Is the Magnificent New Dundas Center Church.

Building.

Will Hold 1,500 - A Church Model-A Beautiful Dome-Romanesque Arch tecture.

The new Dundas Center Church will be opened for the dedicatory services tomorrow. The day will begin with an early morning prayer and fellowship meeting at 7 o'clock. Rev. W. Williams, D.D., president of the London Conference, will preach at 11 a.m.; Rev. Dr. Briggs, of Toronto, at 3:30 p.m., and Rev. E. B. Ryckman, D.D., Kingston, at 7 p.m.

It is naturally expected that the crowd will be great at all the services, and to accommodate the pew-holders they will be admitted by ticket from 10:15 to 10:45 a.m. After 10:45 the doors will be thrown open to the general rity and honesty of the medical health public.

The building is a stately pile, embodying all the pretty effects of the Romanesque style of architecture. A wide granolithic walk has been put down in front of the church, and the lawn will be sodded in part, if not in whole, today. The Dundas street frontage is 80 feet, and the depth on Maitland street 144 feet. The Sunday school building, semi-circular in shape, has been used for the regular church services for some time. The church auditorium is a 76-foot square, brought up in octagonal form at the ceiling. The seats will hold comfortably 1,280 adults, but 1,500 of a mixed congregation could be accommodated without. the necessity of chairs being placed in the aisles. The furnishings are in oak, and, while the seats will not be cushioned, they are built in such a way as to rest the back and make very comfortable sittings. Under each seat is a wire arrangement to hold gentlemen's hats. The walls and ceiling are very pretty. The fatter is finished in salmon-colored adamant, with four arches set off with ornamental plaster-

I slept soundat night, and the action of my heart ecame normal. I continued taking the pills until I had used in all fifteen boxes, and I have not felt better in years than I do now. I did some particularly hard work last fall, and was able to stand it with a strength and vigor which surprised me. I consider Dr. Williams' Pink Pills, not only a wonderful medicine, but also in the light of what my other treatment cost, the least expensive medicine in the world, and I strongly recommend Pink Pills to all in need of a medicine.

Dr. Williams' Pink Pills act directly upon the blood and nerves, building hem anew and thus driving disease from the system. There is no trouble due to either of these causes which Pink Pills will not cure, and in hundreds of cases they have restored patients to health after all other rem lies had failed.
