THE JERSEY LILY.

New York, Dec. 5.—The lovers of scandal are satisfied that they have got something tangible with which to accuse Mrs. Langtry. It appears that a difference has taken place, perhaps amounting to a quarrel, between the Lily and Mrs. Labouchere. Rumor has it that her guide and friend warned her that a certain male acquaintance she had formed would be detrimental to her success, socially and as an actress, and that Mrs. Langtry became offended and left for London without her. The newspaper reporters were the first to pick up the story, and some particulars, but failed beyond finding out the gentleman, whom rumor points out as objectionable, at the railway depot. When interrogated as to his destination, he replied, "Oh, yes, I'm going to Boston; that is, I should say, not Boston, to attend a funeral in New York."

TELEGRAPHIC BRIEFS.

Large deposits of iron and lead have been discovered in Jackson county, Wisconsin. Butler was yesterday re-elected by the annual assembly to the United States senate.

Peter L. Lieble, aged 30, book-keeper for M. L. Cunden, was arrested yesterday in Buffalo on a charge of embezzling over \$100 from his employer.

Dr. Hamilton, one of Garrison's physicians, was arrested at New York, and is prostrated by hemorrhages, resulting from bronchial irritation.

Tom Granda, an Indian on the Grand reservation, murdered the old chief Wapato and his wife on Monday. He nearly severed their heads from their bodies.

Gilbert Mark, financial secretary of the order of Germania, was arrested yesterday in New York, charged with embezzling \$40,000, the funds of the organization.

George Rook, pugilist, was arrested yesterday in New York on a charge of shooting a woman, John Slade, who, with Rook and friends, was carrying in a saloon. The wounds are not dangerous.

Fatal Railway Collision.

TOWNSHIP, Pa., Dec. 5.—An accident occurred on the Lehigh Valley railway at Hammondsport this morning through a switch being misplaced. The freight train was standing on the siding when the express train ran into it. Engine-driver Foulke and the fireman of the freight were killed. The two engines were wrecked. The baggage, express car and sleeping coach were burned. The immediate cause was a switch being misplaced. The passengers were uninjured.

CANADIAN ITEMS.

The St. Thomas Times has become a daily and looks well in the new form.

Max Strakosch's wardrobe was again seized at Montreal yesterday. His troupe is still there.

Smith Antone, an Indian, living in St. Thomas, shot his hand by the premature discharge of a gun while shooting on Sunday.

Isaac Selles of Southwood, near St. Thomas, while leading a bull on a field yesterday was attacked by the animal and fatally gored.

An Escaped Prisoner Captured.

OTTAWA, Dec. 5.—The young man Labour, convicted recently of stealing a gold watch from Hon. John O'Connor, today found his way out of the walls of the county jail and was rushing down Nicholas street in his prison suit, when a passer-by drew the attention of P. C. Fiedler to the fugitive. The officer immediately gave chase and captured the fugitive. The jail officials had just missed Labour when the officer knocked for admittance.

Burglars in Caledonia.

CALEDONIA, Dec. 5.—The stores of Messrs. Johnston & Atkinson and F. W. Galer were visited by burglars last night. Nothing was taken from the former but some dry goods. The loss is \$50. Galer's store was broken into and \$1,000 in cash and diamonds were stolen. A blacksmith's shop was broken into to secure the tools.

Mysterious Disappearance.

OTTAWA, Dec. 5.—Mr. Elliott Anderson, son of Mr. C. E. Anderson, of the insurance department, disappeared suddenly on Saturday last and has not since been heard from. On that day he called at his lodgings and asked if there was anybody in the house. He then left, saying he would return in ten minutes. The family are very much agitated over the matter.

THE LIBERAL CONVENTION.

Text of the Circular Calling It—Who Are to Be Delegates?

The following circular letter has been sent to the president and secretary of every riding liberal association in Ontario by the secretary of the central reform association: TORONTO, 8th Dec. 1882.

Dear Sir,—You will by this mail receive a circular letter from the Hon. Mr. Mowbray, asking you to take the necessary steps towards calling meetings of our friends in each municipality of your constituency for the purpose of selecting delegates to attend the liberal convention to be held in Toronto on the 3rd and 4th of January, 1883.

It is in order that you may the more easily be able to give all the requisite information and instructions, allow me to make the following explanations and suggestions: Of course more may be sent, for it is desirable that the delegation from each municipality should be as large and representative as practicable.

2. Messages to each municipality for the selection of such delegates should be duly called for some day in the week before Christmas, if it will please you.

3. The president and secretary of each riding association will of course be expected to see that the meetings in question are held for the selection of delegates as duly called and in due time.

4. There will be sent forms of credentials for you to distribute which will be signed by the chairman and secretary of such meetings and handed to the appointed delegates. Upon presenting these credentials at the convention, certificates will be given admitting the bearer to all the meetings and to the privileges of special railway fares.

5. All liberal members of the dominion house of commons and of the local legislatures, as well as those who have been candidates in the liberal interest for both houses, and the officers of the riding and municipal liberal associations will be ex-officio members of the convention.

SCULLERY AND PROPHET.

Another Letter to Dr. Will—Who is the Evader?—A Fly Sheet Promised.

Dr. Will—Dear Sir:—In the World's report of your last Sunday evening sermon, we notice that you charge as if I had written a list of about to me at the end of my sermon, Monday's paper. That is a serious charge, and a misstatement, and I will be glad to see the list if you do not stop it.

Then we have your charge that I have written a list of about to me at the end of my sermon, Monday's paper. That is a serious charge, and a misstatement, and I will be glad to see the list if you do not stop it.

NEW YORK'S SUNDAY LAW.

Opinion of the Press—What Mr. Beecher Has to Say—The Police Superintendent's Opinion.

The following is the wording of that part of the new criminal code in virtue of which the New York police made so many arrests on Sunday last:

All manner of public selling or offering, or exposing for sale, any commodities upon the streets, sidewalks and public places, except milk and fish may be sold at any time before 9 o'clock in the morning, and except that food may be sold to be eaten upon the premises, as bread, soap, medicines and surgical appliances may be sold at any time of day.

THE BROOKLYN EAGLE'S OPINION.

Eagle, Sunday, Dec. 3.—This enactment is not worth the paper it is written upon, for the excellent reason that it is utterly opposed to public sentiment. The people of this country have pretty generally agreed that the government upon the democratic principle, which is that every man is entitled to every liberty not incompatible with equal liberty on the part of others.

On the occasion of the new Sunday code enacted in force last Sunday, the editor of the Brooklyn Eagle, in a leading article, has said that the Sabbath is the greatest boon to civilization, and contended that it is not only a right to enjoy the whole Sabbath, but that it is a duty to observe it.

THE POLICE SUPERINTENDENT'S OPINION.

"I do not think it a work of necessity that the newspapers should be sold Sunday to get up Monday's papers. That is a serious charge, and a misstatement, and I will be glad to see the list if you do not stop it."

TEMPERANCE WORKERS.

The Meeting of the Church of England Temperance Society was held in Grace church schoolhouse, Bishop Streetman in the chair. The attendance was very good and all present evinced a great interest in the work.

HOSE LAMBSKIN COATS.

The lambskin coats are out again. The first one worn, by Curtis. Was that I saw round town today. And worn by Jimmy Woot.

NEVER AGAIN.

Today the millions who people the earth will be watching for Venus as she crosses the sun. But she does come over that way again. These millions will perish and die, every one.

THE OUTLOOK.

The prospects at present are that it will be a (dark) transit today.

PUT HIM IN THE SENATE.

From the London Advertiser. Our esteemed correspondent the Toronto Telegram thinks that the senate might be held to be representative if it were composed of ex-members of the dominion cabinet, ex-ministers, ex-governors, ex-judges of the high courts, ex-speakers of the house of commons, chancellors of the universities, and presidents of the boards of trade.

THE FARMER AND HIS SLEIGH.

The honest farmer and his sleigh was a centre of attraction yesterday. The farmer was the backbone of the country, but when the one who first ventures into town with a sleigh and finds no snow or ice patiently waiting for him he straightway becomes a very demoralized piece of verbiage.

THE POLITY SHOW OPEN.

The poultry show opened at the zoo yesterday under encouraging auspices, although the weather was very unfavorable.

THE CATHEDRAL CLOCK.

The usual monthly meeting of the York pioneers was held at the Canadian institute yesterday. After routine business, a letter was read from Mr. John Laidlaw, late secretary of the citizens' committee, asking the co-operation of the pioneers in the enlargement of the clock of the cathedral.

THE BRITISH COLUMBIAN SEASON.

VICTORIA, B. C., Dec. 5.—The failure of the local government to call the new house creates comment. To-day two thirds of the members of the house signed a round robin demanding that the session be convened immediately.

VIEWS FROM VENUS.

A NEW PERSPECTIVE OF THE SHAKESPEARE TRAMMEL TO-DAY.

This morn the half of the newspaper reading masses will witness little telescopes and smoke their little glasses:

And through the day, her nibble will say, "Young folks, you see us, in transit, behold us, we are Venus."

For ever since the Queen of Love the transit was begun, it has been the thing among the boys to see the level planet:

That is, if Venus could be seen—she never was so silly. To leave of courting lordly to stage it like the Lily.

For Wallace nor could get it, no matter how he held his eye. He has been the thing among the boys to see the level planet:

To have a good square look at her, the highest reigning beauty. As each of them will fill his glass his purpose, puffing nose on.

They'll chuckle deep with glee to think that Venus has no clothes on; And Dan Diem will set on end some silly yards of wire.

But if he gets a glimpse of her he'll whisper "hoody hoody" further.

Will say, "I would not see you, dear, for your blessed countenance."

But if the moon should cloudy be—the sky be more than lowering; So many would be fabled, 'till smash an awful lot of flooring;

Will say, "I would not see you, dear, for your blessed countenance."

But if the moon should cloudy be—the sky be more than lowering; So many would be fabled, 'till smash an awful lot of flooring;

THE WRECKED PERUVIAN.

Collision in the Mercury—Barron on Crosby Beach—Passengers and Crew Saved.

New York, Dec. 5.—The steamer Peruvian, from Montreal, on entering the Mersey this morning, collided with an unknown steamer. The Peruvian is considerably damaged. She lies sunk on Crosby beach. The crew and passengers are saved.

LIVERPOOL, Dec. 5.—The Peruvian was out to the water's edge yesterday. The weather was thick. There are hopes that the break can be repaired and the vessel floated. She collided with a steamer of the Clan Line. The latter's fore compartments are full of water, and she has been docked at Montreal, Dec. 5. The loss of the Peruvian, telegraphed to-day, causes much regret here. She was one of the finest of the Allan line fleet, and her captain and crew were favorites. She was the last of the fleet to leave Montreal.

FIRES.

CHATHAM, Dec. 5.—About 6.30 this morning a fire broke out in the grocery store of Charles Evans. The stock was totally destroyed, valued for \$200 in the Queen's St. THOMAS, Dec. 5.—The barns of Joseph Selton, west of this place, were burned last night with the live stock and grain. The loss is \$200. A fire in the study of the Rev. Mr. Smith's dwelling to-day did \$250 damage.

The grand jury then returned and proceeded to business. A true bill was found against Charles Dary charged with robbing stolen goods. Judge Boyd will commence the hearing of civil cases at 9.30 this morning. To-morrow Judge Barnham of Wilby will preside in the county court, and Judge Boyd will try the criminal cases in the sessions.

Home Rule Demonstration.

LONDON, Dec. 5.—A home rule demonstration was held at Salford last evening. Among those present were O'Donnell and Kenny, members of parliament. A resolution was passed condemning the government for their determination to prosecute Davitt and Hens, and congratulating "these true patriots" on their refusal to enter into terms for bail. Kenny declared that if the government would not release Hens and Davitt it must face the task of arresting the whole Irish parliamentary party.

Rise of the Seine.

PARIS, Dec. 5.—The cellars of the Palais Bourbon, the wine vaults at Berry, and the printing offices of the newspapers Union and Univers are flooded by the overflow of the Seine. Engineers apprehend that the pressure of the Seine will destroy the causeway protecting the Esteroport Des Vins. The bridge near Charanton has a broken. The altitude of the water at Asnières bridge is 5.88 metres.

It is proposed now to construct a loop line between Hochelaga and the Grand Trunk near Point St. Charles and make a continuous line into the Grand Trunk at Quebec. It is proposed to open the Victoria bridge to traffic from the North Shore.
