

MASSEY-HARRIS WIDE-OPEN BINDER.

A Triumph of Mechanical Skill

For Symmetry and Beauty of Design, this new Machine stands unrivalled. The excellence of its mechanical principles and the extreme ease with which it can be operated in any and every kind of crop, and the perfection of the work it performs under all circumstances, place it far in advance of any previous achievements in Self-Binding Harvesting Machinery.

THE MASSEY-HARRIS CO. Limited, took immediate advantage of the extraordinary opportunity arising through the consolidation of the Massey and Harris Companies, to combine in one machine the best features of the

Toronto and Brantford Self-Binders, and the **Massey-Harris Wide-Open Binder**, illustrated above, is the result. Quite a large number of these Machines were in use during last season, and were everywhere pronounced a brilliant success.

The new and simple Binding Attachment, Improved Knotter, New Reel, New Sheaf Carrier, etc., etc., are fully described in a special catalogue, which will be posted free on application.
