

At a Turnip and Root Show in England, in December last, the following were the largest products per acre of Bulbs, the tops and fibres closely cut off:—

Swedfish Turnips,.....	24 tons,	2½ cwt.
White Turnips,.....	23 “	5½ “
Mangold Wurtzel,.....	28 “	11½ “
Hybrid Turnips,.....	20 “	11½ “
Belgian Carrots,.....	26 “	16½ “

RATHER EQUIVOCAL.—A Negro once gave the following toast: “The Governor ob de State; he come in wid berry little opposition; he got out wid none at all.”

OINTMENT FOR HEALING.—Turner's Cerate, four ounces; White Vitriol, powdered, half a drachm; Lard, four ounces—mixed.

Diseases of the mouth or Lampas is an enlargement of the ridges of the palate. It is usual to burn this part with a hot iron, but a mild dose of physic, or a gentle alterative, would prove a more certain remedy, rubbing at the same time the ridges of the palate with bay salt, or with vinegar. Cream of Tartar and Nitre, of each half an ounce, is a gentle alterative, given in a mash of bran.

GRIPES IN HORSES.—Mr. Mechi says, “We need never lose a horse by gripes, provided we administer, when first attacked, one ounce each of Spiits of Nitre and Paregoric, in a quart of warm water.

IOCF LIQUID FOR HORSES.—Oil of Turpentine, four ounces; Tar, four ounces; Whale Oil, eight ounces—mixed together. This mixture softens and toughens the hoofs, when brushed over them night and morning.

FOOT STOPPINGS.—Horse and cow dung, each about 2 lbs., mixed with half a pound of tar.

GREASE FOR CARTS, &c.—The following composition is recommended by a writer in the *Independence Belge*, for greasing carts and other agricultural implements:—“Take 1 lb. of caoutchouc, dissolved in a proper liquid, ¼ lb. of gelatine, 2½ lbs. of carbonate of Soda, 11 quarts of animal or vegetable oil, and as much water—boil the water with the carbonate of soda and gelatine, then add the caoutchouc and the oil, stir the mixture well until it forms a homogeneous liquid. The above proportions may be varied, and if the caoutchouc and oil are previously purified, the carbonate of soda is unnecessary. The above mixture will be found useful, not only for greasing carts, &c., but for keeping the farm harness in good order.”

Editor of the “Agricultural Journal and Transactions of the Lower Canada Agricultural Society,” WILLIAM EVANS, Esq., Secretary of the Society, to whom all communications connected with the editorial department of the Journal are to be addressed, and if by mail, post paid.

Complete files of the Agricultural Journal in English and French, from the commencement, unbound, and half-bound, may be had at the Office of the Society on moderate terms.

Also, half bound copies of Evans' Treatise on Agriculture, with the supplementary volume in both languages, together with complete files of the Agricultural Journal, from 1844 to 1846, both included.

NOTICE.

IN conformity to the 9th Section of the Act of Incorporation of the Lower Canada Agricultural Society, Notice is hereby given by the Directors of the Society, that a SPECIAL GENERAL MEETING of the MEMBERS will take place at their ROOMS, No. 25, Notre Dame Street, Montreal, on TUESDAY, the 18th day of MARCH, instant, at ELEVEN o'clock, A. M., for the purpose of revising and amending the By-laws of the Society.

By order of the Directors.

WM. EVANS,

Secy. L. C. A. S.

Montreal, March 1, 1851.

LOWER CANADA AGRICULTURAL SOCIETY.

Office of the Society, at No. 25, Notre Dame Street, Montreal, opposite the CITY HALL, and over the SEED STORE of Mr. George Shepherd, Seedsman of the Society, where the Secretary of the Society, WM. EVANS, Esq., is in attendance daily, from 10 to 1 o'clock.

AGRICULTURAL AND GARDEN SEED STORE,

No. 25, NOTRE DAME STREET,
Montreal.

THE Subscriber, SEEDSMAN to the LOWER CANADA AGRICULTURAL SOCIETY, begs to acquaint his friends and customers that he has an extensive assortment of AGRICULTURAL and GARDEN SEEDS, and PLANTS, new, and of the best quality, which will be disposed of on as favourable terms as any person in the trade. As he obtains a large portion of his Seeds from Lawson & Sons, of Edinburgh, Seedsmen to the Highland and Agricultural Society of Scotland, he expects to be able to give general satisfaction to all who favor him with their custom.

The following Seeds will be supplied to Agricultural Societies on moderate terms, viz:—

English Red Clover; Dutch Red and White Clover; Lucern; Skirving's Purple Top Swedish Turnip; Laing's do. do.; Skirving's Yellow Bullock Turnip; Long Red Mangle Wurtzel; Yellow Globe do.; Belgium White Carrot; Attingham Long Red Carrot; Long Orange Carrot.

A large proportion of the Carrot Seed has been raised in Canada and shown at the late Exhibition, for which a premium was awarded to the Subscriber.

The Subscriber has also imported Lyden's Patent Spades, Shovels, and Digging Forks, and he has also an excellent collection of Garden Tools.

GEORGE SHEPHERD.

Montreal, February 24, 1851.
