JAS. S. PARMENTER, Flushing, N. Y.

SIR: We take very great pleasure in being able to say from nearly one year's use of your Patent Dry Kiln, we find it away ahead of anything we ever tried for thoroughly drying lumber without injuring the least. So far we have found exhaust steam alone sufficient for our purpose, so that it absolutely costs us nothing to run it. We thoroughly dry white oak, rock elm, balm and other hardwood lumber in less time than we ever did with a blast kiln, and especially did it a splendid kiln for drying white oak hubs. It does its work so naturally that neither hubs nor lumber are injured by it.
