Pedlar's "Perfect" Rivetted Culverts

are the choice of Municipalities and County Councils because they are rustproof and frost proof—29 times as strong as a plain iron pipe of similar guage—length for length, the **heaviest** of any corrugated culverts—weight for weight, the **strongest** culverts made.

Supplied in all sizes from 8 to 84 inches in diameter, and shipped assembled in lengths up to 40 feet. Coupling bands supplied for longer lengths.

Write Branch nearest you for Culvert Reference Book, No. 4, giving drainage tables and full data as to sizes required to handle various flows of water.

The PEDLAR PEOPLE, Limited,
ESTABLISHED 1861.

Executive Office and Factories: OSHAWA, Ont.
