SEEKING A NEW PASS

Provincial Government Send An Engineer to Explore Inland from Kitamaat Arm.

From the Coast to Hazleton An Almost Flat Route is Said to Exist.

The possibility of finding out an almost level pass from the Coast to the open country to the east of the Coast will be extended to Mr. James Tait of almost level pass from the Coast to the range, is the reason that Mr. Edward Oak Bay and his little ones, who yesternight for the North under instructions Glengarry county, Ontario, had been ill these figures was a very interesting one, only a short time and was but thirty-and heartily enjoyed by both particinight for the North under instructions Wilkinson has with him Mr. M. C. Ken- nine years of age. The funeral has been pants and spectators. dal, who is authority for the statement arranged for to-morrow afternoon. that from the mouth of the Kitamaat to the open country about Hazleton an almost flat route may be found for a railyears lived in the district referred to and states that he has himself been the route. To the head of Kita-t Arm, which runs inland some fifty miles, there is deep water which is navigable the year round. From the head of the Arm the Kitamaat river head of the Arm the Rivallace, ap-runs nearly north to a large lake, ap-three attle parently some 30 miles south of the Skeena. The intention is to river to the east and thence north to strike the Skeena 60 miles from the mouth, then follow along the Skeena to in by the all-Canadian route. 150 miles. The climate Mr. rule however the winters are not severe. Monday, from 10 till 12, to receive Hazleton a railway can run in any direction without difficulty, giving a clear shoot to Teslin lake if necessary and thence to the Yukon. The capabilities of the country after

the first seventy miles from the coast are excellent for agricultural purposes and the north and east is a vast mineral as yet practically unexplored. therefore, because of these al resources that Mr. J. A. Carthew left by the Tees in charge of a prospecting party for private individu-als, with the intention of examining the streams running into the Copper river, a large stream to the east of the Kiti-Mr. Carthew knows a good deal about the country and has also had information that gives with Mr. Kendal's. However, Mr. Carthew intends taking his party up the Skeena by boat as he has no reason for travelling overland, his object being mineral and not railways. There is a vast field of unexplored mineral country in the case of the colonist regrets having been mineral and not railways. Several Victorians and especially those who have many telegraphic messages to avoid him, but lost control of her wheel. The Colonist regrets having been mineral and not railways. Several Victorians and especially those who have many telegraphic messages to avoid him, but lost control of her wheel. Hosmer, manager of C. P. R. telegraphs, to the board of trade. There is a vast field of unexplored min-eral country in the district where he is going, and from specimens he has had from Indians Mr. Carthew feels assured

that his trip will be a success. In regard to Mr. Wilkinson's survey, is expected that Hazelton will be reached out difficulty in a few weeks and that the government will be in posses-sion of reliable information within a short space of time and with little ex-pense. Mr. Wilkinson will also report on the agricultural capabilities of the trict he traverses.

THE MEETING AT ROSSLAND.

To THE EDITOR:—A few evenings ago most abusive harangue ever delivered from a public platform in the province. The speaker, strange to say, is a person in holy orders—the Rev. Mr. Maxwell of Vancouver. The reverend haranguer abused Higgins, Heinze, Cotton and without state. He was instead to with the first state evening, and passing resolutions, thanking Major Bennett, of Vandafter Mayor Templeton, a director of the Coast railway, and Mr. McDonnell, solicitor of the same shadowy company, had spoken, Dr. Bowes, a well known Gr. P. B. Fowler, for services performed doctor's remarks were keenly enjoyed by and the tria juncta in uno skipped out of town by the early train in the morning to avoid unpleasant consequences from the indignant citizens.

At Trail the trio did not dare hold a meeting as popular feeling runs high there against the parson for his wicked father of Trail, has since publicly ded Maxwell & Co., as the authors of the ills under which the district is laboring and declares he will support no party to which they may attach themlves. The local opposition are enselves. The local opposition are en-deavoring to relieve themselves of any yard. The lights found a ready sale, deavoring with the combination. A and the purchaser will be called upon to eading Liberal told me to-day that the give evidence against Simms. Liberals will take the earliest opportunity of showing that the party is in no laddies from Vancouver who bore themwise responsible for Maxwell's utter-ances. Government supporters meanwhile are in high spirits and hope that what sort of a reception the combination will get in the Boundary where the fail-ure of the railway has paralyzed every interest and nearly ruined hundreds of number of names have been handed in, ROSSLAND. Rossland, 13 September, 1897.

One Honest Man.

Dear Editor .- Please inform your readers, that if written to confidentially, I will mail in a sealed letter, particulars of a genuine, honest, home cure. by which I was permanently restored to health and manly vgor, after years of suffering from nervous debility, weakness, losses, and weak shrunken parts. I was robbed and swindled by the quacks, until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to received. that if written to confidentially, I will mail
