

PANDORA RANGE

Train up a girl in the way she should bake, and when she is married she will not depart from it.

"My mother taught me how to bake, and told me why she always used a McClary Range.

"Now I have a 'Pandora', and, as with mother, my troubles are few. After fire is started, I simply bring thermometer to desired heat and leave the oven in charge of the baking. It's built for faithful service.

"While housewives with other ranges are poking fire and changing dampers, I sit and read the 'Joy of Living'."

McClary's

GRAIN ELEVATOR EXPLOSION CAUSES DEATH OF THIRTEEN

A Band of C. P. R. Employees and Several Passersby Killed by a Mysterious Explosion in a C. P. R. Structure at Richford, Vermont.

Richford, Vt., Oct. 7.—An explosion of dust in a large grain elevator, jointly owned by the Canadian Pacific and the Boston and Maine Railroads, in this village, caused the death of at least thirteen persons, and it is possible that the death toll may be still further increased when a careful search of the ruins can be made.

Of the victims eleven were employed in the elevator. The other two were women who were walking on the Canadian Pacific Railroad track nearby. The dead—Herman Labu, 40 years, leaves a family; Lucius Wright, 25 years, married; Robert Mandigo, 22 years, married; W. C. Barpey, 50, married, leaves family; Ralph Hale, 20, single; Herman Niles, 25, married; Charles Narrows, 25, single; Louis Paineau, 40, married; Donna La Porte, 21, single, a workman, name unknown, who is known to have been in the building, and who is reported missing; Mrs. Jefford, Mrs. Guardo, aged 40.

The two women were near the elevator at the time of the accident and were probably stunned by the explosion. Both were living, though badly burned, when they were picked up and

taken to a neighboring house, but they died within a few hours.

Aside from these, the only body thus far recovered is that of Mandigo. So quickly did the flames, which are supposed to have started by spontaneous combustion in the dry dust of the grain, extend throughout the building, that the limited fire apparatus of the village was of no avail. Nothing could be done to prevent the entire destruction of the elevator and its valuable contents.

The heat set fire to a flour shed near the elevator, and the shed, together with 75 freight cars, which were standing near it, were burned. Every building in the village was shaken as if by an earthquake when the explosion occurred, and many people who were on the streets near the elevator were thrown to the ground with considerable violence.

Late tonight the fire was still burning, but no other property was threatened. The wreckage from the explosion and fire blocked the tracks of the Canadian Pacific Railroad completely for many hours, so that it was necessary for trains to make a detour by way of Sherbrooke, Que.

The total loss is estimated at \$400,000.

A Gun Metal Watch Free

To Every Boy or Girl in London Who Will Bring Three of the Following Orders to — — —

The Advertiser Office

I hereby state that I have not taken **The London Advertiser** regularly for the past 30 days and in consideration of **The Advertiser** furnishing a **Gun Metal Watch** free to

(Boy's or Girl's Name)

I order **The London Advertiser** and agree to pay for the same at the rate of 10 cents per week for at least twelve (12) weeks.

Signed.....

Start Paper..... Address.....

SPECIAL NOTICE

Start Today To Earn A Watch.

Bring in each order as soon as you get it and it will be placed to your credit.

Prizes given for **One Order**.

A long list of prizes to select from. See the **Circulation Mgr., London Advertiser**.

8,500 People at Delaware Fair Exhibition Was a Grand Success

Some Very Fine Horses Were Shown—Speed Events Were the Best Ever.

(By Our Own Man.)

Eight thousand five hundred people from all over the country gathered at Delaware yesterday and made the Delaware Agricultural Society's fall show the greatest in its history. All morning people drove in for miles around, and in the afternoon many hundreds more drove to Delaware from London, St. Thomas, Strathroy and other points. The streets of the village were so crowded by rigs and people that at times it was almost impossible to get through.

Half a Century Old.

"Delaware Fair is more than half a century old," Secretary Edgar Weld told The Advertiser last night, "and never have we been favored by such splendid weather, big crowds and fine exhibits. The attendance today was fully 8,500 and broke all records. Not for many years have we had such a splendid day on which to hold our fair, and people have taken advantage of it in a way that has been most gratifying to us. I am safe in saying that the surplus from the fair this year will be greater than any in its history. The management are more than pleased with the success attending their efforts, especially in the

matter of the racing programme. Better races are seldom seen at any fair."

Ideal Grounds.

Delaware possesses an ideal fair grounds, the land being perfectly flat and suited in every way for exhibition purposes. The race track is one of the best in the country. Many London merchants had displays among the other exhibits. The horse show was one of the big features of the fair, and every lover of fine horses of all classes spent considerable time watching the judges trying to pick the winners from an array of animals that any district might be proud to claim. Every class was filled by an unusually large list of entries, and in many instances the competition was so keen that the judges experienced great difficulty in awarding the prizes.

Prize Horses.

Some of the awards were as follows: Agricultural horses, heavy, 1. McNeill Bros., Strathroy; 2. Henderson Bros., Calder. Brood mare—1. A. W. Thomas, Delaware. Gelding—1 and 2. McGugan Bros., Poplar Hill; 3. A. W. Thomas, Delaware.

Gelding, 2 years' old—1. Clarence Trott, Christina; 2. A. W. Thomas, Delaware. In the agricultural horses T. Trott won practically all the prizes offered for young animals.

General purpose horses—1. J. H. Campbell, Duncreeff; 2. Peter Rein-

CORSET DISPLAY

SEE EXHIBIT OF THE NEW "KABO" MODELS IN OUR DUNDAS ST. WINDOW.

The influence of fashion has made decided changes in corset models—the change from the rounding figure and curves to straight lines and the hipless form has made a great reformation in corset styles, and this window display of new "Kabo" models will convince you that the makers of this corset are wide awake to the demands of fashion.

Your tailor or dressmaker cannot give you a new fashion plate form on an old-style corset model.

These new "Kabo" models will be on display all this week—in our Dundas street window. See them, and also examine the qualities in our Corset Department—Third Floor. Take elevator.

See these—Richmond street section.

WEATHER REVIEW FOR SEPTEMBER

The Temperature Well Above the Average—Drought General, Manitoba Excepted.

The following report of weather conditions that prevailed during last month was issued by the meteorological office at Toronto on the 5th inst.:

The temperature was well above the average in all portions of the Dominion; the most noticeable positive temperatures were 5 to 8 degrees in the Lake Superior district, 4 to 5 degrees in Saskatchewan and Manitoba, and 3 to 5 degrees in the peninsula of Ontario and the Ottawa and upper St. Lawrence valleys. The highest temperatures were reported at Moosejaw and Ainslie, 56; Stony Creek, 57, and Sarnia, 59. The lowest temperatures were reported from Dawson and Moosejaw, 10.

Precipitation. During the month a severe drought occurred in nearly all portions of the Dominion, the Province of Manitoba proving the exception to the rule, with a rainfall in most localities of from 3 to 19 per cent more than the usual amount. In parts of Southern Alberta and more locally in Southwestern Saskatchewan the rainfall was nil; elsewhere from coast to coast, except in Manitoba as already stated, the quantity recorded was equivalent to about a third of the average.

General Notes From Ontario. A long-continued drought, the second longest on record, marked the weather of September in Ontario. There was hardly any growth during the month, and leaves were beginning to fall from the trees owing to lack of moisture. Little fall plowing has been done, and pastures are very poor. Forest fires caused a very smoky atmosphere the greater part of the month, the situation being relieved by the rainfall of the 25th and 26th. High temperatures were recorded in all districts, and the mean was considerably above the normal. The rainfall was generally very much less than the usual quantity. Port Arthur—Lakes and all streams low. The damage done by bush fires in this vicinity is not as great as at first estimated.

Gravenhurst—September has been marked by lack of rain and by numerous bush fires, and as a consequence excessive smoke, and an absence of early frosts, tender plants being still green except where affected by the excessive drought, which has caused the premature fall of the leaves. The dry weather has had a bad effect on the pastures and on the root crop; potatoes a short crop in consequence of the ravages of the Colorado beetle, which has been worse than usual this season.

Clinton—Pastures very dry; fall wheat not coming regularly; the forest leaves beginning to wither and fall; ground very dry; very little fall plowing done. Strathroy—A long-continued drought; corn crop unusually early; fruit has ripened well.

London—Remarkably dry period from the 2nd until the 25th. Fort Burwell—Dense smoke from the 15th to the 25th. Georgetown—During 25 days without

rain pastures began to suffer and roots showed little growth. Fall apples are a fair crop, but winter varieties scarce in this locality.

Arden—Bush fires filled the country with dense smoke; the drought has been severe; vegetation and pastures dried up; the rain at the end of the month was most welcome, as wells were dried up, and cattle in some cases driven a distance to get water; very little, if any, plowing done—too dry.

Other Provinces. Quebec—The weather of September was fine, warm and very dry. Temperature was much above the average, and the highest for many years. Crops fine, except potatoes.

New Brunswick—Phenomenal month for warmth and drought. In no other September on record has there been so small a rainfall or continuance of weather so fine and warm.

Prince Edward Island—Very fine weather in September; sunshine more or less on 29 days; total number of hours, 197; grain completely harvested; oat heads in some localities not well filled and straw short; on the whole an average crop; potato digging just commenced; crop good and abundant; other root crops fair; apples plentiful; after-grass and pastures excellent.

Nova Scotia—September weather remarkably fine and summerlike; light total precipitation.

British Columbia—On the whole the weather of the month was fair and unusually dry.

Western Provinces—The weather of the month was everywhere remarkably fine, with a marked absence of storms and a high mean temperature, all the conditions being most advantageous for completing the harvesting of the crops, the returns from which have been in nearly all localities eminently satisfactory.

MULCTED SARAH FIFTY

Several Toronto Hand-Book Operators Heavily Fined.

[Special to The Advertiser.] Toronto, Oct. 7.—The police court here today the men charged with making hand-books and keeping gambling houses came up for hearing. Douglas Gadoway was discharged and used by the crown to assist in convicting the 23 others. Sarah Michael was fined \$50 and John Allison and Russell were each fined \$10. Several were discharged. More cases are to come up later.

EYE OPENER MAN SUES

Charges Editor of the Calgary News With Criminal Libel.

Calgary, Oct. 7.—R. C. Edwards, owner of the Eye Opener, today laid information against Dan McGillivuddy, of the Calgary News, charging criminal libel. McGillivuddy was arrested and released in \$1,000 bail. The action arises out of an article which appeared on the front page of the News Tuesday, which Mr. Edwards charges reflects on his personality and on his morals. The article in question charges that Mr. Edwards is "unfit for human society" and is couched in such terms as are unimpeachable as to what is meant and for whom it is intended. On Nov. 30 the G. T. P. will be completed between Fort William and Lake Superior Junction. C. R. Hosmer goes on the directorate of the Bank of Montreal, succeeding the late Sir Robert Reid. Archie Lyons, of Fredericton, accidentally shot his 5-year-old son while showing a gun to a friend.

Seasickness Quickly Cured

"Mother's" quickly cures Sea and Train sickness. It is a perfectly harmless to the most delicate. Money refunded if not satisfactory. For sale at drug stores and first-class steamers, or Mother's Remedy Company, Limited, 211 State street, Detroit. For sale and recommended in London by W. T. Strong & Co., 134 Dundas street; C. McCallum & Co., Dundas and Richmond streets, and E. L. Guillemont, 44 Richmond street.
