

1000 Perish as San Francisco Reels Under Earthquake Awful Fire Now Sweeping Through Wrecked City

WHOLE BLOCKS OF BUILDINGS COLLAPSE; THOUSANDS ARE BURIED IN THE RUINS; WATER MAINS BURST, FIREMEN HELPLESS

THE HEART OF THE BUSINESS SECTION COMPLETELY DEVASTATED

A Terrible Catastrophe Falls Upon San Francisco and Sacramento at Early Hour Today, by Which Many Lives Are Lost and Millions of Dollars Damage Done.

San Francisco, April 18.—San Francisco was practically wrecked by an earthquake at 5:10 this morning. The shock lasted three minutes. Thousands of buildings were damaged or destroyed. The loss of life is reported great. There is no water, and fires are breaking out all over the city. All the wires with the exception of one are gone. The city hall, costing seven millions, is in ruins. Modern buildings suffered less than those of brick and frame.

The terror and excitement are indescribable. Most of the people were asleep and rushed into the streets undressed. The buildings swayed and crashed, burying many occupants. Panic reigns in the downtown hotels. The Lick House is badly damaged, but no loss of life there is reported.

The Palace and the St. Francis hotels stood the shock. People flocked to the telegraph offices to send messages to friends, and were frantic because there were no wires. The greatest damage was done to buildings south of Market street, where mostly they are frame and tenement houses. Fires occurred in every block in that district.

A telegram from Sacramento to the Western Union Telegraph Company reports that three miles of railroad sank out of sight as a result of the earthquake between Suisun and Benelea, and all wires were taken with it. At Pleasanton there were several cars burned on the main line, blocking the trains.

Fire Raging and No Water.

San Francisco, April 18.—6:50 a.m.—A disastrous fire has broken out on the south side of Market street, and is now within one block of the Palace Hotel. The water mains have burst and the fire department is practically helpless. The utmost confusion exists. All business is suspended. At this moment there is only one wire out of San Francisco, a Postal wire. The Postal building is badly damaged. The operating room is a wreck. The power of every kind is gone, and there are no lights, either gas or electric. Neither the Palace Hotel nor the St. Francis is gone, but as far as the outside goes, both the inside plastering, etc., is greatly damaged. Between the post office and the water front there has been great damage by fire, which is burning fiercely, and there is little or no water.

The fire is burning both on the east and south side of the Postal Telegraph building. The damage by the earthquake apparently extends all over the city. The shock occurred at 5:15 this morning, and lasted three minutes. The streets are blocked with debris and buildings are being blown up. The residence districts are safe so far as heard from.

Many Blocks Destroyed.

New York, April 18.—At about 9:40 the Postal Telegraph Company had communication with their San Francisco office, but lost the connection again almost immediately.

In the brief period that the wire was working the San Francisco office reported that a number of buildings had collapsed, and that the dead and injured were being taken from the ruins as rapidly as possible. At the time this message came through the principal danger was from the fires, a number of which had started and were making great headway owing to the lack of water.

At 10:40 o'clock this morning the Postal Telegraph Company received the following telegram: "At 5:13 this morning a terrific earthquake shook San Francisco, doing particular damage in the district east and south of Market street, practically destroying six or eight blocks in the manufacturing and wholesale districts. The banking district was not seriously damaged, although small damage has been done over the whole town. Many persons have been killed and wounded, and a portion of the town is on fire, the water supply being shut off. At this moment they are dynamiting several of the buildings."

The Associated Press office was also badly damaged.

One Thousand Lives Lost.

Kansas City, Mo., April 18.—At 9:15 p.m. the Postal Telegraph Company here had received the following information from Los Angeles:

It is reported that 1,000 lives have been lost in the earthquake at San Francisco. Both the Postal and Western Union telegraph buildings in that city have been destroyed. A disastrous fire is eating its way up the south side of Market street, and at last accounts was within three blocks of the Palace Hotel.

Water mains were bursting and the fire department was absolutely helpless.

Many Buildings Collapsed.

Kansas City, Mo., April 18.—At 8:25 this morning the Postal Telegraph Company here states that the only information obtainable from the west was that the operators at San Francisco had left their building in that city and reported that many buildings were collapsing and many fires breaking out, with no water available to fight the flames. People were fleeing from the affected districts.

The Union Pacific Railway Company reports that all of their wires have gone down west of Ogden. The area covered by the earthquake seems to have covered several hundred miles.

Shock Bursts Water Mains.

New York, April 18.—The Postal Telegraph Company learns that the fire is eating its way along Market street. The water mains were burst by the earthquake so that there are no means at hand for fighting the conflagration. The electric lighting plant of the city has failed and gas mains are disrupted. The damage extends through the entire city. The Postal building was badly damaged and the operating room is incapable of use.

Sacramento Also Suffers.

Sacramento, Cal., April 18.—A severe earthquake shock occurred here at an early hour this morning. There is great confusion, and it is impossible to learn full extent of damage. No loss of life is yet reported.

University in Peril.

New York, April 18.—At 11:05 the Western Union received a report that a serious fire is burning at Berkeley, where the state university is located. The report came from Pinole, a station ten miles out of San Francisco, and the nearest point to the latter city which the company had been able to reach up to the time of this dispatch. Berkeley is between Pinole and San Francisco.

The Business Section Wrecked.

San Francisco, Cal., April 18.—The business section of the city from Market street to Mission street and from the bay back has been almost completely wrecked. The Call and Examiner buildings are destroyed. Many buildings along Market and Mission streets, including the department stores, collapsed. Hundreds of people in the cheap tenement district are reported killed. Fires are raging and owing to the scarcity of water are practically beyond control. Business is practically suspended. The office of the Postal Telegraph Company in the Hotel is in ruins.

GIGANTIC CAVE AND BIG LAKE FOUND BENEATH CHARLESTON CITY

Chicago, April 18.—A dispatch to the Record-Herald from Charleston, W. Va., says: The city of Charleston was thrown into excitement yesterday by the discovery of a gigantic cave directly beneath the town. The cave contains a large lake.

Men blasting rock made the discovery of the lake and cavern when the discharge caused the earth to crumble and fall in, leaving a great hole. Workmen ventured into the cavern, exploring it for a considerable distance. They discovered the lake, and returning to the surface, procured a small boat. They then rowed about for several hundred yards. There are limestone formations in the cavern similar to those in the noted Luray caves. The water of the lake is remarkably pure, and is cold and sweet to the taste. A systematic exploration of the cavern will be begun today.

BRUTAL AMBRAMOFF DEAD

Cossack Officer Who Tortured Girl
Revolutionist Assassinated.

St. Petersburg, April 18.—Abramoff, the Cossack officer, who treated Maria Spiridonova, the revolutionist, in an outrageous manner, while she was in prison, has been assassinated at Borisoglebsk, Province of Tambov. He was shot three times with a revolver April 16 and died yesterday. His assassins escaped.

Sentenced to Drink Himself to Death

Chicago, April 18.—The Record-Herald today says: Condemned by a court of justice to get drunk and remain so until drunk killed him, Selby T. Jones, son of a former prominent wholesale hardware merchant of Kansas City, Mo., came to Chicago to obey the sentence of the court. Without means last Sunday to continue the debauch judiciously imposed upon him, sufficiently intoxicated to resort to any expedient to carry into effect the remarkable penalty, he stole a traveling salesman's valise and sample case and was arrested. Jones' efforts to satisfy his parole by drinking himself to death, have continued since March 6, when Judge Wofford, of the criminal court in Kansas City pronounced this sentence: "If you'll get drunk and stay drunk I'll let you out of jail. You must leave the city. Only remember you must get drunk and stay drunk. You're a bad man, and a whiskey will take you to the devil faster than anything else. The sooner the devil gets you, the better. If you don't live up to these conditions I'll put you in jail and keep you there."

Next day Jones, furnished by influential friends with transportation to Chicago and sufficient money to tide him over six days, left the city that had been his home for 20 years, saying farewell to his aged mother, whose prayers, as he peered through the bars of the cell yesterday, still rang in his ears.

FATAL RACE WAR

Los Angeles, Cal., April 18.—One man was fatally and another seriously shot by three negroes, who waylaid them on Enterprise street last night. Faro Amato and Luke Sebailo, both Italians, were the victims. Amato is badly wounded and will die. Sebailo was shot through the right arm. After firing six shots, the negroes took to their heels and disappeared in the darkness. The shooting is believed to be the result of a race war between negroes and Italians in the colony in that neighborhood.

DISMISSED, BUT HE WON'T QUIT

Rev. Mr. Nevitt Intends to
Keep on Preaching at St.
Barnabas' Church.

[Special to The Advertiser.]

Toronto, Ont., April 18.—Rev. R. Barrington Nevitt, who was summarily dismissed at the vestry meeting at St. Barnabas' Church, St. Catharines, on Monday night, made his first public statement in the controversy this morning. He declares that he will ignore the resolution passed by a majority of the congregation, dismissing him, Mr. Nevitt is in the city at present, visiting his parents, and will this afternoon assist at the wedding of his sister at St. Luke's. He is just 27 years old today, and St. Barnabas' St. Catharines, is his first charge. After graduating at Trinity in 1900 he went to England, and was for a time assistant at St. Saviour's Church in Leeds, built 45 years ago by Dr. Pusey. Mr. Nevitt says he has taken legal advice and will return on Thursday and resume his duties the same as if nothing had happened.

"Neither the vestry nor the congregation has the power to dismiss its minister in such a manner," said Mr. Nevitt. "I must either prefer a charge of immorality or a serious breach of church ordinance." He declares that he dismissed the ladies from the choir because they flirted, but because he wanted a male choir. He admits that the bishop advised him to resign, but says he was not in possession of all the facts, and since that interview the bishop has sent him his license to preach. He says he is backed up by the better part of the congregation, the church-goers, who are the chief supporters of St. Barnabas'.

ACTION AGAINST A. J. SMALL

Manufacturer Claims \$21,180 for
Goods Sold and Delivered.

Toronto, Ont., April 18.—John Wamman, of Broadway and Fourth avenue, New York, has entered an action against A. J. Small, the well-known theatrical man, for \$21,180, the amount claimed for goods sold and delivered.

COAL DEALERS IN SESSION DO NOT TAKE STRIKE SERIOUSLY

Are Concerned About the Con-
duct of Jobbers, Who Sell
Over Their Heads.

An important meeting of the Western Ontario Coal Association is being held in this district today. Members are present from all parts of Western Ontario and also quite a few from the east. Nearly all local dealers are also at the meeting.

This morning, President J. C. Hay, of Lindsay, presided and gave an address on the aims and objects of the association, and of what has been accomplished since it was formed.

Addresses were also given by Mr. Robert Lake, of Jackson, Mich., vice-president of the International Association, and president of the Michigan and Indiana Coal Associations, and Mr. Delos Hull, of the Retail Coalmen's Association of Chicago.

A local dealer informed The Advertiser that the meeting will not likely deal with the coal-strike question or the fixing of prices.

"We do not take the strike question very seriously," he said. "What we really want to get at is the grievance caused by the jobbers of Buffalo and other points selling steam coal direct to consumers over the heads of the legitimate dealers. We do not think this is fair, and we are trying to put a stop to it. At certain times it is the case that consumers can buy from the jobbers cheaper than the coal men can buy, but it is to the coal man that the consumer must look when the jobber has no coal on his hands that he is ready to dump over here."

It is understood that the Delaware, Lackawanna and Western Railroad has invited the members of the association to take a trip through the coal fields of Pennsylvania at the expense of the company some time in June.

Mr. D. E. Russell, the agent of the railroad in Buffalo, is in the city today. The meeting will be continued tomorrow.

THE WEATHER.

Tomorrow—Fair.

London, Wednesday, April 18.
Sun rises, 5:31 a.m. Moon rises, 3:26 a.m.
Sun sets, 7:08 p.m. Moon sets, 2:06 p.m.

Toronto, April 18—8 p.m.
Light showers have occurred today in Alberta and in Cape Breton Island. Elsewhere in Canada the weather has been fine. In Alberta and Saskatchewan there has been a change to cooler, but from Manitoba eastward it has been warm.

Minimum and maximum temperatures: Dawson, 14-46; Athol, 28-44; Port Simpson, 28-52; Victoria, 40-60; Vancouver, 38-60; Kamloops, 36-62; Calgary, 38-62; Edmonton, 40-56; Qu'Appelle, 48-74; Winnipeg, 49-56; Port Arthur, 34-54; Parry Sound, 34-56; Toronto, 38-56; Ottawa, 34-44; Montreal, 34-60; Quebec, 38-52; St. John, 38-56; Halifax, 40-54.

FORECASTS.

Wednesday, April 18—5 a.m.
Today: Moderate winds; fine and moderately warm.

Thursday—Southerly winds; fair.

TEMPERATURES.

Station.	8 a.m.	Min.	Max.	Weather.
Calgary	42	24	44	Clear
Winnipeg	48	30	44	Fair
Port Arthur	40	30	44	Clear
Parry Sound	40	30	44	Clear
Toronto	40	34	44	Clear
Ottawa	40	34	44	Clear
Montreal	40	34	44	Clear
Quebec	40	34	44	Clear
St. John	40	34	44	Clear
Halifax	40	34	44	Clear

WEATHER NOTES.

Light showers occurred yesterday in Alberta, and rain fell in Cape Breton. While in other parts of Canada the weather has continued fine. The temperature rose above 80° yesterday in parts of Manitoba.

LOCAL TEMPERATURES.
The highest and lowest readings of the thermometer at the local observatory for the 24 hours ended 8 p.m. Tuesday were: Highest, 65°; lowest, 32° above.

FELT AT OTTAWA

Seismic Shock at Frisco Registered
at the Capital.

Ottawa, April 18.—The vibrations resulting from the big earthquake at San Francisco were recorded by the seismograph at the Dominion Observatory at the Central Experimental Farm.

The preliminary tremors began at 8 hours, 9 minutes, 30 seconds in the morning. The principal part of the disturbance occurred at 8 hours, 30 minutes, 30 seconds, and the maximum disturbance at 8:35. When the sheet was taken at 9:50 quakes were still being recorded, but not so violently.

FATHER GAPON DISAPPEARS

Wife Thinks He Was Kidnapped by
the Social Democrats.

St. Petersburg, April 18.—Father Gapon, the labor leader, mysteriously disappeared about a week ago, and his wife is greatly alarmed, fearing foul play on the part of his enemies, as the police insist that he has not been arrested, and add that they knew nothing of his whereabouts. It is considered possible that Gapon has been kidnapped by his enemies, as was the case a fortnight ago with Urosov, one of the workmen's delegates, who, being suspected of being in alliance with the Government, was captured by the Social Democrats and conveyed to Helsinki, Finland, where he was subjected to torture.

Council Aims to Put Curb on the Board of Education

Wants Power to Review Its
Financial Demands—Trustees
Not Alarmed.

"Moved by Ald. Forristal, seconded by Ald. Greenlee, that this council recommend that the Ontario Government pass legislation giving power to municipal councils to review the financial demands of the board of education, or the alternative that the board would levy and collect its own taxes."

This was the notice of motion presented at the meeting of the council last night, while aims to "get even" with the school board for what some of the aldermen are pleased to term the board's extravagance.

Ald. Forristal, who presented the resolution, stated to The Advertiser today that as an alderman he is pretty nearly tired of having to provide funds for the board of education.

"Last year we beseeched the trustees to pare their estimates," he said, "but they were obstinate. They stood out for the sum they asked for in the first place, and the result was the board came out with a surplus, while the council had an overdraft. I have advised the board should pay its own rates. The trustees may be a little more careful if they have to state on the platform the amount of money they are going into the people's pockets for."

The trustees spoke to do not regard the resolution seriously.

"I see nothing wrong about it," said Chairman Strong. "We practically levy our own rate now, because each tax notice sent out tells the people how the total city rate is made up—so much for public schools, so much for the debt, and so on. The trustees have nothing to fear from the amendment, if the Government should see fit to make it."

A somewhat premature announcement was made yesterday that the special committee of the board had purchased the McNeil property next to St. George's school for kindergarten purposes, and will erect an addition to the school thereon.

As a matter of fact, the property has not been purchased, and the owner, Mrs. McNeil, stated to Trustee Gamble last night that she will not sell. Of course, the board has the power to expropriate the property, but in view of the fact that the trustees are seriously divided as to the need for the addition, it is scarcely likely the citizens would feel warranted in expropriating the land.

Chairman Strong and Trustee Gamble are authority for the statement that if the attendance of the schools is rearranged, there will be no need to spend the people's money on new schools. There is ample accommodation for all now if things are worked properly.

The statement was also made that the property would be paid for out of the money received for the Queen's avenue kindergarten, which was sold some time ago, but as the board has already paid Ald. Matthews for another site for school purposes \$1,800 out of the \$2,200 received for the kindergarten, it is seen that there is not much left to buy the McNeil lot.

At a recent meeting of the board of education Trustee MacRobert grew indignant because a member of the board had given out information before it came to the board. The question now is who gave out the information relative to the purchasing of the site for the St. George's addition?

It may be a case of who killed cock robin, but at all events, who did the talking?

The childish story of Chairman Strong being deposed from the chairmanship of the special committee is laughed at around the city hall. No one takes any stock in it.

A special meeting of the board has been called for Friday afternoon at 4:30 to consider the application of Col. Gartsshore, who desires to have the children of Chelsea Green attend the public schools, the colonel to pay for the tuition of the scholars.

It is said that not less than \$300 can be collected from the parents of Chelsea Green alone, and that if all other outsiders are taxed, about \$1,000 annually can be added to the revenue of the board.

Despite the statements made by several contractors and architects a couple of weeks ago that the carpenters, painters, bricklayers, etc., would not likely ask for an increase in wages this year, it turns out that in several instances the members of the building trades will look for more money.

At a meeting of the local carpenters' union held last night, it is understood that the men decided to ask the bosses for an all round increase of 10 per cent.

The carpenters now work on a graded scale of from 25 to 30 cents an hour.

The bricklayers also want more money. They have asked the bosses for 45 instead of 40 cents an hour.

Following suit, the builders' laborers have asked for 25 cents an hour, instead of 22½ cents as formerly.

What the painters will do has not as yet been learned, but a building contractor today said that he would not be surprised to hear that painters, plumbers and all the rest will look for an increase of pay.

"Will the bosses fight the demands?" the reporter asked.

"It's hardly likely, there will be trouble of any kind," the contractor replied. "I feel that some sort of an arrangement will be reached."

The first of May is the time set for all increases to go into effect.

The Waterbury and Berlin Clubs affiliated with the Western Ontario Bowling Association.

The honorary president, Mr. T. G. Hay, Owen Sound, was in the chair. The following delegates were present: W. C. Newman and W. H. McMacken, Ridgeway; R. G. Moore, Aylmer; A. McDermand, Petrolia; N. K. Cornwall, Thamesville; T. S. Ford, Mitchell; Dr. Robertson and C. E. Nasmith, Stratford.

(Continued on Page Eight)

Forty ladrones raided the headquarters of the Philippine constabulary in the center of the city, captured twenty rifles and escaped, after killing three men and losing one of their own number.

The brigands entered the city early in the morning, and were discovered until they had reached the constabulary headquarters. This is in a building in the very heart of the town, fronting on the residence of Governor Sandico. Here they were challenged by a sentry. They promptly killed the sentry and then swarmed up the stairs of the building.
