

WHY,

BECAUSE

Why use the machine is not how cheaply it works. It does its work better, faster and more popular.

Besides the above

We have a \$15 Hand Feed Cutter, a \$22 Hand Cutter, a \$25 Hand or Light Power Cutter, a \$60 Power Cutter, a \$40 Sweep, 2 or 4-horse power Pulper, etc.

THE LINTON INSTITUTE,
65 SHUTER STREET, - TORONTO, CANADA.

PATENTS,

CAVEATS.

TRADE MARKS,

COPYRIGHTS.

Can I Obtain a Patent? For a prompt answer and an honest opinion write to **Munn & Co.**, who have had nearly fifty years' experience in the patent business. Communications strictly confidential. A Handbook of Information concerning PATENTS and how to obtain them sent free. Also a catalogue of mechanical and scientific instruments sent free.

Patents taken through Munn & Co. receive special notice in the Scientific American, and thus are brought widely before the public without cost to the inventor. This splendid paper, issued weekly, elegantly illustrated, has by far the largest circulation of any scientific work in the world. \$3 a year. Sample copies sent free.

Building Edition, monthly, \$2.50 a year. Single copies 25 cents. Every number contains beautiful plates, in colors, and photographs of new houses, with plans, enabling builders to show the latest designs and secure contracts. Address

MUNN & CO.,
361 Broadway, - New York.

There are

MATCHES and Matches.
But when you are through experimenting, come back, as most people do, to the reliable and well-known

THE METALLIC ROOFING CO (LTD.)
MANUFACTURERS,
TORONTO.

We are the largest manufacturers of Tread Powers in the Dominion of Canada. We believe that we are also the oldest, having been manufacturing Tread Powers for nearly half a century.

We naturally believe our Powers to be the best; but we not only claim for them that they are best made in Canada but that there is no Power made in the United States that is equal to them. We wish to convince intending purchasers that we are right.

TREAD POWER.

We guarantee our Power to be a satisfactory machine in every respect, and to be as represented, or no sale, and we are within easy reach of all Canadians if machine is not as represented. Having been in the trade for nearly fifty years is a guarantee of itself that our machine has merit.

FRAME is made of white birch, bolted and tenoned solidly together, and then tired with band iron as tightly as a wheel.

LAGS are made of first quality hard maple, which is the best for this purpose, and should last with proper care for a good many years.

LAG IRONS or COGS are made of Norway iron and steel.

RODS are made of double rolled steel.

MATTHEW MOODY & SONS,

Agents Wanted.

TERREBONNE, QUE.

THE HORN-FLY TRAP
SUPPLIES THE NEED OF THE AGE.

It is guaranteed to remove and secure nine-tenths of the flies from each animal at a single sweep.
