
