

"Come in and enjoy the flowers" -
What a different reaction we had -
we wanted to go in and enjoy each
flower to its fullest but not at all
with the idea of destroying it. I
feel that is the nation's reaction
to ^{the cry of} big armies, navies or
Disarmament. I have written a
similar letter as this to Rep. Carl
Vinson and suggesting to him how
old his arguments were and how
much better for all concerned if
he would change his cry because
he knows from past history
how his cries have always turned
out for war & not peace and change
to a new thought for ^{helping to} making the
Disarmament Conference the success
it will be. A fine talk was yours -
Very Sincerely Mrs. C.E. Penner
