

ANOTHER VICTIM OF RHEUMATISM

Entirely Well After Six Weeks' Treatment With "FRUIT-A-TIVES"

MR. AMEDEO GARCEAU

32 Hickory St., Ottawa, Ont.

"I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician.

I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take 'Fruit-a-tives' and in a week I was easier, and in six weeks I was so well I went to work again.

I look upon this fruit medicine, 'Fruit-a-tives', as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-tives' a trial."

AMEDEO GARCEAU.

50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

Nurses and Doctors Likened to Angels

THERE was still a delicious brogue and a humorous "twinkle" to Nora's tongue ten years in Canada and many heartaches. Described by her husband, she broke down under the burden of wash tubs by day and family cares by night. "Tuberculosis" said the doctor. Only rest could save her. "But, doctor, dear, what about the children?" Nora's eyes were red, for while Nora was sent to the Muskoka Free Hospital for Consumptives. Eight months effected a cure, and with help from the Samaritan Club, she is now making a home for the "childer."

"Faith" and Nora's Irish blue eyes shone as she told her story, "it's seraphims an' angels them doctors an' nurses be, an' them folks givin' the loikes of me a chance to be gettin' strong agin'."

Aren't you glad in your heart that Nora didn't die? Contributions may be sent to Sir William Gaird, 84 Spadina Avenue, Toronto, or to Geo. A. Reid, Treasurer, 223 College Street, Toronto.

FOR SPORTS WEAR

Shrimp Color Prominent in Both Hats and Dresses.

Renewed Interest in Girdle, Result of Long Waists and Egyptian Designs in Clothes.

Shrimp color is much in evidence in both hats and dresses for sports wear. A crepe de chine dress in this shade is in two pieces, the shirt having a plaited bosom and turned-back plaited cuffs as well as a plaited collar, the remainder of the blouse being plain. The skirt is accordion plaited and a straight belt of the material goes about the waist buttoning in the back. With this frock is worn a hat of alternating bands of shrimp colored organdie and straw.

The fresh interest in the girdle brought about through the long-waisted dress and the prominence of Egyptian designs in clothes has forced belts into the foreground. Even sports belts have brightened up to be in keeping with the new girdles. There are belts formed by links of various metals joined together with bright colored contrasting silk floss, and of brown leather stitched in contrasting shades. Then there are leather belts that have nickel slides at two-inch intervals. Three slides are slightly narrower than the belt, pinching the leather together.

Tan is a shade fast pushing itself to the fore in sports clothes. It is a practical color. All the bright hats and sweaters harmonize especially well with care of tan skirts, which may be of tweeds, chevots or homespun.

THE NOVELTY RIBBON BLOUSE

Charming Models Have Been Developed Which Colors Are Interestingly Combined.

Among the interesting novelty blouses recently brought out those made of strips of ribbon faggotted together are especially attractive, and they offer alluring possibilities to the woman who makes her own blouses. Either plain or gay flowered ribbon may be used. Some very charming models are shown, in which ribbon in two colors is combined. Black and white is especially effective. Ribbon is also combined very effectively with sheer materials, such as chiffon net, etc., in the development of some unusual and charming blouses.

The blouse of heavy knitted silk fabric continues to be a great favorite. That it is not destined soon to be regarded as a back number seems to be indicated by the fact that one of the foremost American designers, whose models are offered to the most exclusive clientele, has recently brought out a large collection of blouses of this material. Some are the hip length models, cut somewhat on basque lines, while others are made long by the use of very deep fringe as their trimming or finishing touch.

Blouses, or more properly, perhaps, smocks of wool jersey cloth are very popular for sport wear. That have been

regarded them with favor seems indicated by the fact that some shops carry them in both the blouse and sweater sections. It is often possible to match a smock in a separate skirt, thereby obtaining a serviceable little sport frock.

BROWN SATIN DINNER FROCK

This beautiful dinner frock is developed in brown satin meter with an over drape of brown net with embroidery in the same shade. It is so designed to give a modified hip fullness. The waistline shows a girdle of gold, blue and green metalized ribbon.

Two-Toned Ribbons

Two-toned and flowered ribbons are to be seen on many new pieces of lingerie and on sets described suitable for the bridal trousseau.

Dread of Asthma makes countless thousands miserable night after night the attacks return and even when brief respite is given the mind is still in torment from continual anticipation. Dr. J. D. Kellogg's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are warded off, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold almost everywhere.

Wedding Announcements and Invitations of the finest quality at The Guide-Advocate.

If one be troubled with corns he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

The distinctive Red Rose flavor, aroma and rich, full strength is found in every Red Rose Sealed Carton.

Never sold in bulk.

THE SHORT JACKET

Late Model, Developed in Blue Serge Is Charming.

Chic Garment Cut in Pointed Outline Is Finished With Very Full Outstanding Plaiting.

For the slender figure that dares to wear an outstanding frill at the bottom of a short jacket the new model is charming. It is developed in blue serge with fine knife plaits. The little jacket is cut in pointed outline. It reaches to just below the waistline and finishes with a very full outstanding plaiting.

The skirt starts with a hip yoke around which passes a flat folded girdle of the cloth, knotting in front. Below this are the two plaited flounces which form the skirt depth. For all its complication of design this suit looks well.

In another type of suit favorably considered is a revival of the old-fashioned, man-tailored style. The coat is three-quarters length with swinging fullness from the hips and has a simple coat sleeve, flat collar, small revers and breast pockets. Except for this side-swinging fullness it resembles a man's frock coat. The skirts of such suits are short, fairly full and gathered at the waistline. This is a very

NEW THINGS IN FASHIONS

Gray as a color for suiting is rapidly replacing tan in favor.

Both the flaring and the perfectly straight tailleurs are smart.

A sober hat of black flaunts a flaming cockade at the front of it.

Laces show signs of increasing in favor, especially for trousseaux.

For the jersey cloth suit emerald green, leather and henna shades are very popular.

Squirrel makes a summer fur piece in a high choker style, the lining a soft, brilliant bit of knit Shetland wool.

Ginghams imported from England feature stripes in two or more tones. There is a wide variety in the choice of color.

An exquisite lingerie blouse of voile is effectually trimmed with hand painting in floral design, applied at the neck and on the sleeves.

Paisley shawls are once more coming into fashion favor. Just now these beautiful articles are being made up into coats and jumper smocks.

Paris says the gauntlet glove is the thing, and is showing many interesting models in suede, with metal ribbon run in and out about the wrist. Bracelet bands of colored kid are also seen on gauntlet gloves.

Knife-plaited frills of white organdie are an effective finish for the short loose sleeve of the blue and black taffeta frock when placed on the inside, so that only about an inch or two shows below the edge of the sleeve.

Decree Longer Skirts in Fall.

The semi-annual meeting of the National Cloak, Suit and Skirt Manufacturers' association adjourned recently at Cleveland, Ohio, with the adoption of the report of the style committee for women's fall and winter garments. Longer skirts and coats, cut to give slim straight lines, and also give a great deal of latitude to the wearer, is recommended in the style report.

Ribbonized Overblouses.

Ribbonized overblouses resembling flit openwork sweaters of silk and with fringed sleeve and skirt edges are a novelty of the moment. These lend a pleasing note of color to a summer toilette of white lingerie.

POISON LIKE UNTO VENOM OF SNAKES

Professor H. Strauss, M. D., of the Royal Charity Hospital, says: "The cause for an attack of gout, rheumatism, lumbago, is supplied by the increase of uric acid in the blood serum, the result of various causes, the most frequent of which is renal. Before an attack, one suffers sometimes from headache, neuralgia, twinges of pain here and there."

When your kidneys feel like lumps of lead, when the back hurts or the urine is cloudy, full of sediment, or you have rheumatic pains or lumbago, gout, sciatica, obtain at your nearest drug store "Anurie" (anti-uric-acid).

This is the discovery of Dr. Pierce of the Invalids' Hotel, Buffalo, N. Y. "Anurie" is an antidote for this uric acid poisoning and dissolves uric acid in the body much as hot coffee dissolves sugar.

"Anurie" will penetrate into the joints and muscles, and dissolve the poisonous accumulations. It will stamp out toxins.

Montreal, Que.—"I cannot praise Dr. Pierce's Anurie (anti-uric-acid) enough for what it has done for me. For three months I was under the doctor's care and got no better. I was always complaining of my kidneys. I did not know what to do. I read about Anurie and made up my mind to try it. I have taken two boxes and don't complain any more. I have gained in weight and am still gaining. My appetite is great and sleep has come to me. That is what the Anurie Tablets have done for me. I do truly recommend them to those who are suffering the way I did. The tablets are mighty good, though not expensive. Easy to buy, but hard to beat."—T. A. BROWN, 388 Dorchester St. W.

Middle Aged Women

Women should take warning from such symptoms as heat flashes, shortness of breath, excessive nervousness, irritability, and the blues—which indicate the approach of the inevitable "Change" that comes to all women nearing middle age. We have published volumes of proof that Lydia E. Pinkham's Vegetable Compound is the greatest aid women can have during this trying period.

Read About These Two Women:

Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run-down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. Gooden, 245 Napoleon St., Fremont, Ohio.

Urbana, Ill.—"During Change of Life, in addition to the annoying symptoms I had an attack of grippe which lasted all winter and left me in a weakened condition. I felt at times that I would never be well again. I read of Lydia E. Pinkham's Vegetable Compound and what it did for women passing through the Change of Life, so I told my doctor I would try it. I soon began to gain in strength and the annoying symptoms disappeared and your Vegetable Compound has made me a well, strong woman so I do all my own housework. I cannot recommend Lydia E. Pinkham's Vegetable Compound too highly to women passing through the Change of Life."—Mrs. FRANK HANSON, 1516 South Orchard Street, Urbana, Ill.
