(2) Reason for the corrected reply: The Treasury Board Secretariat obtains its data from a central information system. At the time the first reply was prepared the change of work location from Ottawa to Hull had not been reported for 2,000 employees for the period March 19-December 31, 1979 and for 392 employees in January, 1980.

#### NEIGHBOURHOOD IMPROVEMENT PROGRAM

##### Question No. 149—Mr. Cossitt:

What is a list of all grants made under the Neighbourhood Improvement Programme since October 31, 1972 up to the date that this question is answered, that was given to municipalities within the former Constituency of Leeds and the present constituency of Leeds-Grenville and what was the total amount granted under the program?

**Hon. Paul J. Cosgrove (Minister of Public Works):** I am advised by Canada Mortgage and Housing Corporation as follows: federal contributions to municipalities in the former constituency of Leeds and the present constituency of Leeds-Grenville are as follows:

Constituency	Municipality	Contribution Amount	Year Committed
Leeds	Perth	\$ 400,000	1977
Leeds-Grenville	Brockville	2,122,026	1974, 1975, 1976 and 1977 (for 4 NIP areas)
	Gananoque	200,000	1976
	Prescott	1,125,750	1976
	<b>Total</b>	<b>\$ 3,847,776</b>	

Federal contributions under NIP were committed only between June, 1973 and March 31, 1978, the expiry date of the program. On a national scale during the same period the federal contributions committed total \$199.3 million.

#### MILK IN NEW FORM

##### Question No. 772—Mr. Cossitt:

To the knowledge of the government, when will the new form of milk which does not require refrigeration and which will keep in sealed containers for at least six months be available to the general public and will the Department of Agriculture do anything to help promote the sale of such milk in order to assist the dairy industry?

**Hon. E. F. Whelan (Minister of Agriculture):** Currently, the ultra high temperature (UHT) milk is produced in Quebec and Alberta and distributed in Newfoundland and British Columbia.

In the near future, it will be produced and distributed in Ontario and, later this year, production will commence in British Columbia.

Agriculture Canada has helped to promote its production by providing technical expertise in the evaluation of applications for DREE grants for production facilities and by supplying the trade and public with information relating to the new product.
