Quebec to Combine Commissions.

QUEBEC, Feb. 5.—Mayor Carter stated today that steps would possibly be taken to have the necessary legislation passed during the present sitting of the Ontario Legislature to enable Quebec to combine all the civic commissions into one. The city solicitor, it is understood, has been in hand at the present time, and all that is required is the passing of the necessary resolution thru the city council.

ANAEMIC MOTHERS

HERE IS RELIEF!

You Can Enrich Your Worn-out Blood and Quickly Renew Your Health With Dr. Hamilton's Pills.

Dr. Hamilton's Pills are a Real Cure.

Editor of Twenty Years States Dr. Hamilton's Pills are a Real Cure.

"I can't remember any time during the past twenty years when my heart wasn't aching. If I bent over, dark specks would come into my eyes, and it seemed as if the blood in my body wanted to rush to my head." Thus opens the letter of Mrs. Enoch S. Spry of Putnam P.O., and continuing her interesting statement she says: "Work and going upstairs caused me terrible shortness of breath that I fairly frightened me. I tell you how I feel today and you can understand what a great cure Dr. Hamilton's Pills have made. I feel strong enough now to work like a man; as for going upstairs, I eat and sleep as well as any person, and as for dizziness, which used to disappear so much, it has entirely disappeared. Dr. Hamilton's Pills are a wonderful medicine. They helped me and I know every woman that uses them will have comfort and good health. Before anything offered you, I would have said that Dr. Hamilton's Pills are the greatest cure for all ailments. I have tried them and storekeepers, or the Carleton Place, Ontario, N. Y., and Kingston, Canada.

THE WEATHER

OBSERVATORY, Toronto, Feb. 5.—The barometer remains high over the western provinces and States, and comparatively low from the great lakes to the maritime provinces. The temperature has risen considerably in the western provinces, and fallen a little from Ontario eastward. The weather is fine throughout the Dominion.

INSANITY CAN BE

USUALLY CHECKED

Montreal Expert Alienist Says,

Taken in Early Stages, Disease Is Curable.

MONTREAL, Feb. 5.—(Can. Press).—A stirring appeal for the better education of the community in matters pertaining to insanity was the basis of the report of Dr. T. J. Burgess, medical superintendent of the Verdun Hospital for the Insane, at the twenty-sixth annual meeting of the officers of that institution held this afternoon.

That, through the education of statistics gathered in the institution over which he presides. The trouble was that, as a general rule, the relatives of an afflicted individual, provided he was not dangerous, allowed his complaint to become chronic before any action was taken. By such a course the work of hospital staffs was increased, and the chance of the recovery of the patient greatly diminished. Prevention, and not cure, should be the watchword of alienists, and in this matter it devolved upon them to become the instructors of the public. The medical superintendent, as well as the physician, had here a field for their endeavors.

By providing a mentally deficient individual with occupation and amusement, wonders could be worked, and combined with treatment, cures in the majority of cases effected.

Harper, Customs Broker, McKinnon Building, 10 Jordan St., Toronto.

MACNAB ASKS

FIFTY THOUSAND

Editor Will Try to Disprove Adage That Talk Is Cheap.

MONTREAL, Feb. 5.—A new turn was taken today in the libel action of B. A. MacNab, late editor of The Montreal Star, against Hon. Col. Sam Hughes, when Charles Gaudet, K.C., solicitor for MacNab, filed amendment to his declaration.

The amendment states that, inasmuch as the defendant has denounced his action in terms of malicious oppression and butternut, 25c per box at Carleton Place, Ontario, N. Y., and Kingston, Canada.

Adams' Annual Sale of Office Furniture

Symphony Orchestra, as well as for their

personal use at the hotel.

DR. ROSE'S ACTION.

Accident Was Discussed in Lodge Room With Witnesses.

"Dr. Rose asked me in the lodge room at the High Court of the Canadian Order of Foresters if I knew anything about the case, and if I remembered his lameness. I did remember." This was what Joseph L. Campbell said in Mr. Justice Britton's non-jury assize court yesterday when T. H. Lennox, K.C., asked him when he was first requested to give evidence in the familiar case of Dr. Andrew Rose against the Toronto Railway Company for \$5,000 damages.

Dr. Rose, as everybody knows, claims to have been injured in a trolley accident in May, 1911, at the Parliament and Carlton corner. The case has been tried before, last autumn, but the court of appeal granted a new trial which is now proceeding leisurely at the city hall. It was Dr. Rose's evil fortune to meet with a bicycle accident in June, 1911, and the railway company contends that the injuries from which he is now suffering were not caused by the street car accident. It is a pretty tangle. Dr. Rose has two excellent witnesses, Mr. Campbell and Mr. Boyd, both of whom remembered the doctor having walked with a lameness and a limp between the dates of the two accidents, on the notable occasion of the convention of the High Court of the Canadian Foresters. He is lame at the present time; he limped into the courtroom yesterday. The medical evidence is slightly contradictory, which is not disturbingly unusual.

Balmey Beach Tories.

The executive of Balmey Beach Conservative Association met last evening and added 48 members to the total membership now is 112. It was decided to hold a rally and smoking concert in the Beaches Masonic Hall about the third week in March.

Fast Train Service to Montreal, via Grand Trunk Railway.

This line offers every feature pertaining to comfortable travel; it is the only double track route, and makes the fastest time. Three trains leave Toronto daily, at 9:00 a.m., 3:30 p.m., and 10:45 p.m. The 9:00 a.m. train carries parlor-library car and dining car to Montreal, also through Pullman sleeping car to Boston. The 3:30 p.m. and 10:45 p.m. trains carry electric-lighted Pullman sleepers to Montreal. Through Pullman sleeper is operated on 10:45 p.m. train to Ottawa daily. Berth reservations and full particulars at city ticket office, northwest corner King and Yonge streets. Phone Main 4209.

Have you a sore place? Have you any skin disease, old sore or obstinate wound, that has defied all efforts at healing? If so, apply Zam-Buk and prove its merits.

A Woman's Message to Women.

Mrs. James Elsworth, 902 Selkirk Ave., Winnipeg, Man., says:—"Four and a half years ago ulcers started on my left ankle, and spread until the top of my foot and limb, to the knee, was well-nigh covered. I used ointment after ointment, until everything I knew of had been tried, but I received little or no benefit. I was laid up in bed for a long time, and had no rest or sleep, night after night, from the acute pain and irritation. I consulted doctors, until I had taken treatment from at least five. After using their ointments and preparations until I was positive I could get no cure, I almost gave up in despair. I was next persuaded to try a course of treatment supplied by a company operating in this city, paying as much as thirteen dollars and a half in one week for ointments, which proved of no use whatever.

"One day a sample of Zam-Buk was left at my house. This seemed to soothe the pain almost instantly, and encouraged me to get a supply from the druggist and give it a fair trial. Zam-Buk had a wonderful effect in a very short time. The irritation and the pain were quickly relieved, and gradually the ulcers were cleansed of all poisonous matter. The discharging then ceased, and the ulcers began to show signs of healing. I kept on using Zam-Buk until every ulcer had been completely healed.

Send 1c stamp and this coupon to Zam-Buk Co., Toronto, and free sample box will be mailed.

WONDERFUL WORK FOR DEFECTIVES

Miss Carruthers Is Doing Marvelous Things With Her Class.

PARENTS ARE GRATEFUL

Many of Them Have Expressed Gratitude at Results Obtained.

Toronto is fairly seething just now with educational enthusiasts who are working out problems along theoretical lines, and offering all kinds of suggestions for the betterment of things generally. Others are working away, accepting things as they find them, doing the best possible with the resources at hand, leaving theories and their solutions to those who delight in them.

Among these practical people is Miss Carruthers, who is doing such wonderful things with her class of "defectives" at 22 Grace street. The word "wonderful" may seem extravagant, but when one witnesses big, overgrown, dull, listless boys, and nervous, frightened little girls transformed into active, happy children, interested in the work upon which they are engaged and progress marking every day of their school life with Miss Carruthers, no adjective seems too complimentary to the results in evidence.

In her class of between fifteen and a score of pupils, Miss Carruthers has found problems right to hand. Patience and a real, womanly, individual interest in the children of her care are the keys by which she finds her way to their confidence. Some of these children are poor and as a consequence underfed, and Miss Carruthers has actually boarded the board of education for a request for milk for these anemic little ones. Could motherly interest itself do more?

It is somewhat puzzling why greater interest is not shown in this little woman at Grace street, this teacher of the physically and mentally deficient in the interim of waiting for the larger environment promised our defectives. Encouragement by way of the best equipment possible for her class and the milk she asks for those whom she judges it would benefit, ought one would think to be at her immediate service.

To transform big, listless boys and little nervous girls into interested workers on basketry, to teach the hitherto untalented tongue to count, sing and read and to give to all an attraction towards school and class life are no small feats, but these are what Miss Carruthers has been doing for the past two and a half years. Under her patient and systematic management the truant has become a voluntary everyday attendant, little untrained fingers have learned to stitch and to draw, ears thought to be deaf to the charm of sound have been opened, and eyes have observed shape and color which before knew no distinction. The effects on the homes of these defectives are also worthy of comment. The mothers in several cases have themselves come to Miss Carruthers to express their gratitude at the marked improvement in their little ones. While waiting for the institutions which must come later, Miss Carruthers and her work are deserving of every support.

Somewhat Puzzling.
