A SPECIFIC FOR VOMITING IN PREGNANCY.

TO PHYSICIANS.

It is with pleasure that we report to you the experience of eminent physicians as to the valuable medicinal qualities of INGLUVIN, and to its superiority in all cases over Pepsin.

Vomiting in Gestation and Dyspepsia.

I have used Messrs. Warner & Co.'s Ingluvin with great success in several cases of Dyspepsia and Vomiting in Pregnancy. In one case of the latter which I was attending a few weeks back, Ingluvin speedily put a stop to the vomiting, which was of a very distressing nature, when other remedies had failed.

ROBERT ELLITHERON, M.R.C.S., Lancaster House, Peckham Rye, S.E.

Dr. F. W. Campbell, of Montreal, Canada, says that with INGLUVIN he cleared three out of four cases of VOMITING IN PREGNANCY.

Dr. C. F. Clark, Brooklyn, N.Y., has used INGLUVIN very extensively in his daily practice for more than a year, and has fully tested it in many cases of VOMITING IN PREGNANCY, DYSPEPSIA and SICK STOMACH, and with the best results.

Dr. Edward P. Abbe, New Bedford, Mass., mentions a case of vomiting caused by too free use of intoxicating liquors; INGLUVIN was administered in the usual way—the effect was wonderful, the patient had immediate relief.

A gentleman living in Toronto, Canada, gives his experience. He says: "I was suffering terribly from indigestion. I could eat nothing. Life was almost a burden to me. INGLUVIN was prescribed in five to ten-grain doses; the medicine was taken for about eight weeks. Result, a permanent cure.

In fact, were we to note all remarks of the profession, and our experience in relation to this remedy, and report to you the cases in detail, we would fill a volume with expressions as to its great efficacy in the troubles for which it is recommended

DISPENSED BY ALL DRUGGISTS.

Yours respectfully,

WILLIAM R. WARNER & CO.
