Coming This Way.

Removal of Grand Trunk Machinery to London.

The Brantford Shops Being Cleared Out-The Men Will Follow Shortly.

Brantford Courier: Mr. Wm. Mc-Wood, general car superintendent of the G. T. R., was in the city yesterday. While here he gave orders for the sending of four more of the big machines in the shops to the new works at London, viz., two weel borers, one wheel lathe and one wheel press. Mr. Green, lumber foreman, arrived from Montreal yesterday morning, and Capt. Kerr is expected to reach here today from the same place. It is understood that they were summoned here in connection with the removal of the works. The statement is now made that the men to go from here to the Forest City will all have left before the end of June.

Brantford Expositor: For the past week machinery and fittings from the G. T. R. works in this city have been shipped steadily to the new works in The latest shipment was made today, when a carload of wheel borers and other machinery were sent

Despite the fact that a considerable quantity of machinery has been taken out of the works, there has, as yet been no reduction in the staff. The the Y. M. C. A. has been organized works were not fully manned, and as and named the Banio. Mandolin and a man was taken from a machine about to be dismantled, he was placed Guitar Club. It promises to be quite at other work.

an acquisition to the association. Mr. A widespread feeling of anxiety pervades the employes of the works. One of them remarked to an Expositor man Frank Ware has been chosen president, and Mr. George M. Millar secretoday: "In these shops the sun may tary-treasurer. Miss Jones, of the Conshine as brightly as possible in the morning, and before the day has closed the thunderbolt may have fallen which servatory of Music, will instruct the members. A second class is also to is to lay off half the staff." The gen-eral impression seems to be that no be started immediately for beginners, and will be open to all association radical changes will be made for a week or two. At the end of that per iod almost any announcement from the officials would not come as a shock -St. Thomas Journal: "The gentlenen referred to above (re electric line to the majority of the workmen. It seems to be admitted on all sides that from London to St. Thomas) have been hte concern is to be wound up com negotiating with Col. Stacy was seen by a a matter of sheer conjecture." press representative, and said that if

AERIAL TORPEDO.

council and people would be expected to deal fairly, if not liberally, with the A Deadly Electrical Weapon Carried Thorough the Air by a Balloon. -The beloved wife of Mr. W. J.

An instrument of torture which ad mits of no defense has been invented according to a Des Moines newspaper by an electrical engineer of that city consists of an electrical aerial to

place this afternoon, and was largely pedo. The torpedo consists of a small sized gas balloon similar in shape to the hot air balloons used on the 4th of July, and capable of sustaining any length of time a dynamite case weigh ing from 30 to 40 pounds at an elevation of from 300 to 1,000 feet above

the earth.
Inside the lower or small end of the balloon is placed a small cylinder which contains a simple electrical de later at the old central, where she taught for some years, and finally at vice, the purpose of which is to reguthe Simcoe street school, which she late the length of time the balloon remains in the air, and also to ignite left about five years ago, when she left about five years ago, when she married Mr. W. J. Craig, who for a period, thus causing the balloon portion of the aerial torpedo to explo number of years had been a school and drop the contents upon any hard surface like the earth or a walled embankment, which would result in th most popular and highly esteemed ladies in the city, and one widely destruction of whatever was in that

known throughout Ontario. She was locality.
In action the management of the a member of the First Presbyterian torpedo is described as very easy and Church, and among the foremost in simple, the inventor stating that a corporal's guard can with it accom-plish what would require a large force to do by the methods now employed in scattering large bodies of troops or pedo effectively all that is necessary is to approach as near as possible the locality where the torpedo is desired to take effect, a reasonable distance being from four to six miles, then ascertain the direction of the Eminent Sir Knight J. S. Dewar, Most current and the velocity of the same

This being ascertained the electrical been ascertained that an old charter bearing the name "Huron Conclave" would take the air current to carry the torpedo over the objective point. The balloon part is then inflated and the torpedo released to carry out its The torpedo complete is small and compact, and large numbers can be carried by a few men. The gas to inflate the balloon is carried in light

bottle to inflate a large number of aerial torpedoes. FAGGED OUT .- None but those who have become fagged out know what a teaspoonful extract almond.
