**D. L. THOMPSON,**  
Homoeopathic Pharmacist, 364 Yonge St.,  
Send for Pamphlet. TORONTO.

## THEY ARE GROWING IN FAVOUR.

Manager Garland, of the American Dunlop Tire Co., feels highly gratified at the manner in which "Dunlops" are winning their way among the rank and file of riders. As a consequence, the output of the Dunlop factory in Toronto for '96 is already larger than that reached during the whole of '95. This result is doubtless to be laid to the fact that no expense that experience can suggest is spared to make the tires as mechanically perfect as possible. The fabric used in the construction of the covers is so closely woven that it is very difficult to puncture, and this resistance is increased through the unstinted use of rubber, adding at the same time a degree of resiliency the equal of which, experts acknowledge, no other pneumatic possesses.

In proof of this may be pointed out the long array of records held by the Dunlop tire. With mighty few exceptions all the English and French cracks use them, and witness the tallies recently established over there—Tom Linton's hour record of 30 miles and 214 yards (better than a two-minute clip throughout), and Hurst's 50 miles in 1.43.42 1-5.

## BEAUTY HINTS.

If your face is thin, dry and wrinkled, do not use hot water to wash it with; or if it is oily, no amount of cold water will cleanse it. The best thing is to consult a dermatologist as to the treatment your complexion requires. The Misses Moote & High, of 41 Carlton street, will start you in the right direction. They have lotions, salves, creams, skin purifiers and skin shrinkers to remove wrinkles, and everything, it seems, to make one beautiful.

Their parlours are cheery, freshly furnished apartments, with no nasty odours infesting the curtains and closed windows. A little yellow songster, the Misses Moote and High's favourite, sings and trills its loudest from its gilded cage in the big coloured glass window in the waiting room, giving an air of cheerfulness to the place. They accomplish a great many of their operations by means of electricity. One instrument is a fine steel needle attached to the battery, by the means of which they remove superfluous hairs almost painlessly, not alone from the surface, for a hair, like a tooth, has a root sometimes half an inch deep. One hundred and twenty of these can be removed in an hour, Miss High tells us, as she holds up her little tweezers with a coarse little hair grasped in its teeth, that she has just extracted from a mole on the cheek of a patient.

Confucius admonished his followers: "Be good and courteous to all, even to the stranger from other lands. 'If he say unto thee that he thirsteth give him a cup of warm tea, without money and without price.' He should have added, 'Give him 'Salada Ceylon Tea,' as it is so pure."

## FUNNY THINGS COME TO PASS.

Perhaps the idea of wearing wooden socks might seem ridiculous, but it's just what some people in Germany are doing, and very nice socks they are too. The wood is reduced to a long silky fibre and made into a yarn out of which the socks are knit, making a warmer, more durable and just as soft protection as woollen ones. In a similar way the pure spruce fibre is made into the interlining called Fibre Chamois, which provides for clothing an absolute protection against raw air and cold winds because it is a complete non-conductor of heat and cold, keeping in the natural heat and keeping out every breath of cold. This fabric has also been made waterproof so that the rain never penetrates it, and is so light in weight and inexpensive that a layer of it provides the acme of comfort for all outdoor clothing.

## CAN HEART FAILURE BE PREVENTED?

Startling and brief the announcement, "Sudden Death Caused by Heart Failure." Such is the stereotyped announcement of coroners, juries and reporters arousing the forebodings of those victims of indigestion and mal-nutrition, who so frequently disturb themselves upon the manifestation, in palpitation or fluttering, of functional disturbances of the heart; symptoms which they are foolishly prone to accept as the signs of an incurable, and speedily fatal, malady. Maltine with Coca Wine is potent in restoring conditions that no longer render possible such alarmingly disturbing symptoms. Maltine with Coca Wine, through its remedial influence upon the nervous system, soothes into calmness the disorganised nerves. The heart, in response to increased nerve force, no longer plunges and beats as if determined to break.

Maltine with Coca Wine has long been recognised as the most pleasant and efficient remedy for all those functional derangements that find manifestation in lassitude, sleeplessness, despondency and loss of appetite and digestive power. A nerve tonic, a body-builder, a nutrient and digestive agent of inestimable value. All druggists sell it.

This is to certify that I am more than well pleased with the Common Sense Ear Drums received of you especially for protection in windy, cold and changeable weather, for they admirably protect the sensitive ear drum from the sudden charges of draft as well as improve the hearing. E. G. Chamberlain, Parkhill, Ont., exporter of raw furs and gensing root, January 10th, 1896.
